# Ice Cream Man Says He Thought His Time Had Come

It is indeed doubtful if there is a better known or more highly respected man in Knoxville, Tennessee, than O. M. Smith. "Cal" as he is known to his host of friends, has been prominently identified with the ice cream manufacturing business in that city for a number of years, occupying a responsible position with the Mono Ice Cream Company. In relating his remarkable experience with Tanlac, Mr. Smith recently said:

"About one month ago, I had a severe attack of what the doctors described as acute indigestion, and for several days I was a very sick man. Shortly after eating, one day, I began to experience a very full, uncomfortable feeling in my stomach. I had never had anything like it before and I hope I never will again, for my stomach swelled up so rom gas that I could hardly breathe. My hands and feet got cold and clammy and my pulse weak. I felt like I'd give anything in the world for one good deep breath. I started doctoring myself, but in spite of the medicine I took, I continued to get worse and began to think my time had come.

"A friend of mine told me about this Tanlac and I sent and got a bottle and started taking it. Well, sir, you can believe it or not, but I began to improve from the very start. By the end of the week I was all straightened out again and now that I've taken three bottles, I feel like a new man. I have forgotten all about the indigestion and can eat just anything I want.

"Tanlac just beats anything I ever saw. Nearly everybody in my neighborhood is taking Tanlac and they are all praising it."

Tanlac is sold in Greenville by Warren Drug Company.
