A Shirt-Washing General.

I have seen a private letter from Gen. Gatacre to a friend in a high place, in which the general describes himself as perfectly happy in the Soudan. He had only one shirt to his back, which he washed for himself from time to time; he lived on tinned meat, and occupied a straw shelter without furniture and with nothing more than a blanket to cover him, but he was in rude health and the best spirits, and all his men were the same. DOES IT MEAN SURRENDER?

Shafter Reports a Quiet Day Around Santiago.

WHAT MAY OR MAY NOT HAPPEN.

The Last Gap in the American Lines Filled By the Ohio and Illinois Troops.

By Wire to THE TELEGRAM.

At the Front, July 11, via Playa del Este, 12-The city of Santiago is today completely surrounded by the Americans and Cubans, the last gap having been filled by the Ohio and Illinois troops thus shutting off the last avenue of escape for the Spanish

The American line now extends from Ratero west to Harado Ladron. The bombardment was resumed this morning by the batteries and the fleet and was continued until one o'clock in the afternoon when General Shafter sent a message to the Spanish commander under a flag of truce, containing, it is believed a request for the surrender of the army and the city, but no reply has yet been received.

SHAFTER CABLES VERY QUIET. Washington, July 12-Gen. Shafter cables the following to the officials here, which was probably written on

Headquarters Fifth Army Corps-It has been very quiet here today and but little fighting has been done. A flag of truce has been up since two o'clock this afternoon. The Spaniards are considering the proposition for surrendering, now that I have the city surrounded on the north. The lines were completed by Ludlow at five o'clock this afternoon down to the bay. The line is rather thin but will be strengthened in the morning by Henry, who has just arrived at headquarters. There have been only a few casualties. I expect to have two of the new batteries in position tomorrow. There is a great deal of suffering among the

people who have gone out of Santiago. I am doing all in my power to amount of capital stock invested in relieve it but am not entirely success-(Signed)

> DOES IT MEAN SURRENDER? Washington, July 12-Gen. Shater's message, received here this morning, is taken by the officials of the war department to mean that Gen Toral is going to surrender. Under the flag of truce the city of Santiago has been invested on all sides. This is taken to mean that Gen. Toral, seeing that he cannot escape wants to surrender.

> Secretary Alger expects to receive news of the surrender today. He says if this does not take place a grand assault will be arranged and will take place immediately.

Force of Habit.

"I was once speaking at a temperance meeting in Green Bay," says ex-Governor Peck, of Milwaukee, "and in the course of my remarks I looked about for some water.

"A mug had been placed beside me and how it could have happened at a temperance convention, I do not know, but it was a beer mug filled with water. Well, it was a warm day, and where there is convention food spread on a warm day there are likely to be flies. There were flies and one had lighted on the surface of the water in that mug. I saw him as I lifted it and did the most natural and human thing I could think of-blew him off the water. Well, they cheered for five minutes and to this day I don't suppose you can persuade a Green Bay man that anybody from Milwaukee can drink a glass of water, even at a temperance convention without first blowing off the foam."-Chicago

UNITED STATES DEMANDS.

The Conditions of Peace, as They are Understood in Madrid.

Madrid, July 11, 11 p. m .- It is asserted that the United States makes the following demands as conditions of

First-The possession of Cuba and Porto Rico with a port in the Canaries. Second-An indemnity of £48,000,000 about \$240,000,000). Third-The retention of the Philippines as a guarantee of the payment of the indemnity. These terms are regarded as impos-

German Justice Reversed Himself.

When George F. Peck first became an attorney for the Santa Fe he went to a small town in western Kansas to argue a case that had been brought against the road for damages to several head of cattle that had been killed. The case was tried before a judge who was decidedly German. The witnesses were examined and the case gone through with, and the attorney for the prosecution arose and made a strong plea for conviction. He waxed eloquent and the judge paid close at-

"Are you troo?" said the judge when the lawyer stopped. "Yes, your honor."

