THE BOND ISSUE.

The election for improvement bonds, held in this city yesterday, marks a long stride forward. The outcome of the election was entirely satisfactory to the friends of the proposition.

Three hundred thousand dollars for city improvement sounds well, and Greensboro's reputation as being a progressive city is fully sustained.

Greensboro has been growing and is yet growing; but the limit was bound to be reached unless some money could be raised for city improvement to meet the conditions which are crowding around us thick and fast.

Houses are being built far beyond the reach of the present water supply. People, tax payers at that, are living in sections where there is not a ray of light to guide their footsteps home at night, and manufacturing enterprises are located on streets where, in the winter season, it is almost, and at times wholly, impossible to get the manufactured product away from the mill.

Then what encouragement could we offer those already here to enlarge, or what inducement could we offer others to come?

We must have a more extended and adequate water supply.

We must have more light.

We must have better streets and sidewalks.

We must have a complete and adequate sewerage system.

We must have a first-class city hall and market house building.

All these things are necessities, not luxuries, and the people said by their votes yesterday that they were willing to give the board of aldermen an opportunity to provide them for the city.

The value of a perfect and complete water system cannot be estimated in dollars and cents. Neither can the advantage of macadamized streets or the intrinsic worth of an adequate system of sewerage be computed by that scale; and a man never fully appreciates light until he is in the dark.

Then contrast the miserable sweat-pen now used as a market with a new, modern and handsome structure, airy and clean and commodious, and you will be glad to exchange the former nauseating and appetite-dispelling place for the latter.

There is nothing in this intended as a reflection on those who are trying to give good service in the present market house. The place is simply unsuited for the business, and no amount of skill and labor could make it an inviting market place.

But the bonds have been voted, and we believe when the work of improvement begins that those who were opposed to it on yesterday will be as eager as any to get their share of the benefits. Many of the more intelligent colored people voted for bonds and it is to their credit that they did so, but a big majority of the colored voters stayed away from the polls.

Those of the white people who thought it unwise to issue bonds will, no doubt, acquiesce in the will of the majority and do all in their power to secure a judicious expenditure of the money, that the greatest possible good to Greensboro may result.

Miss Lillian Clayton Jewett, the bright young lady of cultured Boston, who proposes to come down to Charleston and escort murdered Postmaster Baker's family up north for the purpose of arousing sentiment against the brutality of the southern people toward the blacks, had best not be quite so spry. She might find herself encumbered with more passengers back home than her purse could bear. We are sure that the family of Sam Hose wouldn't mind taking the trip, and there are doubtless others.

LONDON TIMES ROASTS ALGER.

If the corruption and incompetence of the American war office, as conducted by Secretary Alger, is so palpable and flagrant that foreigners feel called

upon to denounce it to the world in such measures as the following editorial from yesterday's London Times, isn't it time the notorious rottenness were purged by the president? But McKinley will not force Alger to resign. The chief executive is so much more of a politician than a statesman that he would rather submit to the disgraces wrought by one of his cabinet members than to imperil his own success at the next election by forcibly ejecting the offender.

Following is the Times' editorial: "Alger has run the war office as a political machine. Military posts have been bestowed upon political friends without regard to fitness or the interests of the country. Dishonesty and corruption have been rampant wherever there was public money to be handled. American soldiers were killed by thousands on American soil by such agencies as embalmed beef and scandalous neglect of elementary sanitation. As the head is, so we expect the subordinates to be. They were chosen without regard to fitness, but with every regard to political service. Naturally they act as the politicians they are, rather than as soldiers and administrators, which they are not. The new imperial policy of the United States is thus discredited by association with a system of more than common corruption. McKinley, for some reason or other, is incapable of ridding himself of the incubus of his secretary, who, evidently regarding himself as having the president in his pocket, serenely defies the public indignation that has been aroused by his mismanagement."

