THE FIREMEN'S PRACTICE.

### It Was Satisfactory, Interesting and Full of Excitement.

The practice yesterday afternoon by the fire department was satisfactory. The boys have not yet become over skillful in handling the new truck but are fast beginning to get the ladders up on a building in a very creditable manner. A few more afternoons of practice will, it is hoped, get them in | San Juan Forts Captured and Morro championship form for the annual contest. The boys will begin to practice in dead earnest next week and will give a good account of themselves at

Goldsboro. The practice was not at all dull yesterday. On the contrary, it was full of interesting and exciting incidents, and one of them came near being very unpleasant for one of the department's guests. An alarm was turned in from box 32 at the McAdoo corner by President J. D. McNeill, of Fayetteville, as a signal for the trucks and engine to leave their respective houses. A few minutes after the alarm was sent in, the chief's buggy containing Chas. Corl and Chief Monroe, of the Wilmington Fire Department, was seen coming down North Elm with the horse going at a long swinging gallop and at the same time the Eagle hose wagon was coming up North Elm at full speed. In front of the National Bank the two collided, but, fortunately at an angle. The horse hitched to the chief's buggy struck the hose wagon horse sidewise and tilted the buggy to one side. Mr. Monroe lightly sprang to the ground and escaped injury. It was a very narrow, if not miraculous, escape. The buggy was considerably damaged but neither the horse nor Mr. Monroe was hurt. Mr. Corl as a result of the collision

had his right collar bone broken. It has been dressed and bandaged and is getting along as well as could be ex-Many of the spectators expected to

see all three seriously injured. All of the apparatus quickly rea number of streams were being played on the nearby buildings. Three streams were turned on the bank building and one stream on the Mc-Adoo corner building.

The next movement practiced was the "water tower." The new hook and ladder truck was pulled into the middle of the street and the "tower" sent up. The ladders of the truck made a tower of forty-five feet high, from the top of which a stream of water, with the help of "General Greene," was thrown. The combined heighth of tower and water was nearly 150 feet.

Capt. Boycott climbed the tower and held the muzzle. The tower was slowly turned around and the crowd of spectators, probably a thousand or more had to run to shelter or open their umbrellas. Chief Monroe highly complimented the boys on their work.

DON'T MIX YOUR STAMPS.

### And Be Careful That Stamps Are Properly Cancelled.

The fact that some of the internal revenue stamps are merely postage stamps with "I. R." printed on them ten able teachers. Courses of study is liable to lead to mistakes. Already a\_number of letters have been mailed bearing internal revenue instead of postage stamps. The stamps cannot be used interchangeably. Therefore see to it that no revenue stamps go on your letters and that postage stamps are not used for the new purposes prescribed by the law.

> As to the places where stamps may be had. All the banks have the regular two cent internal revenue stamps and will accommodate patrons. The Western Union Telegraph office keeps the one cent variety used on messages. The railroads are supplied with the kind used on bills of lading and all instruments in railroad business. The stamps of larger denomination than two cents have not arrived, we are informed, but the amounts may be made up of two cent stamps until the larger denominations are available. Those who have occasion to use the new stamps should be careful to see that they are properly cancelled as heavy penalties are imposed for infringement of the law. The stamp is cancelled by writing on it your initials and the date. By careful attention to these matters you may save yourself trouble and money.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we cles of every description-in fact, we tried Chamberlain's Colic, Cholera can supply you with anything in the and Diarrhoea Remedy. ## SWEPT ALL BEFORE THEM.

Americans Capture the Spanish

## Entrenchments.

is Doomed-Americans at the Very Gates of the City.

THOUSAND KILLED AND WOUNDED

By Cable to THE TELEGRAM.

Siboney, July 2-The fighting aroung Santiago practically stopped at nine o'clock on yesterday evening. It was resumed with renewed vigor this morning and is raging flercely all along the lines. The Spaniards are fighting like demons but the American onset is irresistible. By eight o'clock on yesterday evening the American troops had advanced nearly to the city limits. The losses- in yesterday's fighting are now estimated at over one thousand men killed and wounded. The American reserves are being hurried to the front with the apparent intention of forcing a way into Santiago. The fortifications of the city are very strong and the fatalities have been large in consequence. The chief sufferer in yesterday's fighting was the Twenty-first Infantry of the regular army. It bore the brunt of the fighting and was engaged in storming the outposts.

SAN JUAN CAPTURED.

Santiago, July 2 - Early this morning the fighting was resumed by the advance of the Americans under Kent. San Juan heights, lying between the American army and Morro Castle and constituting the chief landward defense of the castle, have fallen into the hands of the Americans. The way for an advance on Morro Castle is now open and its fall is imminent. The victory at San Juan heights was dearly purchased. The place was the trongest of all the Spanish defences It was strongly fortified and valiantly defended. The natural strength of the place was great. The Spaniards were stationed on the top of a very steep hill defended by artillery and barracades. The height was also occupied by barracks. The Americans stormed the heights after a fierce engagement in which both sides lost heavily. The Spaniards were finally dislodged and driven back at every point the Americans taking possession of the heights. The village of Caney was also captured by the Americans. General Kent, who commanded the division which stormed the heights, is greatly elated with the victory and is enthusiastic in his praise of the dash and daring of the American troops.

