Proprietor,  
Mooreburg, Tenn.  
**Howard Gardner,**  
City Agent.

### WANTS HIS CHILD.

#### Habeas Corpus Petition Brought Here for Recovery of a Child.

The Supreme Court Judges were in demand today. Chief Justice Furches tried the case of the gold brick swindlers in Statesville to see if their bond was excessive, and Justice Douglas, of this city, heard a habeas corpus petition. The latter petition was brought by a white man of this city, G. W. Mills by name, for the possession of his child. The case was continued until Wednesday at 11 o'clock.

Another habeas corpus petition, this is the last time that the gold brickers will get a whack at such proceedings. If they fail this time, they are done for.

#### Proximity Notes.

Messrs. L. A. Henley and J. H. Winn have left for a trip visiting some of the larger northern cities and while away will take in the Buffalo Exposition, and a short tour through Canada. Mr. Henley is overseer in the weaving room, and Mr. Winn of the Dye House of the Proximity mills.

Mr. Henry Hicks is now running an ice wagon regularly through all the streets, which is a great convenience to the people of this place.

Mr. J. D. Campbell has returned from a week's vacation which he has been spending at Gold Hill.

In a match game of base ball Saturday, between the Proximity and Greensboro team the former won with a score of 20 to 1 in five innings.

One of the most interesting and pleasant social events of the season was a reception given Saturday evening at the residence of Mr. W. H. Maldin, by Mr. A. C. Moldin. The evening was much enjoyed by all present. Delicious refreshments were served. About twenty-five couples were present.

#### Illicit Distillers Caught.

The revenue raiders caught two illicit distillers Saturday afternoon near McLeansville. They were brought to this city and were tried before Commissioner Wolfe Saturday night. Their names are Willis and John Holt. Willis was caught in the still house, and John in a wagon just outside with illicit liquor in the wagon. Willis was tried and sent to jail. The trial of the other man was postponed until Thursday, and he was released on bail.

#### Gone to Buffalo.

Prof. Albert Whitehouse, of Trinity College, Durham, left last week for Buffalo, N. Y., and will spend the summer there. He will open an office, and practice his profession as a health specialist.

#### The Board Meeting.

A session of the Board of Aldermen was held Saturday night to fix the license taxes. A portion of the work was accomplished, and the balance postponed until the adjourned meeting of the Board next Wednesday night.

### GATTIS-KILGO DECISION.

#### The Finding of the Supreme Court in this Noted Case.

The decision of the Supreme Court in the case of Gattis vs. Kilgo is given below. It is taken from the columns of the Charlotte Observer:

One who appears in his own behalf or in behalf of another, is privileged to say, in the progress of the trial, anything in reference to the character or conduct of the opposing party that is relevant to the issue before the court, without recurring liability in an action of slander predicted upon the language used.

Upon the foregoing principle it is held that where the president of a college is on trial before the trustees of the institution as to his fitness for such position the trial having been brought by reason of certain charges preferred against his character and competency, his severe and caustic language in reference to the instigator of the charges if pertinent to the issue, is absolutely privileged, and the trustees have the right to publish the proceedings, including the language used by said president, for the purpose of giving to the public and the patrons of the college all the information concerning the whole matter which the investigation and trial may have brought out, provided the publication is made without malice.

In such case, the language complained of being a privileged communication, malice in the publication thereof cannot be inferred from indifference as to its consequences to the plaintiff, and although the language as published may contain some expressions which go beyond what is necessary for the defence of the college, it does not follow that the publication affords evidence of malice which the plaintiff is entitled to have submitted to the jury.

When the facts are uncontroverted, it is for the court to decide whether or not the publication is absolutely privileged, and if the court decides that the publication is privileged or conditionally privileged, then the question whether there is intrinsic or extrinsic evidence of malice is a matter of law to be determined by the court.

Before damage can be recovered by one, by reason of words spoken or published in reference to his profession or office, he must have been actually engaged in work of his profession or in the possession of the office at the time the words were spoken or written.

#### TO EXCLUDE M'LAURIN.

#### Executive Committee Decides Upon a Plan.

Columbia, S. C., June 17.—The plan to exclude Senator McLaurin from the Democratic primaries next summer has been decided on by the executive committee. The convention next May will amend the primary oath to include the recognition as party principles those included in the last Democratic national platform.

