night. It was a gala evening in the his-

tory of the club, which has been a great

success from its inception. There was

music and flowers and the gay chatter

of happy couples for whom twelve

o'clock came far too soon. Much

amusement was created by the animal

drawing contest. Each guest was fur-

nished with a souvenir card bearing a

number and the name of an animal,

which they were required to draw and

the others to guess the name from the

drawing. It was fine exercise for the

imagination of the guessers. When

the cards were compared it was found

that Dr. Turner had won the booby

and C. P. Sapp the prize. The booby

a book of beautiful drawings in nat-

ural history, was presented by Mr.

Charles Weaver in a few happy re-

marks, while Dr. Turner wittily pre-

sented the prize, an elephant artisti-

cally sculptured in black. An excel-

A Brief Review of the War Revenue

While the brave boys who have volunteered in Uucle Sam's army are sweltering in far away Southern camps or facing the treachery of Spanish guerillas and the naval forces are passing sleepless nights aboard the proud battleships, you, all of us, each and every individual in this broad land, are made members of the "home guard." In other words, to use a

time honored expression: While the

boys dance you must pay the fiddler. The act entitled "an act to provide ways and means to meet war expenditures, and for other purposes" was passed on the 9th of this month and nothing has escaped its argus eyed framers. In the first section and without preliminaries, immediately following the enacting clause, the tax on beer, lager beer, ale, porter and other similar fermented liquors, brewed or manufactured and sold, or stored in warehouses, or removed for consumption and sale, within the United States, by whatever name such liquors may be called, for every barrel containing not more than thirty gallons, is doubled-two dollars instead of one and a like rate for any other quantity or for the fractional parts of a bar-

Hurrying Equipment of Troops. Spanish Ship Escapes-To Keep An Eye on Cervera.

By Wire to THE TELEGRAM. Washington, June 18-The navy department is nonplussed by the reported sailing of Camara's Cadiz squadron. The fact that the squadron has troops aboard is taken as an indication that it is bound for the Canaries. But whether it is intended to bombard our coast cities afterward is a mystery. The administration is of the opinion that such is not its intention. The strategy board attributes its sailing to a purpose on the part of

STORY FROM MADRID .

The ships then retired.

freight and express companies shall contain each, duly attached and canceled, a one-cent stamp.

And so on throughout the complete list of everything conceivable, almost, used by men in business, there is a duty, revenue or tax attached. And it is arranged so that in almost every instance, the consumer pays the bill. The tobacco manufacturers are allowed to reduce the size of the package as will be seen from the provision which says: That in lieu of the two, three, and four ounce packages of tobacco and snuff now authorized by law, there may be packages thereof containing one and two-third ounces, two and one-half ounces, and three and one-third ounces, respectively, and in addition to packages now authorized by law, there may be packages containing one ounce of smoking tobacco.

The bill is a sweeping document and nothing is slighted. Evidently a searchlight more powerful than that used aboard the battleships was used in its preparation. It comprises fiftyone sections and makes twenty-five pages of closely printed matter, and went into effect on the day next succeeding the date of its passage except as otherwise specially provided for.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second tottle has absolutely cured me. demeanor, and upon conviction fined I have not had as good health for 20 not less than \$50 and imprisoned not years. By Wire to THE TELEGRAM. Washington, June 18-President Mc-Kinley said that he would not be surprised to hear today that Shafter's expedition had arrived at Santiago although he did not really expect information before tomorrow. The vessels may reach Cuban soil and a landing be effected before the war department is advised. By tomorrow at the latest it is thought the ships will arrive at Guantanamo and the soldiers be ready for the serious work that has been cut out for them.

Meantime the administration is devoting its attention to perfecting the plans for the Porto Rican expedition, which will follow close upon the heels of that to Santiago, and to the carrying out of the president's plans for sending relief to the suffering and starving people on the island of Cuba.

BRUSH WITH THE ENEMY. Off Santiago, June 17-A hot brush occurred at daylight this morning between the Spanish troops and a reconnoitering party on steam cutters in a small cove to the west of Morro Castle. Lieutenant Marlow entered the cove for the purpose of taking soundings. When he had gotten inside the inlet Spanish infantry opened a hot fire from a blockhouse. The Americans vigorously replied. The New York's cutter, under command of Ensign Powell, was struck ten times but none of the men was injured. The Texas opened fire on the Spaniards on the hillside with her six-pounders and the Vixen steamed into the cove and peppered the blockhouse. The Spaniards hereupon beat a hasty retreat. The

in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer.
