### JUNKERS AGAIN IN POWER IS NOW VIEW OF DEVELOPMENTS

LONDON.—More fragmentary details of the German naval mutiny and phases from German foreign secretary Kuehlmann's recent Reichstag "war aims" speech has brought the conviction to the British press and the public generally that the Junkers are again firmly fixed in their power in Berlin.

London now regards von Cappell's announcement in the Reichstag of mutiny and camouflage, under which the Junkerites dealt their political "knockout" for the present, at least, as a growing Liberal element.

The Evening Star says: "we are very skeptical of this sudden passion for washing dirty linen in the Reichstag. The Prussians are cunning but also clumsy."

"If three of the deputies really caused mutiny there surely would have been a secret court-martial and a mid-night firing squad."

"The whole thing is a political maneuver which is intended to strengthen the military party on the one hand and to assist the German peace offensive on the other."

### N. C. Conference to Meet Here Dec. 5th

The North Carolina Conference of the Methodist Episcopal Church, South, will convene in this city, Wednesday morning, December 5, with a Bishop Warren A. Candler, D. D., L. D., of Atlanta, Ga., as the presiding officer. This will be the second time that the conference has convened in Greenville so far as the records show. The last time that it met here was the late Bishop Charles Galloway presided. The conference will consist of about 300 preachers and delegates; also quite a number of connectional officers, both clerical and lay, are expected to be present. That the people of Greenville will entertain this large body goes without saying.

Within the next few days, a campaign will be begun to secure homes here for the preachers and delegates and the News feels confident that the citizens, regardless of denomination, will willingly and cheerfully throw wide their doors and extend to the visitors, who are to be their guests, a warm welcome. Most of the visitors attending the conference are plain and unassuming and will enjoy a stay in any home.

Rev. J. M. Daniel, the pastor of the church here, will appreciate any help rendered him along this line. The Methodist conference is one of the largest christian bodies in North Carolina and will do it in royal style. The entire city is looking forward to the coming of the conference with great pleasure.

Bishop Candler, the presiding officer, is one of Methodism's leading thinkers, and as a preacher occupies an enviable niche in the episcopacy. He is a brother of Asa Candler, the present mayor of Atlanta, and one of the South's greatest capitalists.

### E. & H. Department Woman's Club Meets

The Education and Health Department of the Woman's Club held its first meeting on Thursday afternoon at the High School Building.

Mrs. Miriam McFarlen, chairman, gave a résumé of what the department had accomplished and the plans for the coming year. This department, realizing that education is the basis of all social development, is thoroughly alive and wide awake to the needs of the community. The initiative work is the establishment of a "moonlight school" at the cotton mill. This school is taught twice a week by volunteer teachers and will continue for three months. The boys and girls at the mill over fourteen years of age, who have no other opportunity for getting knowledge, asked that the school be taught. On the first night there were thirteen pupils present; on the second, nineteen; on the third, twenty-five.

The program for the afternoon was a study of laws relating to the welfare of the child.

Paper: Juvenile Laws of North Carolina—Mrs. N. W. Outlaw (read by Mrs. High Ragsdale).

Paper: Non-Enforcement of the Laws—Mrs. George Hadley.

The discussion was led by Mrs. M. H. Quinley.

It is to be regretted that so few parents are familiar with these laws, then too; apparently it seems that the city officers are not familiar with them. So to call attention to the fact that the juvenile laws are not enforced, it was voted to have one of the most important laws published.

The State Cigarette Law reads as follows:

"No child under the age of seven years shall be permitted to purchase or have cigarettes in any form. That any person who aids or abets a child under seventeen years of age in getting possession of cigarettes or tobacco for making them, shall be guilty of a misdemeanor and shall be punished by fine and imprisonment."

It is the duty of every city officer who sees a child under seventeen years of age smoking a cigarette to take him and inquire of him where he got it, and then arrest the person who sold or gave it to him."
