Tuesday Afternoon, September 25, 1917.

CONCERNING A TOWN LAW

The Bible tells us that man is made of dust, but the pedestrain of Greenville, after walking down the principle business streets of the city would be constrained to believe that man, meaning the male creatures, come nearer to being made of tobacco juice and spittle than anything else. Of course expectoration is the best sounding word to apply to this nauseating act, but spittle fits it better.

While walking down Evans street, especially, little groups of men, may be seen standing in conversation. Meanwhile they are decorating the sidewalks with their everlasting tobacco juice and saliva.

Why in the name of "Old Scratch" do men have to go around eternally spitting over the face of this fair land of ours?

There is a law on the statute books of Greenville to the effect that any person found guilty of spitting on the sidewalk is subject to a fine of five dollars. But nobody has ever been known to be indicted for this offense, although the law is being violated almost every minute in the day. Of course the town officers are the authorities to enforce the laws. But the citizens also have a duty to perform, and it is up to them to report every person they see break the law in this or any other respect. This is the only way in which it can be enforced—and enforced it certainly should be.

In this advanced age (or rather we think it is advanced) when sanitation and health are being preached on every hand, our streets are a verit-

able travesty on the word sanitation.

We pay a county health officer to keep us in good physical trim; to inspect our school children and prevent the spread of contagious diseases. We do this and we do that, and think we are making rapid strides toward becoming a perfectly clean, sanitary people, while our women on their way to their clubs that urge sanitation and our children wending their way to the schools where it is taught, wade through a sea of tobacco juice and saliva left there by people who should certainly know better.

People of Greenville will you ever have a clean sanitary, healthy city, while persons of the community are allowed to stand on your streets and indulge in this filthy, germ-breeding habit?

Officers of the law, put a stop to it by making arrests for the violations of the law!

Those of you who do not spit, urge your fellows to think twice before they expectorate and maybe they wont spit at all.

And those who do spit: STOP IT!

Report of the Condition of		outstanding	
GREENVILLE BANKING & TRUST COMPANY		11,177.07	
At Greenville in the State of North Carolina, at the close of business, September 11th, 1917.		Due to State Banks, Bankers, and Trust Companies 239,711.42

GENTRY & GORMAN

The sales have been heavy this week but there have been no block sales. Gorman's sold 706,070 pounds this week and a better satisfied lot of customers never left a warehouse.
Prices on the better grades of Cutters and Tips have advanced from three to five dollars a hundred.
The market has been open just one month and Gorman's has sold 2,634,900 pounds in this time. This is a Record.
Gorman's is the leader both in pounds and prices.
One of our competitors asks in his advertisement "Why do we lead in pounds and prices." They do not lead in pounds and everybody on the market knows it; however Father always said that a person who would mislead in one thing would not hesitate to mislead in another?
Remember we publish facts and never try to mislead and our customers all go home satisfied, advising their friends to sell at Gorman's.