TRIED ONCE TOO OFTEN. Key West, July 2-The British steamship Benitestingen was brought into port a prize this morning. She was captured off the southern coast of Cuba while attempting to run the blockade. She had aboard a large quantity of supplies which had been taken on at Jamaica for Gen. Blanco. Several Spanish smacks that were captured are also here.

NOTHING ELSE TO DO.

Cadiz, July 2-Admiral Camara's fleet has been engaged in a sham battle for the last two days. The officials have notified the consul at Port Said that two of Camara's warships have entered Suez canal and the rest have put out to sea to coal.

RELIEF AND BUFFALO FOR CUBA. New York, July 2-The hospital ship Relief and the dynamite cruiser Buffalo will clear from here this afternoon and go to the scene of operations

TO HURRY TO SHAFTER'S AID.

Camp Alger, Va., July 2-Hurried preparations are being made to reinforce General Shafter. It is probable the Eighth Ohio and Sixth Illinois will be sent on the cruiser Yale as soon as she arrives. Many new rifles are being received and large supplies of everything here indicate that a quick movement will be made upon the arrival of the Yale.

## The Railway Crossings

There has been much complaint among those who drive across the Southern crossings because they are not warned of the approach of a train. Frequently, and too often for public good perhaps, have the flagmen at some of the crossings been seen down the street and away from his post when freight and shifting trains were

passing. An instance which demonstrated the value of the flagmen and guards occurred this morning at the Davie street crossing an account which apitorious remedy.-G. M. Law, Keokuk that safety is given both pedestrians

## NOTES FROM HIGH POINT.

The Local News from Our Neighbo Briefly Told.

### BIG FIRE IN WINSTON. .

Loss Estimated at Forty Thousand Dollars.

Special to the Telegram.

Winston, July 2-Fire broke out in the second story of Huntley's furniture store on trade on Trade street about half past two o'clock this morning. The origin of the fire is unknown. Beflames under control the stores of Huntley and T.A. Roberson were consumed. The stores of Martin & Rose, general merchants, R. A. Mills, general merchant and the establishment of the Winston Hardware company were partially. The buildings belonged to T. L. Vaughn The loss as near as it can be estimated at thistime is about \$40,000. The isurance so far as can be learned is as follows: Huntley \$1,000, Wills \$6,700, Martin & Rose \$4,500, Winston Hardware Co., \$1,500, Vaught, on buildings, \$1,000. The buildings burned were situated near the mammoth Piedmont tobacco warehouse and T.L. Vaughn's tobacco factory. These buildings were saved.

## The Guilford Lawn Party.

### The Boat Races. By Wire to THE TELEGRAM.

Saratoga Lake, July 2-The fresh man race was rowed this morning at nine o'clock. The conditions of the weather were favorable and the water was like glass. The betting favored Cornell. The race resulted: Cornell first, Columbia second, Pennsylvania third.

The 'Varsity race was rowed at half past ten o'clock and resulted as follows: University of Pennsylvania first, Cornell second, Wisconsin third. Columbia last.

## Attention Firemen.

The members of Greensboro Hook and Ladder Co., No. 1, are requested m. Monday, to take part in the Battle Ground parade.

O. D. Boycott, Foreman. L. W. Wharton, Secretary.

# HAVE WE TAKEN SANTIAGO?

Alger Sald the City Would Be Captured by Tonight,

## SAMPSON TO FORCE THE HARBOR

And Sink Cervera, Ships-Despite American Victory Gen. Miles Says The Situation is Critical.

By Wire to THE TELEGRAM.

Washington, July 2-There is no doubt in the minds of the officials of the war department that Gen. Shafter resumed his attack on Santiago this morning. According to a dispatch received by the war department, the Americans began this morning shortly after daybreak a general assault on the city of Santiago. The department is silent in regard to the message. Secretary Alger says he expects that by sunset this evening the city will have fallen and the Spanish forces either taken prisoners or in full flight from the city. Dispatches received from the front make it almost certain that the American troops will capture the city tonight. The dispatches also stated that Admiral Sampson had not entered the harbor this morning, but will bring his vessels in during the day and sink Cevera's ships. The only thing to block his passage is a powerful battery placed at Cayo Smith, just inside the harbor.

During the night the Vesuvius hurled a dozen dynamite shells at the island and the place must now be torn into shreds. It is thought that more than 1000 Americans were killed and wounded. The chief sufferers are the fore the fire company could get the first, fourth, twenty-first, seventh, sixtieth, sixth and tenth regiments of the regular army, and the seventy-first New York, and second Massachusetts volunteer regiments.

The Rough Riders were not actively engaged. News of a second battle is nomentarily expected.

