# Allen Classic \$895

f. o. b. Fostoria

## A Wonderful Motor

THE pulling power—the snap—the flexibility—the silent, smooth running Allen Motor makes you quickly realize why the Allen consistently climbed to permanent popularity. The "four" is by far the most economical and simple motor in use today. Builders of high priced foreign cars concentrate almost exclusively on this type.

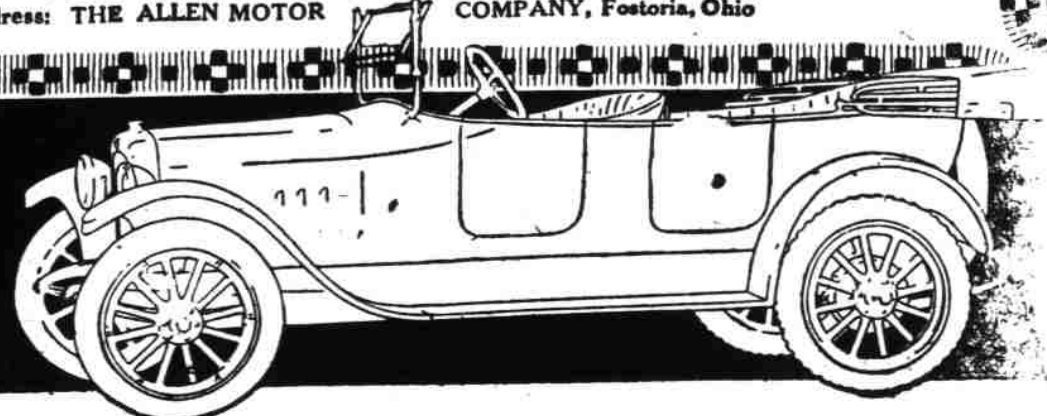

In the Allen Motor you find eight years of continuous refinement—a more highly efficient—more enduring and more serviceable motor than that of any car in the same price field. That's a strong statement but a demonstration will convince you.

Allen Classic Touring Cars, in choice of 3 colors ..... \$895  
Allen Classic 4 Passenger Roadster \$895  
Coupe, \$1175 Open Sedan, \$1195

### DE OLE CHUNES:

I don' lak dese new rambuncious songs  
E'vybody sings en plays  
I tub de sweet old timey chunes,  
Missus turned in de past days.

Lawdy how I does remember  
When she sing'd so sof' en lo'  
Dis woolly-headed ole nigger,  
Crop right' clos' up' gin de do'.

En belt his bref hard, whilst he lis'ened  
At de endin' er de day  
Ter her singin' lak er angel  
Oh; My Darlin' Nellie Gray.

Dat wuz de song mah Massa lub.  
When dey wuz bof young en gay  
An Missus cheeks wuz jes es pink  
As de flow'rs dat bloom in May.

But de Good Lawd cum en call Masse.  
Fer ter cum up Heaben way,  
En he went wid her er singin'  
Oh; My Darlin' Nellie Gray.

Now ebbor since when she sing dat song  
She end hit up wid er sigh  
Den dis fool nigger steel erway  
Wid er tear drap in he's eye.

JANIE TYSON HALL.

## Don't Overheat Your Battery

In summer, when you're not using your lights a great deal and when the motor starts easily and quickly—be careful that you do not overfeed your battery.

Overfeeding means overheating, and continued overheating means the ruin of the battery.

When you're touring, or running your machine a great deal, take the battery's

temperature occasionally, and if it is getting up to 100° and over—burn all the lights until it has cooled down.

Or if you haven't a thermometer, let us take your battery's temperature.

Next time you're near, come in—our battery experts will be glad to explain overheating thoroughly. Ask for the Willard Booklet—"Are You Overheating Your Battery?"

## WILLARD SERVICE STATION

5th & Cotanch Streets Greenville, N. C.

We have a rental battery for your use if yours needs repairs.
