### UNLOADING COLE EIGHTS.

The National Garage is now unloading another car of the famous Cole "Touring Car." This new concern, which has the largest and best equipped garage in Pitt county, are agents for four of the best make cars—Cole "8", Chalmers, Buick and Chevrolet—and are doing a splendid business both in the sales department and in the repair shops.

Their place is on Fifth Street. Employing only skilled mechanics who know their business, the National Garage guarantees only first-class work. When in the market for a car, talk to them.

### HANDS UND FRITZ

"Hands Und Fritz," the stampee, box office Holland Musical comedy roar of the season, is due here on Friday, October at the White's Theatre.

Based on R. Dirk's famous comic cartoons that have made a Nation roar, "Hands Und Fritz," is said to be livelier, gayer, more tuneful and more overwhelmingly amusing than any musical comedy stage production, not even excepting the same cartoonists immortal hilarity. "The Katzenjammer Kids," Frank Kennedy adapted the Dirk's hilarity to the stage, and Leo Edwards and Will Cobb wrote the score. The special dances have been directed by Mr. Will Smith, and the production staged by Frank Tannehill.

The comeliest chorus in cartoon comedy, is the alliterative "encomium" conchisera the girly element of the production by recent newspaper reviewers.

**Batchelor Brothers.** The "Superior Clothes" dealers are advertising that well known line of clothes—Kirschbaum—today. Head the ad carefully. It contains facts.

**Orchards by the Wayside.** Wayside orchards are quite a feature of the roads in many parts of Herefordshire. Damsons are the trees usually planted for this purpose, and along many of the main roads they have been planted in the hedges at intervals of a few yards for considerable distances.

Great masses of snowy bloom in spring and the purple of ripening fruit in the late summer do much to add to the beauty of one of the most beautiful counties in England.

Some enterprising farmers have planted damson trees in every hedge on the farm, and the damson crop is quite a considerable factor in their agricultural returns. Tons of the fruit are gathered in a half ripe state and used for dyeing purposes—London Standard.

**Da Vinci's Curious Writing.** Although Leonardo da Vinci was a voluminous writer, he never published a single line during his lifetime. After the master's death in France his manuscripts were taken back to Italy. His heirs proved unworthy, and the precious writings were gradually dispersed. Loose pages were often detached and were either given away as relics or stolen. No attempt was made to publish any of his treatises, except that on painting, for more than 300 years after his death. This was partly owing to the great difficulty of deciphering his handwriting. Da Vinci was left handed and always wrote in oriental fashion, from right to left. Besides this, his orthography is peculiar to himself. He abbreviates some words and joins others together and employs neither stops nor accents.

**Buddhism.** Buddhism started with Gautama Buddha about 700 years before the Christian era, and it numbers among its adherents more than a third of the human race. Buddhism is confined mainly to Asia—Manchuria, Mongolia, Korea, Tibet, China, Japan and the large islands off the Asiatic coast. Though born in India, Buddhism is not strong in that country today, being driven out by the old Hinduism of which it is the offshoot.

**Use of Eggs.** Eggs are considered one of the best remedies for dysentery. Beaten up slightly with or without sugar, they tend by reason of their excellent qualities to lessen the inflammation of the stomach and intestines and form a transient coating on these organs.
