A Hospi al for Greensboro's Colored

Citizens.

The hospital for the colored people of Greensboro has now reached that point where it is only a question of time until theinstitution will be open to receive patients. The opening of this hospital will make an advance in the WATSON'S treatment of disease among the colored people of the city and its influence in adding to the general health will be He Has Gone to Get His Squadron. noticeable.

Sevier, pastor of the congregational church, who is intrusted with the securing of funds and management. He deserves great credit for

the faithful work he has performed: "The hospital for the colored people of Greensboro is located in a neat building on a lot 50x165 recently purchased of Mr. Ed. Wharton and deeded to a board of trustees. The institution will be known as The Loyal T. Graham Hospital for the negro. The building is in course of preparation for the reception of inmates and will be in condition by October 1st. There will be two wards in the building-one for males and the other for females. Each ward will contain three beds, together with a free bed. One of the beds has already been endowed by a generous Christian lady of Philadelphia. A trained nurse from one of best northern hospitals will be placed in full charge."

This institution deserves and will no doubt, secure liberal donations from people of all classes. An appeal is made to all to help this worthy

of yesterday decided to advance the prices of certain proprietary medicines owing to the war tax and of some drugs influenced by the tax or the increased demand for them, owing to their consumption as war supplies. All proprietary medicines now sold below the regular published prices of the manufacturers will be advanced to such prices while some will continue to be sold at the old prices. Some drugs like sulphur, which is used so largely in the manufacture of explosives, and some in demand in the surgical department of the army will also be advanced. The new scale of prices will go into effect on and after July the first. This action it is thought will equitably distribute the burdens of the war tax as between dealer and

Of Interest to Cyclists.

Work is progressing rapidly and satisfactorily for the road race on the Fourth and it now seems that the race will be a success. The road will be in good shape and free from all vehicles and other obstructions. The race will begin at 5 o'clock, immediately following the boys contest. Some interest is manifested by cyclists in other towns throughout the state and Mr. Wingate is hopeful that a large number of riders will send in their names. The admission fee for each contestant

The St. Paul Puts The Terror Hors de Combat.

WORK CUT OUT

Will Miles Take Charge of Opera-

tions at Santiago?

Washington, June 28 - Captain Sigsbee, of the auxiliary cruiser St. Paul, reports an attack on his vessel by an unprotected Spanish cruiser and the torpedo destroyer Terror last Wednesday afternoon off San Juan de Puerto Rico. The Terror made a dash for the American boat. The St. Paul quietly awaited her approach and when the Terror was in good range opened fire. The Terror was hit three times, an officer and two men were killed and three wounded. The Terror dropped back under cover of the fortifications making the trip with great difficulty. She was later towed into the harbor in a sinking condition and is now being repaired at San

WATSON'S CAMPAIGN.

Washington, June 28-It has been decided that Commodore Watson's first objective point will be the Canary Islands where he will seize a base for supplies. Having secured this he will then proceed to the coast of Spain and bombard Ferrol, Cartagena, and Barcelona, where ship yards are located. Should the Spanish government recall Admiral Camara, who is at the Suez | Springs. Canal, a great naval engagement will take place in Spanish waters. SET-BACK FOR MILES.

Washington, June 28-It is stated on the best of authority that President McKinley after careful consideration has decided not to grant the request of Major-General Miles that he be sent to Santiago. In the judgment of the president General Shafter is entitled to all the crdit that may result from the Santiago campaign. The honor of directing American operations before that city is naturally coveted for the reason that like Dewey's achievement at Manila, it may result in substantial promotion for the officer highest in command. General Miles however will soon leave on a tour of inspection and will eventually see Porto Rico.

FOURTH MANILA.

San Francisco, June 28 - General Otis is busy with the reorganization of the troops remaining here into a fourth expedition to be sent to Manila. The expedition will probably consist of six thousand troops under the command of Otis and it is thought will be ready to sail not later than

Special Train to Raleigh.

To the vestibule from the north this morning was attached the private car of third vice-president Finley, of the Southern. The car was immediately attached to a special train for Raleigh. The railroad commissioners meet today and this fact very probably accounts for Mr. Finley's haste to reach the capital city.

Thinks it is All a Bluff.

London, June 28-The Washington corr spondent of the Daily Chronicle says: "Spain is to be frightened into making peace. That is the meaning of the theatrical announcement of the Americans that a squadron is going to Spain, announcement for which the navy department, contrary to its custom, has sought the widest publicity. President McKinley sincerely hopes the fleet will never sail."

Palmetto Coons Not Wanted.

K. L. Vernon, of the Southern railway, tonight showed the Adjutant General a telegram from the station agent at Charlotte saving that 75 of Gray Toole's Charlotte negro company were at Rock Hill, S. C., and that Toole wanted to know if he could get transportation for this 75 to Charlotte and thence to Fort Macon. The Adjutant General was very indignant atthis effort to import South Carolinians. He sent the following telegram to Toole: "I understand 75 of your men are in Rock Hill. As we do not want any soldiers from South Carolina, I have deducted 75 from your 109. You can bring only 40, and I will get you 75 from this state for your company.' The Adjutant General says he will divide this 75 between two other towns. Toole is knocked out as captain.

The Negro Regiment.

It seems that the government wants to get the negro regiment, which will be the Third, in service as quickly as possible. It is said it will be quickly sent to Florida, no doubt to Tampa or Key West. The adjutant general made this remark today about the desire for speedy mobilization. He telegraphed for the contingents of the regiment at Asheville, Rutherfordton, Statesville, Maxton, Charlotte, Winston, Greensboro, and Durham to rendezvous at Fort Macon Thursday. These aggregate 550. The other 500 ordered to rendezvous there Saturday next. Out of the 1,050, 863 men are necessary to complete the regiment. This will give a margin of nearly 200 for rejections by the surgeons.-Col.

Smallpox in Catawba.

Newton, June 27-A family of negroes in the eastern part of the county were suspected of having smallpox. The case was reported to the county health authorities, who at once procured Dr. H. F. Long, of Statesville, to make an examination. He reports five patients in this family as undoubtedly having smallpox in its different stages, though it is of a mild form. The report also shows that it came to this family through the same negro who spread the disease at Statesville and Belmont, he having stayed all night at this house about five weeks