"You vins de case," said the judge. "But I want a chance to argue my

side of the case," said Peck. "No, he vins," stoutly asserted the judge. But Peck commenced to talk and gradually his talk led up to the case, and before the judge knew it Peck was arguing the defence. The judge listened closely and when Peck had finished, he said:

"You vin de case." "But you have already decided in my favor." said the other lawyer. 'Dat's all right. I reverse by virst decision. Dis man vins," and the judge stuck to his last decision and Peck won his railroad case.

MATTERS IN THE PHILIPPINES.

The Danish Government Objects to Uncle Sam Using His Own Coal. Threatens to Shoot.

By Cable to THE TELEGRAM.

St. Thomas, July 12-An attempt has been made by the Danish government to prevent the Americans from using eight thousand tons of coal which is the property of the United States. Governor Aderman, the ruler of the islands, has notified Consul van Horn, of the United States, that the American coal in the harbor was contraband of war and its use by the Americans was contrary to the existing neutrality laws.

The governor further stated the use of the coal will be prevented by the Danish gunboat now lying in the harbor to which Consul Vanhorn replied that the Americans would remove the coal by force. Governor Aderman declared that he would call in warships from foreign powers to enforce the neutrality laws. The matter has been referred to the United States authorities in Washington.

IN THE PHILIPPINES. Madrid, July 12-An official despatch from Ililio says that Aguinaldo is patrolling the coast with a squadron of merchantmen. The despatch adds that two bands of insurgents have been defeated and that three of the leaders have been captured and shot. No further news has been received.

READY TO INTERCEDE.

London, July 12-The French minster at Del Casse has notifed Spanish Embassador Castillo at Paris that the French government is ready to ender the good offices of the French Embassador at Washington in opening negotiations for peace if the Madrid government consent.

TO PROTECT BRITISH INTERESTS.

Vancouver, July 12-The British warships Ampharon and Icarns have put to sea hurriedly to protect British subjects from, and also to prevent the holding up of ships for the purpose of looting, by Spanish privateers, which are said to be hidden near Dixon's entrance for the capture of Klondike treasurer ships.

FOR PEACE PROVIDED-

Madrid, July 12-The possibility of peace is being widely discussed today in political circles. The press will later state that Spain is prepared for peace provided it implies the loss of the island of Cuba only. Correa says he will no longer oppose peace negotiations providing the conditions are not too onerous.

The Cat Assayed \$18.31.

Butte, Mon., July 11-An amusing mining story comes from the Mocking bird mine in the Warm Springs district. L. J. Rowens, who owns and works the mines, also owns a pet cat. This cat climbs up and down the shaft, through drifts, crosscuts, stopes and levels, and lives down there most of the time, being fed by the miners from the contents of their dinner pails.

A brilliant idea struck Rowen the otherday. He took the cat into the ore house and washed the hair as clean to the skin as it could possibly be washed. Then he panned the dirty water to the highest percentage and the entire cat assayed \$18.31 on an assayer's scales. It is doubtful if any mine in the Rocky mountains can assay better than \$18.31 to cat.

A Case of Smail-Pox.

SENOR SAGASTA RESIGNS.

He Advices the Appointment of

London, July 12-The Madrid correspondent of The Times, telegraphing Monday, says: Senor Sagasta went to the palace today and tendered his resignation and that of the cabinet. It is said that he advised the Queen Regent to appoint a new cabinet, largely consisting of the military element, which would not necessarily mean the adoption of a warlike policy, but

"It is generally expected that the resignation will be accepted and may possibly be a partial reconstruction of the cabinet. The ministers are now in council, and Senor Sagasta has doubtless communicated to them an account of his audience with the Queen Regent."

Revised and Corrected Report of Shafter's Three Day's Losses.

Washington, July 11-Adjutant General Corbin today received from General Shafter a revised and corrected report on the casualties before Santiago on July 1st, 2nd and 3rd. It slightly increases the number of killed and wounded, as given in his first report, and is as follows:

wounded 80 officers and 1,203 men; missing, 81. Total, 1,595. General Shafter is of the opinion that the number of missing will be reduced some-
