Next to the Consumer

is where we stand in the lumber business. At the kicking spot, as it were, in regard to prices.

First comes the owner of the timber. He just woke up to the value of it and wants double last year's prices. Then the sawmill man. He has not been making a fortune and thinks now he should share a little in the general prosperity.

They say to us: "We must have so much for our trees and work." After a while it is "up to you." Don't kick. You don't suppose we have nerve enough to put up prices unless they had first been put up on us. No, indeed. But prices are NOT high. They have been low and are just now getting reasonable. Your children will be glad to pay at double the price it now costs you. It is a trifle, but saying, if you want to build, "Now is the time."

And ours is the place to get the stuff.
