A BUILDING ASSOCIATION.

Would it Not Be a Good Thing For Many Greensboro People?

In building a city it is essential that all good citizens be encouraged to buy, to own and improve their own homes. Isn't this true? Yes, you will answer. Very well; but how and in what manner can they be best encouraged? We submit that what we deem the most available plan, is one that is being worked successfully in many cities and towns—a home building association.

Without entering into an argument to prove the beneficial results of the plan, let us call to your attention the work of the John B. Stetson Building and Loan Association in Philadelphia. It was incorporated in January, 1880. Since that time 18 series of stock have been issued, of which seven have matured and been paid, the seventh having been paid off on the 9th day of June. The eighteenth series was issued in January 1898, with subscriptions for 450 shares. There are now in existence 2,905 shares of stock, all of which are held by employees of the John B. Stetson company.

The largest number of shares ever issued in any one series was 517, and of that series 215 shares were borrowed. The present assets of the association amount to \$235,255.74. The undivided profits at the end of last year were almost \$54,000.

This association was formed with the sole object of helping the employees in owning their own homes, and to encourage them in saving money for that purpose, as well as for the benefit of their families. Since its foundation it has been extremely successful, and has never been compelled to foreclose a mortgage nor to take the property because interest had not been paid on the loans. The employees feel that it is of the greatest possible benefit to themselves.

What has been done as above described in Philadelphia, can be done with equal success in Greensboro, with honest effort and competent management. There are numbers of good people here ready to take hold of the plan when the opportunity is offered. What will we do about it?

OUR CHURCH RECORD.

Notes on The Special Historical Issue Number One.

As mentioned in these columns on yesterday the special historical issue of Our Church Record has been sent out. It is replete with facts and figures with reference to the origin of that paper and its handsome and commodious home, the M. P. Publishing House building, which is a monument to the industry of the Grace church members who conceived the idea of its erection, as well as an ornament to the city of Greensboro.

This edition of Our Church Record is splendidly illustrated with pictures of the publishing house, of several different churches in the city and other parts of the state, of the interior of the editor's office, composing room, Dr. Johnson's office, Workman's furniture store, State Normal and Industrial college, Greensboro Female college, Greensboro National Bank, South Greensboro graded school, the McAdoo House, Odell Hardware company's building, several of our lumber mills, the Keeley Institute and a number of handsome residences.

Aside from church history, this special edition of the Record is valuable as regards the history of Greensboro. It goes back to the formation of Guilford county in 1770, and tells of the old court house out where the decisive battle of the revolution was fought and of the subsequent location of the court house at this place, which is the exact geographical center of the county.
It is a valuable and interesting publication and the efforts of Editor McCulloch and Mr. J. Norman Willis in its preparation should, and no doubt will, be duly appreciated. Mr. McCulloch is a practical printer, as well as a good editor and to him is due the credit of the attractive and convenient arrangement of the paper, while Mr. Willis rendered valuable assistance in the preparation of matter as well as in securing a good advertising patronage of the paper.
Both of these gentlemen have our congratulations on the work they have done, both for their church and for the city of Greensboro.

Senators Agin Annexation.

By Wire to THE TELEGRAM.
Washington, June 24—Today's session of the senate was taken up by the Newlands annexations resolutions, discussion on which question was resumed immediately after the senate convened. Senator Samuel D. McEnery, of Louisiana; secured the floor and is now speaking against the proposition to annex the Hawaii.

ON THEIR WAY TO SANTIAGO

Shafter and His Men Are Marching on the City.

THE SPANIARDS IN FULL RETREAT

A Great Battle Momentarily Expected—More Transports are Ordered—The Troops Moving.

By Cable to THE TELEGRAM.

On board despatch boat, off Jarragua, Thursday night—The advance portion of the American army has reached the edge of the tableland in which the harbor of Santiago lies and is now within seven miles of Morro Castle. The main body of the united troops of the Spaniards is now in full retreat toward Santiago. A surprise may be attempted by the Spaniards but no decisive engagement is now expected to occur for several days. Lawton's brigade, which rested last night at Demajaybo was delighted to resume the march today at noon. An American flag is now flying here. The Spaniards retired before the advance of the Americans burning blockhouses behind them. Jarragua was abandoned by the Spanish under Linares so hurriedly they had no time to burn the town. Sharp brushes occurred during the day between several detachments. This evening the remaining troop ships attempted to land their cargo of troops but it was impossible to do so because of the heavy sea.

BLOODY BATTLE ANTICIPATED.

Washington, June 24—Adjutant General Corbin is expecting to receive at any moment the news that a great battle has been fought near Santiago.

It is known that fierce skirmishing between the soldiers at night has taken place but no decisive battle has yet believed to have been fought. Reports received from Madrid say the American army has been met by the Spanish soldiers and repulsed. This report is not credited by army officials. Secretary of war Alger states that he expects the capture of the City of Santiago to be a bloody victory. The desperate stand that the Spaniards have taken practically makes it necessary to annihilate them before the city will surrender.

READY TO SURRENDER.

