TREATY EMBRACING ALL ENEMY COUNTRIES BEING PLANNED TO SPEED UP PEACE SETTLEMENT

(By United Press)
Paris.—A treaty embracing all of the enemy countries instead of a preliminary pact with Germany is now being planned in an effort to speed up the peace settlement, it is learned from authoritative sources.
According to the best information when such a treaty will be ready for submission to the enemy powers by cutting in their delegates is not known. This first plan completely upsets the program along which the Peace conference has been running for the past month.
It is not yet certain that the new scheme will be carried out but some of the delegates point out these various questions in order that time may be saved in the long run by bringing all of the treaties together.

ALLIES MUST ACT IF WESTWARD FLOOD BOLSHEVISM IS DAMMED

(By United Press)—Copyrighted by United Press.—The Allies must act immediately if the westward flood of Bolshevism is to be dammed. Prince Windischgraetz, the Hungarian statesman and chief advisor to Emperor Karl during last year in dual monarchy, told the United Press.
The prince declared that Rumania and eastern Galicia are still forming a barrier against the deluge of racialism but this must be strengthened or it cannot hold.
Dr. E. P. Spence, one of the happiest men in Greenville today and he has every reason to be. This morning upon going to the postoffice for his mail he found a package containing a handsome Hamilton gold watch sent him by his brother, Dr. Z. P. Spence of Goldsboro. The watch on the back of the case contains the monogram E. P. S. It is surely a work of art and Dr. Spence is very proud of it.

Edward L. Stewart of Washington is here today on professional business.

VOYAGE OF LIFE THEME OF REV. SADDLER AT TRAINING SCHOOL

"The voyage of life" was the theme of an inspiring sermon preached by Rev. S. L. Saddle at the Training school yesterday evening. He read the story of Paul's journey as told in the 27th chapter of Acts and used this as symbolical of the journey along life.
If the start is wrong and one runs into a head wind he has a hard time, if he runs into the opposition to the eternal verities—truth, honor, integrity and all the virtues—he has a hard battle, but there is a place where one can stop, turn back and begin the voyage again, a Fairhaven. He made the application very practical and very strong, and spoke as one who understood thoroughly student temptations and weaknesses. The cheat, he declared, might be able to cover up his deed for awhile, but in the end it would come out, or if he went out into life having succeeded in covering it up, it would finally react against him. "Honest hard work and nothing else, is the only thing that can really earn a student through to real success. It is with nations as with individuals; there is something wrong with the start and they do not turn back when the opportunity comes. Spain in the distant past and Germany now are illustrations of this.
The vivid story and its fine application made a profound impression on the young women and several responded to the minister's appeal to turn around and make a new start in life.

Washington is planning to have the biggest time in its history.

My Honolulu Girl Was Disappointing to the Audience

(By United Press)
"My Honolulu Girl," was surely disappointing to the theatre goers last night. The attraction was simply "junk" from start to finish. There was only one redeeming feature if it can be called such and this was the stunts pulled off by Lei Momi, the dancer. The singing, both the soloists and chorus, were rotten to the core and grated upon the ears of those who are only fair judges of harmony and melody. The theatre was packed with the expectation of getting their money's worth but these present fell far short of their expectation.

GOVERNMENT SLEUTHS HAVE MOONSHINERS ON THE JUMP

Atlanta.—The operation of moonshine stills in the Blue Ridge mountains has become such a perilous undertaking that none but the most desperate and hardened followers of the game are keeping at it, according to internal revenue officers.
There was a time when a moonshiner could go into a mountain cove, pitch his still by the side of a crystal brook, and make good liquor. He filled his brook and leisurely and peacefully made his liquor. He took his credit through charcoal to eliminate the fuel oil. He strained it through layers of flannel cloth to make it smooth and pure. That was the "mountain dew" that could be imbibed without a chase and with no fear of a headache on the morrow.
But now that's all changed. Revenue officers say. Officials are taking the moonshiners day and night. The operator of an illicit still has no time to make good liquor. He pitches his outfit one day and is gone the next. He is forced to use chemicals to speed up the process of distilling.
The moonshiner is on the run.

MERCHANTS ASSOCIATION MET REGULAR SESSION LAST NIGHT

Greenville's Merchants Association held another one of their enthusiastic meetings at their rooms in the Edwards building last night and while the attendance of members was not what it should have been the meeting was in every way a most satisfactory one.
In the absence of the president, first vice president Mr. Frank Wilson occupied the chair. The minutes of the preceding meeting were read by the secretary, Miss Maud Lee, and approved.
A new committee consisting of Messrs. W. A. Bowen, Frank Wilson, R. L. Crow and G. B. W. Hatley was appointed for the purpose of canvassing for new members for the association. Every effort will be made for every merchant and business man in Greenville to become a member of this organization which has and is doing much for the community.
The Cemetery committee made a report to the effect that they have looked over two sites which would be ideal for a cemetery in Greenville but unfortunately both of these sites were unobtainable. It was moved and seconded that this committee be continued for the purpose of lending whatever assistance they could to the board of aldermen for securing a suitable site for a cemetery.
The matter of the lack of night police protection in the city was brought to the attention of the association and discussed at some length.
The association finally decided to suggest to the board of aldermen that two additional night police be employed. The association is anxious that the city have more police protection, not only in the business section but in residential as well. A committee consisting of Messrs. R. L. Crow, Frank Wilson, J. R. Turner and G. B. W. Hatley was appointed to present this question to the board of aldermen at their next meeting.
Mr. Benton, an architect of Wilson, who now has under construction about fifteen hospital buildings in different sections, the secretary reported, will arrive in Greenville within the next few days with some of his drawings for hospitals and he will also give the citizens his ideas as to what an ideal hospital is and how to construct it.
