Wrinkles Around the Eyes

Are usually caused by defec-tive sight. Many women, and likewise men, look prematurely old from these wrinkles. The wrinkles in many cases can be removed by wearing correctly fitted glasses. To fit glasses correctly demands a thorough knowledge of refraction and the nec-essary instruments. We have both; hundreds of satisfied customers will say so.

We have heard Republicans talking about Democratic lies, now we wish to ask the republicans what kind of a lie that is being told not only by republican men but by ladies too that the negro that was beat by a democrat in Thomasville the day of barbacue was dead. This report is false. There was no negro beat by a democrat there that day. A negro was arrested by an officer who asked the assistance o some other men to help tie the brute, but he is not dead. This was the negro that tried to tear a democratic button off a white man's coat. The negro that died was stabbed by some other person. The parties that are spreading this lie should be indicted

White men get your lanterns and flags ready for the "big white mets" parade" next Monday night. Which will you follow, the band, the ladies and the procession of white men to hear Major Stedman and Mr. Watson, or the negroes and a few white faced men to hear Jim Boyd. This is the first chance you have ever had to show your "colors" to ladies and the many other visitors. Every white man from everywhere is cordially invited to take part in this great event.

Day before yesterday some little white boys and some negroes had a little trouble on the street near the Tate Furniture Company. That afternoon the negroes, about ten in number, waylaid the white boys, and would have got the best of them had it not been for some men in the factory, who ran out and interfered. Upon the strength of this four men, who were going to vote the republican ticket said that they could see very plainly what this country was coming to and swore then and there that they would vote the democratic ticket from now on. FITZ, LEE'S MOTHER IS DEAD

For The General.

PLANS FOR CUBAN OCCUPATION

The North Carolina Political Situaation as Viewed From The National Capital.

Special to the Telegram.

Washington, Nov. 4.- News of the death of Mrs. Lee, mother of General Lee was received in Washington late yesterday afternoon. At the war department much sympathy is expressed for the General. It is probable that the President will send to the General a message expressing his condolence.

At the war department up to a late hour yesterday no word had been received personally from the General, but it is not thought that he will leave for Savannah before Thursday of

Provided the General is in Virginia on election day it is likely that he will

vote in the congressional election. The plans for the occupation of Cuba are being formulated by the war department, and it is stated at the department that the movement will take place about December 1st. It is said, however, that Havana will not be occupied until after the rest of the island is fully garrisoned by the United States troops. This is a change in the policy on the part of the war department, and it is occasioned by the recommendation of the special board, of which Col. Hecker is president. The plans of the war department have been changed so often within the past week, that it is hard to tell what the officials do contemplate It is announced one day at the department that a certain thing is to be done, and the next day the whole thing has been Cyrus Cummings is building an eight rearranged. It is now said that no place before the latter part of the month. At the war department it is said that the transports are being rapidly put in readiness for the movement but that they cannot be gotten to Savannah earlier than the 20th instant. In regard to the taking formal possession of Cuba, in spite of statements made to the contrary, the war department officials say that no change in the original policy has taken place, and that the island will come formally under the protection of the American

> contemplated. It is not expected that General Lee will come to Washington city again before he leaves for Savannah, though it is possible that next week he may conclude to take a run over for a short

On account of the great political excitement in North Carolina, the leaders at the republican congressional headquarters in Washington express fears that they may lose several seats from the state. This will almost surely result unless the republicans are able to poll the full negro vote of the state on Tuesday. The seats now held by the republicans are the Second, Eighth, and Ninth districts. The re-election of Mr. Pearson is expected but the republicans fear that they may ose the Second and Eighth districts. In the Second district it is thought that the populist nominee will be elected over the negro White, and it is understood that if he is elected he will act with the democrats in the house. It is thought, too, that the democrats may reclaim some of the seats now held by populist congressmen from North Carolina. A gentleman said yesterday that the prospects were good, he thought, for the election of seven out of nine congressmen from North Carolina. The prospects are improving as election day approaches, which is always a good sign. One of the strange features of the North Carolina campaign is that while the democratic committee of the Second district, are said to concede White's re-election, the republican congressional committee, when speaking privately, admit that White will be defeated.

Col. Pilcher, a member of the Virginia legislature, is in the city. He says that the campaign in the state has been very quiet this year, but that he expects the democrats to get out a full vote. The only danger the democracy has to contend against, he says, is a feeling of over confidence. He says the organization in every district is in good shape.

Another prominent Virginia politician in the city is Mr. Witcher, a populist leader of Danville. Mr. Witcher says that most of the populists in the state, in his opinion, will vote the democratic ticket this year, and he beets. SPAIN DECLINES OUR PROPOSAL

The Americans Will Carefully Consider The Matters-No Drastic Measures Will Be Taken.

By Cable to THE TELEGRAM.

Paris, Nov. 4 .-- The two peace commissions met this afternoon. The Americans were aware before the session met that the Spaniards would decline their proposal, which was made last Monday, to take the entire Philippines and pay only the debts actually incurred by Spain, for the benefit of the Island.

The statement is presented here today with much display to the effect that the Americans will insist upon the complete surrender of Spain's sovereignty in the event a refusal is issued as an ultimatum. If no ultimatum is contemplated there is no probability that drastic measures will be taken by the Americans.

The two commissions are now considering the open question, and the Americans expect to patiently weigh all matters involved and carefully consider the arguments of the Spaniards.

A LATER DISPATCH.

Paris, Nov. 4.- The Spaniards refused the proposition of the Americans, but negotiations were not broken off While it is believed that no formal counter proposition was made there was a discussion of the Philippine question outside of the lines of American propositions. The commissions then adjourned until Tuesday.

Kennett, candidate for the house, rose amid a mighty wave of

applause and made a rousing speech. Kennett is one of the best speakers in the field and is inspired by the woeful condition of eastern North Carolina. He is a true, honest, patriotic man, and is in the race to help raise his state from the depths of disgrace to which she has fallen in the past two years. He made an earnest and effective appeal to the voters of Guilford county to do their part to redeem eastern North Carolina and help the white people of that part of the state to throw off negro rule and Opposite Benbow. again put North Carolina in the hands of decent, honorable and able white

John N. Wilson, candidate for the senate, followed Kennett with a telling speech When he arose he called for G. Sam Bradshaw. G. Sam had been in the court house until the close of Kennett's speech, when, knowing that Wilson would follow, he sheepishly made his exit. This alone should lose him many white votes in Greensboro. Wilson reviewed his opponent's political record, showing it to his au tience in its true light and Bradshaw's record is as black as the skin of his negro followers. After reviewing Bradshaw's past political doings and sayings the speaker took up the issues and made powerful and pointed appeals for White Supremacy. All the candidates seemed to be at their best and their It's a Package speeches made many White Supremacy votes.

The sorriest spectacle of the campaign is that of the cowardly refusal of the fusion candidates to meet the democrats here in joint debate. The man who is afraid or ashamed to meet his opponent among his home people, deserves crushing defeat. We have charged that Duglas and Bradshaw would not make the same speaches here that they made in other parts of the county.