SHAFTER NEEDS MEDICAL AID. Washington, July 2-A dispatch received from General Shafter says he must have a fully equipped hospital ship at once with more medical officers and additional supplies. He

SITUATION CRITICAL.

states he stands in great need of more

Washington, July 2-A despatch has been received from General Shafter saying that the American loss was at first underestimated. The despatch has created a commotion in official circles. After a short session the war board sent a despatch to New York ordering relief hospital ships to sail from New York at once to join Shafter. It is believed however that the hospital ships have already sailed for the south in which case they will touch either at Tampa or Savannah and orders have been sent to both points in anticipation of that event. General Miles said today that he regarded the situation at Santiago as very grave, even critical. The news has caused

a stir in all the departments. GENERAL ENGAGEMENT FOUGHT.

Washington. July 2-The profoundest concern in official circles marked the opening of the day here. War department admits fighting around Santiago has been desperate. Casualities known to be over a thousand. Secretary Alger, Adjutant-General Corbin and Surgeon-General Sternberg held a conference this morning. It is understood the latter will send a large force of medical officers with appliances to join General Shafter without delay. Department refused to give out anything for publication this morning beyond saying that the first estimate of casualties was far below the actual loss.

Great seriousness pervades military circles. The news that gallant troops had captured the plateau of San Juan and Caney was welcome, but there is now full realization that this was done in the face of a withering fire instead of a skirmish on the right flank as reported. It is now clear that a general engagement has been fought.

## Third Anniversary.

The third anniversary of the Bethel A. M. E. church will beheld tomorrow. The members have just put in new pews and will use them for the first time tomorrow. The pastor of the church invites everybody to be present and will reserve seats for the white friends of the church. Rev. J. E. Gay will conduct the afternoon service to be held at three o'clock. Presiding elder King, a former pastor of the church, will conduct one of the services. The members anticipate pleasant and profitable services.

## Lawn Party.

There will be a lawn party Wednesday night, next, on the beautiful lawn id Society of St. Audrew's church. First-class cream and cake will be served and at low prices. IN THE TEETH OF THE LAW.

### Southern Express Company Refuses to Pay the Tax.

There is likely to be considerable trouble over the new revenue law, in more ways than one.

Section A of the law explicitly declares that railroad and express companies shall issue to the shipper a receipt or bill of lading for goods, duly stamped, and affixes as a penalty a fine of \$50 to be paid by such company for

failure to comply with the provision. The various express companies held meeting in New York and issued a circular to all agents stating that the shipper must pay the tax, despite the

clear declaration of the law: On yesterday the Odell Hardware Company took a package to the express office for shipment. The agent received the package, stamped the receipt and asked that the stamp be paid for by the shipper. The shipper declined and the express agent refused to deliver the receipt until he could hear from headquarters. Instructions came not to issue the receipt. This morning the Odell Hardware Company took another package to the office of the express company and the agent refused to receive the package until the stamp on the receipt had been paid for. Thus the matter stands.

An able attorney, whose advice in the matter was asked for, says it will be the duty of the district attorney to institute an action for all such failures to comply with the provisions of the Baby's Health in Hot Weather law. Therefore, if you are a shipper preserve the data and call the matter to the attention of District Attorney Holton that action may be brought.

In addition to this there is a state statute which imposes a penalty of \$50. for refusal on the part of a common carrier to transport such goods as are usually handled by the company. Beside the penalty each shipper is entitled to such damages as may result Foods all the best. from the refusal to ship or the nonshipment of goods.

to the meaning of the law. The provision that the company shall pay the tax is as clear and explicit as the English language can make it. It is an unadulterated attempt on the part fears the extent of the American loss of the express company to bulldoze the has been underestimated. He says he shipper into paying the tax. The railroad companies pay the tax, imposed by the same paragraph and in the same language. If all shippers follow the courageous example of the Odell Hardware company the express company can be forced to pay the tax. It is only a small matter but it is a question of right and the shipper should not allow himself to be im- 504 So. Elm. posed upon.

The Singin Skule. The "beginment" of Jedediah Bobbin's "Singin Skule" last night at the court house was well attended and much enjoyed. Nearly all of scholars were dressed in old time costumes and every character from the dude to his country cousin was represented. The entertainment was unique and novel and although the weather was exceedngly warm the audience did not seem to tire or grow restless. The scholars played well their parts and kept those present continually laughing.

Among the songs, those sung by Richard Crawford and Miss Lola Carraway and Mr. Willard and Miss Hattie Watlington deserve special mention. Jim Rankin played the part of Davy Doodle to perfection and Bob Glenn was a typical Yellow Kid. Messrs. Frank and Henry Boyles, Marvin Carr, Jule Reitzel, Elmer Richardson and Louis Beall were particularly amusing.

Misses Susie Stone and May Small were typical old maids. The two twins, Misses Mamie Roberts and Lettie Shober, won the prize for the greatest improvement in singing. The entertainment was a success and many spoke of wishing to see it played Southern Stock Mutual and The Underwriter's
