

Allied Aliens in the United States May be Drafted Into War Service

FOREIGNERS OF ALLIED BIRTH TO BE FORCED TO AID IN THE FIGHT

WEBB MILLER
(United Press Staff Correspondent)

WASHINGTON.—The United States is negotiating with the Allies to legalize the drafting of many hundred thousands of aliens in this country to fight under the American flag.

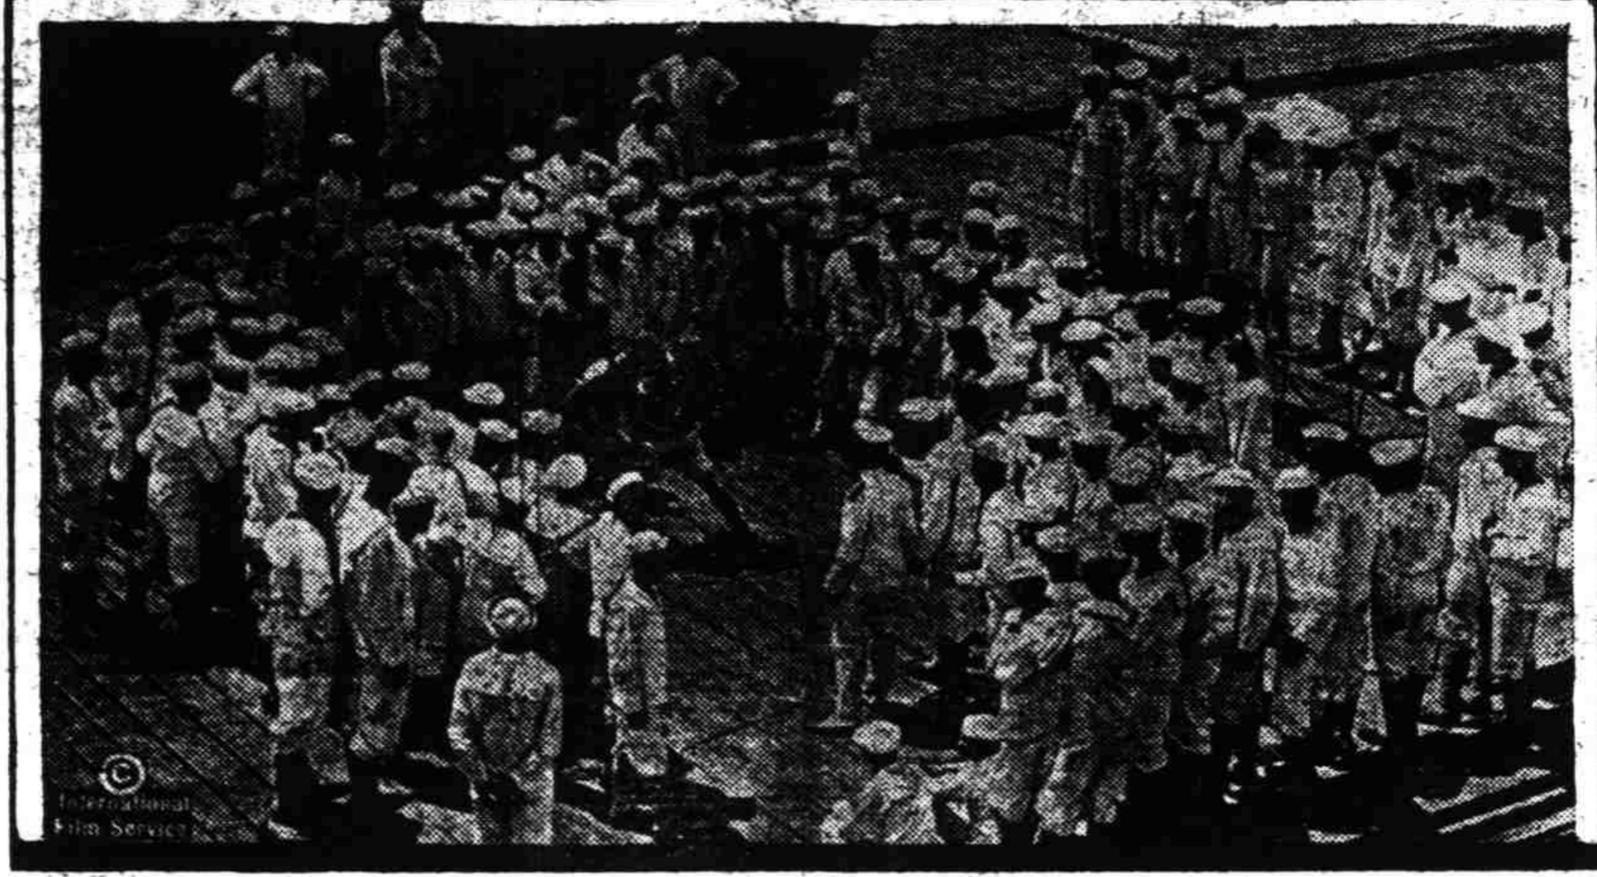

Before the time of the second levy, the necessary abrogations of the treaties and Congressional action will bring the aliens under the draft law.

Throughout the nation there has been an outcry against the "obvious injustice" of exempting the alien residents of the countries that are the Allies of the United States. In Chicago a fourth of the entire population is thus exempted from the draft.

The McCumber resolution, providing for the deportation of aliens who refuse to serve, is now before the Senate Committee.

The Southern states have the smallest percentage of aliens, and the two Carolinas have only 3 per cent of non citizens.

PRESS DEMANDS NAVAL ACTION AGAINST THE SUBMARINE BASES

(By United Press)

Washington.—The soaring total of submarine ravages, together with Russia's apparent collapse make aggressive British and American tactics imperative, Navy and Army officers said today.

Britain's announcement of the total of major ships sunk during the past week gave fresh fuel to the demands that a large portion of both services be used for active service against the heart of the U-boat menace. The press is insistent for an offensive against Zebrugge and such bases.

The military experts picture that aeroplanes would drop vast quantities of explosives upon the submarine bases and the land defenses, while the combined navies would move in not directly under the big guns, but gradually easily towards them while the land forces worked at the rear of the bases.

He is undoubtedly one of the greatest champions that his class has ever seen, as was proved by his easy victory over Johnny Kilbane, the king of featherweights, last night. Their scheduled six round battle in Philadelphia was a tragedy for Kilbane, who was whipped in three rounds. Kilbane still retains his featherweight title, however.

To the Citizens of Pitt County

After closing all business for the Pitt county fair held last, the sum of \$125 was left in the hands of the Treasurer of the Association. About thirty days ago a letter was addressed to the members of the Board of Governors, asking permission to donate this money for the use of the Pitt County Red Cross Chapter.
