## ★ 'Phone 13 STAR WAREHOUSE Greenville, N. C. ★

### Hot Stuff!

Tobacco higher than ever Friday at the LIBERTY. Every house finished selling around the dinner hour.

The Liberty is still leading in high prices and big averages. With tobacco selling at present high prices it takes both nerve and judgment to carry each pile to its limit. There are no cheap piles sold on the Liberty floor, as we carry every one to the top of the market. It takes judgment, nerve, experience and money to sell tobacco for the most money.

We give below just four or five sales made the last day or so. Bring us your next load any day and we will see that you get the highest and best sale of your life.

Greenville the highest market in the State. The Liberty the highest house in Greenville

James Bowman Lindsay, Scottish Engineer, Has Not Been Given the Credit He Deserves.

Little is heard about James Bowman Lindsay, and much about wireless telegraphy, yet the career of the one and the history of the other are inseparable, says the Christian Science Monitor. Upwards of sixty years ago Bowman Lindsay operated a system across the River Tay, a distance of one and a half miles, just above the bridge the construction of which ranks as one of the most notable feats in engineering. His efforts failed to attract attention at the time, however, because of his retiring disposition, but the history of electrical research records few names more deserving of respect than his. He was a pioneer in the application of electricity for heating and lighting purposes and bespoke a great future for it.

Apropos of Bowman Lindsay, as he was familiarly known, it is interesting to note that his energies were not wholly directed to the advancement of the mechanical arts. He was a linguist and as such started out to translate the Bible into many different languages. Seven years' labor was expended on the task, and the work was far from being finished when it had to be abandoned. The Bible, in incomplete form, may still be seen in the Albert Institute, Dundee, Scotland. It lies open in a glass case and shows that the method employed was to divide the book into the requisite number of columns and in each column place the words in English and their equivalent in each language into which they were translated.

### Housing Problem In London Still is Troublesome

(By Associated Press) London.—American women in England and some of the men, too, have gazed longingly the past few days on photographs of interiors of modest American homes, many of which the London newspapers are publishing to suggest improvement in British living conditions. Their drab surroundings in a high ceiling drawing room with its inevitable coal grate fire makes them covet the cozy, steamheated living rooms and clean convenient kitchens they see pictured.

Great Britain has its housing problem as have other European nations. For months the health ministry has tried to adopt satisfactory schemes for erecting new homes but has not arrived at any national plan.

### SOCIAL AND PERSONAL

Rev. Stephen Gardner of Washington registered at the Proctor last evening.

Buck James, S. L. Carr and Jack Mazingo, of Farmville were visitors to the city last evening.

A. B. Young of Raleigh is in the city.

H. M. Jenkins of Washington is here today on business.

J. B. James has returned from a professional visit to Raleigh and Greensboro.

Rev. J. H. Gibbons returned to his home in Goldsboro this morning.

Mr. and Mrs. C. B. Rowlett arrived in the city yesterday afternoon from their bridal tour and are guests of Mrs. Rowlett's parents, Mr. and Mrs. A. H. Critcher on Dickinson avenue.

#### UP FOR TRIAL MONDAY

Among the cases of interest for trial next in the Pitt county Superior court is that of State vs. Greenville Publishing Co., and Jas. L. Mayo, editor, for publishing wrong statements. This case will be tried Monday, the first day of court.