The following dispatch received yesterday from General Ctis, is very characteristic of him. He never mentions anything which the people would like to know:

"Manila, July 18—Continued heavy rain; cyclonic storms impede business in the harbor. The Colorados sailed on the transport Warren yesterday, Privates Horn and Wilder, Company G, left sick. In addition, 131 discharged men, of various organizations, took passage. Californians on the Sherman have arrived from Negros. The vessel must be coaled and receive subsistence of the typhoon now prevailing."

General Oils, where is your army? How many men have you, able to do effective duty? Where is Aguinaldo and his Filipinos? Are you gaining any ground, or are you losing that already secured? How many men did you lose in that last little scrimmage? How about the sick, groaning in their tents with wounds and disease? How many dead American boys have you planted beneath the sod on that faraway strand? What are you doing toward ending this fearful war which is costing the government of the United States, to say nothing of the tears at home and the blood in the field, more than a million dollars every day? Echo answers.

George Frederick Bell, the man who swore he stole the Carranza letter, has been arrested at Montreal, Quebec.

For the Amendment. Mr. Sharp, of Iredell, who was a contemporary of Dr. J. B. Alexander in the state senate, spent yesterday in the city. Mr. Sharp is a republican. He was asked yesterday his opinion as to the constitutional amendment. He replied that he thought the mass of the party, with Senator Pritchard at the head, would oppose it, but as for him, he was in favor of it. "I am tired of the negro in mine," said he, "and think this great mass of ignorances should be voted out."—Charlotte Observer.

It stands to reason that the fellow who has several millions to bequeath should be possessed of a great will power.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. Howard Gardner.

Scribblers—"I should think you'd find it awful hard working on poetry all the time." Footleus—"On the contrary, I find it hardest working off the stuff."

To cure piles, strike at the root—that's the way. DeWitt's Witch Hazel Salve strikes at the root—it removes the cause, quickly and permanently. Don't squander time and money trying to remove the effects. Howard Gardner.

Now comes the blissful time of year when married men are grinning; For wife's outing days are here, And hubby takes an inning.

Infrequent and Improper Shampooing are responsible for dry, scrawny and variable colored hair. Many people have a goodly supply of hair, and it would be beautiful were it not that dandruff had destroyed its life and made it useless. Everyone's head should be shampooed once a week with some non-injurious and health-giving wash.

Sutherland Sisters' Scalp Cleaner does not rot and bleach the hair, like soda, ammonia, etc. Aids the scalp cleaner with the "Hair Grower." They contain nothing but what is good for the hair and scalp.

A Cheap Trip to the Pacific Coast. The National Educational Association meeting at Los Angeles, Cal., is the occasion for the Southern Railway to put on the remarkably cheap rate of One Fare for the Round Trip (plus \$2.00 Association Membership fee). This, in connection with the new Palace Tourist Sleeping Cars, operated over the Southern Railway and the Southern Pacific, a double berth in which costs only \$7.00, renders possible the cheapest and most enjoyable trip of the season. A particularly pleasant feature of this trip is that the tickets are good going one way and returning another; i. e., going via New Orleans and returning through Salt Lake City and Colorado; or by the payment of \$12.50 additional, the trip may be made returning through Portland, Ore.

Stop over privileges are allowed at El Paso or any point west thereof, on the going trip, and at any point west of Denver and Colorado Springs on the return trip. By this means passengers are afforded the opportunity of seeing the entire Pacific Coast. Side trips are arranged at nominal cost from Los Angeles and San Francisco to all points of interest in California. Further information may be obtained from any agent or representative of the Southern Railway, or from

ADMIRAL DEVEY LIKES IT....

A Clever Trick. It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back or weak kidneys, malaria or nervous troubles.

We mean he can cure himself right away by using Electric Bitters. This medicine cleans up the whole system, stimulates the liver and kidneys, acts as a blood purifier and nervous tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at C. E. Holton's drug store.

Say, Mr. Weatherman, let up, and perhaps the mercury'll let down!

No Cuts—No Pay. That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.