Washington, June 24—Advices from General Shafter indicate that the army will be ready to march tomorrow. All the heavy artillery has already been landed and the work today will be devoted to putting it in shape to be transported to Santiago. The troops are well and in the best of spirits. Severe fighting is reported to have taken place between the Cubans and Spaniards in the hills back of Baiquiri, northwest of Santiago. The Cubans are forcing the enemy back toward the American landing place toward the city of Santiago.

AN OFFER OF TRANSPORTS.

New York, June 24—Offers will be made soon to the authorities at Washington of a large number of steamships for use as transports by various steamship companies.

MORE TROOPS MOVING.

Mobile, June 24—The First Regiment of Louisiana volunteers left this morning for Miami; the First Alabama will leave this afternoon. Governor Johnson has issued a call for four companies of colored volunteers.

TO KEY WEST.

Newport, Conn, June 24—The two sister torpedo boats Gwin and Talbot sailed from here this morning for Key West. They are members of the torpedo fleet ordered to Key West.

MORE TROOPS FOR SANTIAGO.

Washington, June 24—Orders have been issued by the war department for the remainder of the Thirty-fourth Michigan and Ninth Massachusetts volunteer regiments now in camp at Fall's church, Virginia, to proceed immediately to Newport News where they will embark on the auxiliary cruiser Harvard which is being prepared to go to reinforce General Shafter at Santiago. Two thousand cases of cartridges have been shipped from Camp Alger for the use of the troops that have been ordered to Santiago.

Superior Court.

The case of Henderson Reed vs the Southern Railway was the last case tried yesterday, for \$2,000 damages. Recovered nothing.

The case being tried today is that of John W. Strocker and wife vs. the Aberdeen & Asheboro railway for \$5,000 damages, for alleged insult to Mrs. Strocker by the conductor Leach on the above named road. Lawyers are arguing the case as we go to press.

Bits of Capital Gossip.

The fund for the Worth Bagley monument is now approaching \$2,000. It is gratifying to know that the first of the new torpedo boats is ordered named the "Worth Bagley." A telegram from Congressman Pearson so states.

Four more telegraphers are expected by Adjutant General to leave here tomorrow for the Philippines, these being Carlton, Mengus, Killian and Perry.

Edward A. Johnson, a negro lawyer of Raleigh was today sworn in as clerk to United States District Attorney Bernard. The salary is \$600.

It is the talk around camp that another captain of the regiment is to be court-martialed and that whiskey is the trouble in his case as in that already mentioned. It is also said that there will quickly be two vacancies, and that two second lieutenants may, by reason of ability, be made captains.

There are today exactly 100 Federal convicts in the penitentiary here. Many of these work in the shirt factory. Some work in the farm, or rather the garden. The latter is very fine. It contains 40 acres and Gardner Porton is certainly a past master of his art.

One of the closest personal friends of the governor said this morning that he was greatly worried by the episode at the executive office and that had he reached there ten minutes earlier no such thing would have happened. He said the governor had long had an idea that he would be attacked. It seems that he has had this notion these many years past. There seems to be no denial of the statements that he has a gun and a pistol in his office close at hand. Some one suggested today that possibly this shot gun is the one which the governor's negro messenger was armed with the night when Caldwell and Pearson broke into the railroad commission office some months ago, at midnight. Why in the world the governor has the idea that he will be attacked is a puzzle, but it appears to be set in his mind. This last affair will make the matter very prominent. A suit may result from it. Lawyers of prominence are being consulted in regard to the case.—Col. Olds Correspondence.

To Quell Riots.

Milwaukee, June 24—Governor Schofield has ordered the remaining troops in this state to quell the riots among woodworkers in Oshkosh.

The Cadiz Fleet Takes a Sail in the Mediterranean—Adverse News From Santiago.

By Cable to THE TELEGRAM.

Madrid, June 24—The debate in the chamber of deputies yesterday's was marked with great disorder and scenes of the greatest confusion prevailed. Senator Reblado strongly advocated that peace negotiations be opened direct with the United States and not through the powers. In his remarks he took occasion to severely criticize the various government officials and the newspapers. It is openly rumored that a rupture has occurred in the cabinet.

City Ownership.

The campaign now going on in Durham and reported in these columns yesterday for city ownership of waterworks, gas, electric lighting, etc., has received an added impetus by the late decision of our supreme court in "Thrift vs. Elizabeth City." That decision holds that no town or city can grant to any private company the exclusive right to operate such franchises is void. From an interesting article by Prof. Frank Parsons, of the comparative cost of electric lighting under city ownership and private ownership we extract the following cost per lamp per year.

Spain Wants Peace.

A Madrid correspondent says a prominent conservative politician says peace is an absolute necessity and further adds:

"War under the conditions we are waging means sheer ruin. Our colonial empire is irretrievably lost. In anticipation of disturbances, the government ought to disband and disarm the colonial army and embark it for home in installments.
"By continuing the war the government is committing a crime against the country. We must have peace at whatever cost. It is the only means of preserving the monarchy, averting a civil war and an appalling revolution."
