Fought at Santiago.

Mr. J. C. L. Harris, chairman of the board of trustees of the A. and M. college, returned yesterday from Washington where he went for various and sundry purposes. He reports that Captain Dowdy, a native of Arkansas, will succeed Captain Gresham as military instructor at the A. and M. college.

Captain Dowdy graduated at West Point twenty years ago, and took part in the recent engagement at Santiago. He is said to be well pleased with his assignment. Raleigh will give him a cordial welcome. He is about 40 years of age and his retirement from active service is made necessary by physical infirmities.—News & Observer.

A Gang of Train Robbers.

Atlanta, Ga., July 28.—The arrest of five negroes near Marietta today for robbing a freight train on the Western Atlantic railroad has revealed the existence of a gang of outlaws which has been operating in the Kennesaw mountain country for some time, Jeff Moreland, the leader of the gang, admits the last robbery, but the detectives are confident that other depredations can be fastened upon his crew. The Western and Atlantic road is loser by several thousand dollars as a result of their operations.

Hobson Coming South

Atlanta, July 28.—Lieutenant Hobson has wired his mother, who is at Lithia Springs, near Atlanta, that he will see her Monday next. While the big Merritt & Chapman tug is proceeding to Santiago with apparatus for lifting the wrecked Spanish ships, Lieutenant Hobson will take time to visit his mother and sail Thursday of next week from Tampa.

WANT TO HEAR FROM DEWEY

Before Transmitting an Answer To The Spaniards.

ST. PAUL SAILS FOR PORTO RICO

The Cabinet in Session Today Considering Peace Negotiations. All the Members Present.

By Wire to THE TELEGRAM. Washington, July 29.—The official answer to Spain will probably be delayed until Saturday or Monday. The President desires to hear officially from Admiral Dewey and General Merritt before answering the peace proposition of the Madrid authorities. The Philippine situation is said to depend on three opinions.

It is intimated today that the reply of the United States will be totally different from what is confidently expected. As a condition precedent to the appointment of the peace commission the president expects to demand of Spain the immediate withdrawal of all troops from Cuba and Porto Rico, and make public acknowledgment of the relinquishment of all her territory in the West Indies; also the resumption of the diplomatic relations which were broken off when Minister Woodford was so unceremoniously sent out of Madrid before he was able to present the ultimatum of the United States. After which the peace question, indemnity, etc., will be considered.

AFTER SUPPLIES AND MEDICINE. New York, July 29.—The transport Leona arrived at quarantine this morning with a number of sick and wounded soldiers from Santiago. The Red Cross steamer State of Texas has been sighted off Highlands and will reach here this afternoon where she will take on a load of supplies and medicine and return to Santiago.

WAS NOT HAMPERED.

Santiago, July 29.—General Shafter says the war department has in no way interfered with his conduct of the campaign and that he has not been hampered. He says further that if the campaign had failed the fault would have been solely his own.

SAILED FOR PORTO RICO.

Newport News, July 29.—The St. Paul sailed this morning from Hampton Roads for Porto Rico.

THE CABINET IN SESSION.

Washington, July 29.—The cabinet has been in session since eleven o'clock this morning. All the members are present including Attorney General Gregg, who hurried back from Canada. The indications are that an answer will not be transmitted to Spain today. Secretary Day was in conference with the president early this morning.

Italy Warned In Time.

Berlin, July 29.—The London correspondent of the Cologne Gazette says: "I learn that the United States recently requested Italy to abstain from forcible measures to compel Colombia's compliance with Mr. Cleveland's award in the Cerruti claim, promising American influence to insure the payment. Italy replied that her patience was exhausted and that she would abide by the ultimatum of Admiral Cambian.

The U. S. government thereupon applied unofficially to Great Britain asking her to use her influence at Rome in support of the American request. England's reply is not yet divulged.

The Porto Rican Solons.

London, July 29.—According to a despatch from Berlin a newspaper there professes to know that the Porto Rican colonial legislature has adopted autonomy and has resolved to protest against American occupation of the island as a violation of the principles the United States went to war to enforce.

The Cuban Debt and France.

London, July 29.—The Daily Graphic this morning points out that there is a probability of an international question arising over the difficulty of dealing with the Cuban debt, since a majority of the Spanish bondholders are Frenchmen.

A SUBMARINE GUN. Problem of Shooting Under Water is Believed to be Solved.

For several days experiments have been in progress at Tybee with a gun that shoots under water. Heretofore, it has been claimed that it is absolutely impossible to discharge a cannon or any other weapon in which gunpowder is used under water, the result of such an attempt being the bursting of the weapon used.

Harry Gallagher, of this city, believes he has surmounted all the obstacles in the way, and will soon have an invention that meets all needs, so far as the successful discharge of projectiles under water is concerned.

Mr. Gallagher has been working on this invention ever since the war broke out. His idea is that with such a weapon as he has in view a shell can be thrown against the unarmored part of an iron-clad below the water-line, and the vessel readily sunk. He has progressed far enough in his experiments to believe that success is assured. Heavy cannon balls have been thrown a distance of nearly 200 feet under water by his invention, and when it is perfected he expects to be able to send destructive bombs many times that distance.