#### A JACK RABBIT RACE.

#### One May Be Arranged for During the Races Next Month.

Preparations for the races which will take place at the Fair Grounds, July 4th, 5th, and 6th, are going rapidly forward. Col. Horton, of Asheville, who has the meet in hand, is a hustler when it comes to horse racing, and he is thoroughly conversant with every detail necessary to the success of a meet. He has had large experience and is a well known figure in racing circles. The success which has attended his meets in other cities in the State, is a guarantee that the one which he will give here will be equally successful.

Between twenty and twenty-five horses are now at the track, getting in trim for the event, and lovers of the sport will have an opportunity of witnessing some fast trotting.

To vary the races Col. Horton has in other places, introduced a novelty in racing that of running jack rabbits, and this feature of the meets have met with public favor.

It is probably that a rabbit race will be arranged for the coming meet.

Be sure to go to St. Barnabas Rectory Wednesday evening, where the ladies will serve you with cream, ices, cake music and a pleasant time generally.

### A SERIOUS AFFAIR.

#### The Strike at Newport News a Source of Uneasiness.

Newport News, Va., June 15.—The entire ship yard will shut down Monday evening at 6 o'clock.

This decision has been reached by the officials of the Newport News Ship-Building and Dry-Dock Company. General Superintendent Walter A. Post stated today that unless the machinists return to work Monday morning, or unless enough men report to carry on the great volume of work which has been lacking attention since the inauguration of the strike, the plant will close down without further delay, and will remain closed until sufficient men are secured to do the necessary work.

This step, which is no longer in doubt, will throw 7,000 men—the wage earners of Newport News—out of employment, and the result is awaited with feeling of anxiety and fear. The closing of the yard is sure to affect the general business interests, and, it is feared, cause great suffering.

Today over 700 more men were laid off because there was no work for them to do. The yard closed at noon for the usual Saturday half-holiday.

The company now holds contracts aggregating nearly \$30,000,000, but it is protected by strike clauses in each.

President C. B. Orcutt, it is understood, has made arrangements to take the Illinois to one of the navy-yards for the finishing touches, if it is found necessary to close down Monday.

President E. J. Mulcahy, of the Machinists Union, stated today that as far as he knew there is not one man among the strikers who has held out thus far who will return to work Monday. This being the case, there can be but one result.

President Connell, of the International Association of Machinists, has wired that he is on the way here. He is expected to reach the city tomorrow or Monday, to give the strikers the benefit of his advice.

The special committee of the Business Men's Association, appointed to bring about arbitration, today made a report to the effect that all its efforts were futile, the striking machinists maintaining that their demands were just and proper, and the ship-yard being equally decided in the course it is pursuing in the matter.

### MARTIN AND SWANSON.

#### Yesterday's Virginia Primaries Ensure Montague's Nomination for Governor—Fitz. Lee May Be Senator.

Richmond, Va., June 15.—The result of today's primaries assures the defeat of Congressman Swanson, Senator Martin's candidate for Governor.

From the beginning of what has proved the most interesting campaign known in Virginia for many years, it was seen that the defeat of Martin's candidate was certain. His opponent, Attorney General Montague, promptly made the issue before the people that this fight was on the continuance of Martin and the old ring in politics. He pointed out that Mr. Swanson was endorsed by Senators Daniel and Martin and seven out of the ten members of the House from this State. This aroused the people as they had not been before in years. They recalled how Martin had thrown Fitz. Lee down for the senatorship eight years ago. The result was, despite every combination effected, that county after county went for Montague and against Swanson and Martin's ideas. The ruling element endeavored to stem the tide by inducing Daniel to make a speech in Lynchburg, his home. Notwithstanding this appeal of Virginia's popular leader that city and county went against Daniel and Martin by four or five to one. Yesterday Isle of Wight, the home county of Col. Day, the father-in-law of Martin, and one of the first who by his acts aroused the people, went overwhelmingly against Swanson.

Today's returns show that in the southwest everything heard from has gone in the same way. Next week Albemarle, the home of Martin, will throw itself in the machine rule column. Not only do Swanson and his managers see what is in store for them, but the coming revolution is fully realized by Daniel and Martin. It is only a question now whether Fitz. Lee or Montague will be Senator Martin's successor. It may be that Lee will have

**You Should Reason With Yourself**

about the Half Price Corset Sale now going on at our store and take advantage of such things. You don't have the opportunity of buying such bargains often.

**J. M. HENDRIX & CO.**

**Free Ticket to the Greensboro Races July 3d.**
