SIX MONTHS IN HELL AND BACK AGAIN

(Continued from Page Three)

however, is being discounted by the authorities, and families whose members are able to stand in line are compelled to make their own purchases. Notwithstanding the hundreds of people, men and women have become professional food-card-purchasing agents.

PUBLIC SOUP KITCHENS.

Then there are the public soup-kitchen patrons. The people who are destitute are given cards by the municipality, entitling the holder to two dishes of soup each day. The lines before the kitchens are still longer, and those who are compelled to apply for the municipal charity are mostly composed of former middle class men and women, whose income has been wiped out since the war, and who have no means of earning a livelihood.

Passing by one of these long public soup-kitchen lines, my comrades often called my attention to men who had been in comfortable circumstances—lawyers, educators and small shop keepers. Three times my comrades pointed out to me elderly gentlemen who had held high salaried positions at banks. I saw in another charity line an old importer whose entire wealth was wiped out since the war and who now was compelled to take his place among the penniless. Women in mourning compose half of those who are obliged to apply for municipal charity.

The soup is not, however, served on the premises. Each person brings a soup pail, and when their turn is reached in the line they receive the liquid which is falsely labeled "soup." This matter, the ingredients of which are a deep mystery, is carried home and eaten at their own table. It is mostly absolutely no fats or other substantial materials in the soup. It is mostly made of vegetable fat and resembles dish water very much while its odor was to me, most offensive.

Without Active Body and Mind

THE PHYSICAL STATE OF A PERSON IS CERTAIN TO GROW WORSE.

Disease Drives People To Lassitude Which Steadily Weakens And Activity Is Essential to Good Health.

The life of a normal woman should be active, it matters not what her social status may be. Unfortunately, circumstances force many women to do more than their share of work. A woman may spend her time either in a factory, home, office or drawing room, but must have occupation if she is to retain her health.

In Wilmington, N. C., there is a woman, Mrs. J. T. Kerr, wife of a County Commissioner and socially prominent, who would not submit to the inactivity caused by ill health. She wanted to be up and doing, and this is her account of how she brought about the change:

"I was strangled with indigestion, my appetite was poor, I could not sleep and felt tired and worn out all the time. I have taken two bottles of Peplac and it has helped me wonderfully. Now I feel different, my appetite is greatly improved, my nerves are stronger and I sleep better than I have for a long time. In fact, I am now doing a little sewing, something I have not been able to do before taking Peplac, and I feel myself growing stronger every day. I am glad to recommend Peplac as I know that all suffering people will appreciate the relief it will bring to them."

Peplac brought health and energy to Mrs. Kerr and it will do it for every woman who is tired and run down.

Peplac is recommended and sold in Greenville by the Greenville Drug Co., a bottle bought today may save you

YOU READ the Other Fellow's Ad

You are reading this one. That should convince you that advertising in these columns is a profitable proposition; that it will bring business to your store. The fact that the other fellow advertises is probably the reason he is getting more business than is falling to you. Would it not be well to give the other fellow a chance

When things begin to rattle-te-bang in the kitchen, telephone a want ad for a new cook.

The classified ad and its quick results exercise the same influence on the servant problem that a super-dreadnaught does on the world's peace.

ARE YOU GUILTY?

A FARMER carrying an express package from a big mail-order house was accosted by a local dealer.

"Why didn't you buy that bill of goods from me? I could have saved you the express, and besides you would have been patronizing a home store, which helps pay the taxes and builds up this locality."

The farmer looked at the merchant a moment and then said:

"Why don't you patronize your home store and advertise? I need it and didn't know that you had the stuff I have here."

MORAL—ADVERTISE

A Child's Savings MAY SHORTEN THE WAR

The war is costing the combined allies more than \$30,000,000 an hour. The daily fate of this huge sum is simple waste. A shortening of the war by days or even hours would mean the redemption of colossal waste.

We must bend every financial effort towards shortening the war. Every small amount invested by a child in Thrift Stamps tends towards this end. The influence of every Thrift Stamp purchased is a little momentum toward earlier victory.

Thus a child's savings may be instrumental in definitely shortening this war and in saving many times its own value in money, to say nothing of conserving human life.

Encourage your child to invest in 4 per cent interest-bearing Thrift Stamps instead of merely hoarding his pennies in a tin bank.

Thrift Stamps cost 25 cents each and may be bought at the postoffice, from your mail carrier and at most stores.

The Car..... Olympian

Visitors to the RALEIGH AUTOMOBILE SHOW will have the opportunity of seeing the CAR OLYMPIAN on exhibition. Special factory representative and our Mr. Eure will be in attendance to demonstrate and explain this beautiful car.

A CAR designed—especially—for the experienced automobilist. Embodies every practical refinement and comfort that the most exacting motorist could wish. Of admirable proportions and graceful, harmonious lines. Of splendid coach work and enduring finish. Wins the instant approval of the most critical eye.

A CAR of splendid workmanship and materials—and of a construction approved by engineers whose word bears weight of authority. Its high-speed engine will carry you at a much greater speed than is prudent for you to travel. Has power ample for any condition of road or hill.

Frame, driving parts, springs, axles—of a strength that assures lasting endurance—and, lastly, added to these is the prime essential of the modern automobile—beauty—truly it is the car of
