THE N. & I. COLLEGE.

The State Normal and Industrial College is a great institution for North Carolina, and its benefit to the young womanhood of the state under the masterly and efficient management of Dr. McIver cann t be over estimated The following extract from a letter in the Charlotte Observer of today, writ ten by a lady who personaly inspected the institution, is copied cheerfully:

"It goes without saying that the women of a country fix its social and moral standards; remembering this, a last North Carolina is making long strides in the march of progress "An educated man may be the father of illiterate children, but the children of educated women are never illiterate.' This is the basic principle operating at the Normal College, and education there means fitting for life. When a man of Dr. McIver's ability and bal ance and experience gives his whole heart and mind to a calling, the result Normal College not only has Dr. Mc-Iver given himself entirely, but his large and superior faculty are right arms to him. The three courses of study, normal, commercial and do mestic science, are comprehensive and the instruction in each is superior The students are elevated by familiar

"A student who cannot pay the pittance charged for board and laundry honor and dignity of labor are nobly recognized. I saw girls from humble mountain homes, who had "washed the dishes and set the table," going to recitations in literature and mathematics along with their friends from the best strain of blood in eastern Carolina, and when the hundreds of bright faces were gathered around the well-filled tables, I cou'd not guess which girls had served them so beaut? fully. Now is there any limit to the good such life is doing in North Carolina? I honestly believe it is incalcu-North Carolina, let us help the future great Normal College work at once More buildings are needed, gymnasium, library (many books are now kept boxed for tack of room on the library shelves), dormitories and money for many purposes. Those of us who cannot give money, can help in other ways. Induce outs'ders to go and see for themselves as I have done; to see is to be convinced that the hands of Dr. McIver should be upheld by gifts and appropriations for his work until there is room for every girl who has prepared herself to enter the college, and who strives to uplift her people. I am ashamed of the stigma of illiteracy which hitherto has so justly rested upon North Carolina. Let us wipe it out."

Bryan's enemies seem to have discovered in him the irrepressible elements of Banquo's ghost. The following extract from an editorial which appeared yesterday in the Charlothe Observer-which paper, incidentally is the most potent adversary the Nebraskan has in North Carolina-is very interesting for its affected tincture of despair:

But what is all this talk about retiring Bryan, anyhow? A week ago Moore county has a larger number of terest of Governor Stone, of Missouri. He has more ability, more popularity, more magnetism and more consecration to the new dispensation than anybody in the push. He is not a whit John Oliver, of Philadeldhia, was the anybody nominated on it.

The monitor Monadrock, lying out tle, is rather a dangerous customer to The First North Carolina Regime be aroused. Monday she was anchored peacefully a good distance from the town of Paraque, attending to her own business and apparently wrapped in slumber. The insurgents, who shout at anything they see, let fly at her a storm of musket balls. The old hulk opened one eye, lazily turned around, let fly a few shells which more than half destroyed the town and annihilated a large per centage of its ibabitants, and unconcernedly went back to

The Florida Times-Union and Citican gets off the following: "The tourist is rapidly finding out that April is the sweetest of all the Florida months. Resonant with the song of the southern nightingale, the Spanish mockingbird, and fragrant with the bloom of flowers, lulled to the awakening of spring by the softest of w nds." And the Raleigh Morning Post, which we had heretofore respected, adds that the atmosphere "is also sonorous with the dulcet notes of the revivified alligator, just emerging from his winter's nap."

The selection of Hon. A. M. Scales, of this city, as president of the new A. & M. college board, has received most favorable comment at the hands of the state press. Yesterday's Wilmington visit to Greensboro assures me that at Messenger has the following, which is brief but tells a big truth:

The Agricultural and Mechanical College, Greensboro, is to be congratulated upon the election of Mr. A M Scales as president of the new boa d. It could not be improved upon.

IN CAMP AT SAVANNAH.

Savannah, Ga., March 23-The First Regiment North Carolina volunteers came up to Savannah from quarantine this morning aboard the transport Vigilancia. The boys came ashore and swarmed over the city tonight, glad to be once more "in the States." They are for the most part in excellent health and spirits, though anxious to be mus'ered out. Some members of the regiment are sick, but not dan-

Though no serious complaint of their fare while in Cuba was heard, the men have naturally grown tired of army rations, and tonight the Savannah restaurants and cafes are freely pa!ronized by them. Sharkey Must Wait.

New York, March 28-Wm. A. Brady, manager of Kid McCoy, today notified Tom O'Rourke, manager of Tom Sharkey, that the Sharkey-McCoy match would have to be declared off temporarily, as McCoy hurt his shoulder in the recent fight with Choynski. McCoy does not feel physically prepared to meet Sharkey, Brady says. He wishes to take on more weight before meeting

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only cure, because it is the only remedy which can reach such deep-seated diseases. A few years ago I was taken with inflamma-

tory Rheumatism, which became so intense that I was for weeks unable to walk. I tried several prominent physi-