The experiments at Tybee have been made with a small cannon, placed on the beach ready to fire. When the cannon was completely submerged, a lanyard reaching to the shore was pulled and the cannon discharged. After the tide had gone down the projectile was hunted up and the distance it had gone under the water measured. A system of valves prevents the water from entering the gun after the discharge. The experiments will be continued until the invention is perfected. The attention of the government will be drawn to it if what is hoped for it is achieved.

"A boat like the Katahdin, which is expected to ram a vessel of the enemy, could be armed with one of these guns below the water-line," said Mr. Gallagher in discussing his invention. "It could be aimed and fired by the officer on deck by electricity. The projectile, loaded with gun-cotton or other high explosive, striking the enemy's ship below the water-line, would do such damage as to sink it in a short time. This would accomplish what is desired without subjecting the Katahdin to the dangers encountered in ramming. I believe the plans I have worked out will do the work effectively at quite long range when they are fully perfected."—Savannah News.

Look Up Pony and Jim.

The war department officials and clerks at Washington are kept busy answering the thousands of inquiries that come to them from all parts of the country concerning friends and relatives in service. Some of these queries are amusing. An anxious woman out in Kansas telegraphed the war department asking if Pony Lee and Jim Langley had been killed at Santiago. Their names were not among the list of the dead, and a message containing this information was sent to the inquirer. Then another telegram from the same person was received by Secretary Alger. It read: "Please look up Pony Lee and Jim Langley at Santiago and tell them to wright right away."

Coney Island has a new device to separate the nicels from the multitude. It is a variation of the old-time maze. Wire netting is set up to form little avenues, with doors here and there. The amusement consists in deliberately losing yourself in the maze and then trying to find your way out. It is by no means a selfish pastime, for, inasmuch as the netting affords a clear view right through, the efforts of the prisoners to escape furnishes amusement for the outsiders.

HUNGER CLAIMING VICTIMS

Blanco's Scanty Store in Havana Exhausted

BREAD RIOTS ALREADY BEGUN

Two Bakers Killed—Washington Officials Blame Gen. Shafter—Ugly Reports from Santiago.

By Wire to THE TELEGRAM. Key West, July 29.—Hunger is claiming many victims among all classes in Havana. Since the blockade has entered the city of Havana and General Blanco's scanty store has been exhausted, bread riots have already begun and two bakers have been killed. The Spanish troops seem to have faith in the rumor that Admiral Camara's fleet has sailed to come to their assistance.

GENERAL SHAFTER BLAMED. Washington, July 29.—The war department continues to receive information as to the care and management of the wounded at Santiago. It is learned on the best authority that there were only two ambulances in the entire army for the transportation of the wounded to the hospitals. It is reported that when the wounded arrived they were stretched on the bare ground and for some there was no protection, whatever, made from the tropical heat, and they remained for hours awaiting attention. Various officials blame Gen. Shafter for this condition of affairs.

A DESPERADO'S TRIAL.

Five Capital Cases in Jail and Two in the Woods.

Marion, July 28.—The trial of the noted mountain desperado, George McCurry, which has been in progress at Burnsville for one week, ended yesterday in his acquittal. He has been on trial for his life, charged with the burning of Sid Patterson's dwelling and barn some ten months ago. He was on trial last court at Burnsville for the burning, which ended then in a mistrial. The majority of the people of Yancey county think it a bad affair to have McCurry at large. Sid Patterson is the man who killed Jerome McCurry, brother of George, last October, and had blood has existed between them for some time. Burnsville now has about five capital cases in her jail and two in the woods. Tom Belew, who killed his wife in Yancey county, sometime ago, has been captured in Texas and an officer loaded with requisition papers has been sent after him.—Charlotte Observer special.

KILLED HER OWN CHILD.

Abbottsburg, N. C., July 28.—Emma Singletary, a colored woman was yesterday tried and convicted before Justices Thompson and Craig and today before the coroner's jury of infanticide. The prosecuting attorney was R. E. Lee, Esq., of Fair Bluff. The accused was on her way from Elizabethtown to Abbottsburg and was seen with a two-weeks' old infant, her own. On arriving at Abbottsburg she had no child. A search was instituted and the child found near Abbottsburg about sixty yards from her sister's house. The whole community was shocked. The woman was bound over to October term of court and promptly jailed. She will undoubtedly hang.

The People are Indifferent.

London, July 29.—The Madrid correspondent of the Daily Telegraph says: "However unpalatable the terms of peace may be, they will not provoke the slightest disturbance in Spain, where listless indifference is predominant.

ENGLAND'S FLEET WITH US.

"A Peril to the United States Vanishes."

London, July 29.—The Daily Mail says this morning: "With the remarkable speech of United States Senator Davis, of St. Paul, two people have buried the past. Senator Davis' speech is a final and complete answer to the speech of Mr. Chamberlain at Birmingham. "England has no need to go whining for an alliance. For some years until her navy has been strengthened the over-sea possessions of America must be more or less on sufferance, but, with the certainty that the British fleet is on this side of our kinsmen, all peril to the United States vanishes."

SHAFTER'S SICK AND DEAD.

New Fever Cases 822; Returned to Duty 42.

Washington, July 28.—The war department tonight posted the following: "Adjutant General of the Army, Washington, D. C.
