HON. W. McDONALD LEE OF VIRGINIA,
National Director for the Campaign for National and
World Wide Prohibition

SHOWS NEED FOR "DRY" CAMPAIGN

INTERVIEW WITH DIRECTOR W.
McDONALD LEE.

LAW ENFORCEMENT FIRST \$9,000,000 To Be Spent In Fighting Bolshevism By Americanizing Foreigners.

W. McDonald Lee, National Director of the great campaign launched by the Anti-Saloon League of America, has made the following statement showing the objects of the campaign, why it is necessary, and to what purposes the funds raised will be devoted.

"We have three great aims in this campaign," declared Mr. Lee, "all of which will appeal to every patriotic American who has the welfare of his own country at heart and any regard for the moral and spiritual welfare and progress of our neighboring nations. These aims are as follows:
(1) To aid home Law Enforcement (requiring about nine million).
(2) To Americanize the Foreigner (requiring about nine million).
(3) A Dry World by 1930 (including Mexico and West Indies).

"A fourth of the money raised in the campaign is to be left in the State for object one, 'Law Enforcement,' which means creating public sentiment for observance of law, and demand for officers who will enforce the law. Internal Revenue Commissioner Daniel Roper and Federal and State officers nearly everywhere invite such co-operation by our organization and similar ones. Liquor interests have organized—it is said with \$400,000,000 fund—twenty-four States, in effort to elect a Congress that will increase alcoholic contents from one-fourth of one per cent. to ten, or even forty per cent. and thus defeat the aims of Prohibition and nullify the Eighteenth amendment.

"Another fourth of the money, for object two, goes to the Anti-Saloon League of America for work among aliens in this country. We must make good and law-abiding citizens of those foreigners who stay with us, through education, literature and speakers in the only language they may know. While harangued by anarchists and booze-advocates they remain a menace to our institutions. These scattered colonies within our borders can be reached only through the systematic and studied propaganda of the National League.

"Such of the remainder of the funds as may be determined by the State and National Leagues is to be devoted to object three. All the world is now our neighbor. Five critical years have demonstrated that we are vitally affected by conditions elsewhere on the globe. One dollar's worth of liquor will counteract a hundred dollars of the money so generously given to missions by Baptists, Methodists, Presbyterians, Episcopalians and others. Let's help make effective these missionary gifts. The missionary pleads for our help against the emigrating liquor dealer and his wares that are hurrying to other shores.

"Under object one and two the Anti-Saloon League seeks to remove the cause that Y. M. C. A., Red Cross, Salvation Army and other noble bodies are earnestly striving to remedy. With law enforcement, proper education and removal of temptation there will be less poverty, fewer dens of vice, a redemption from misery to women and children, and the work of these great organizations will be made easier and the quicker accomplished.

"Under object three it will be possible to 'clean up' Cuba and the Bahamas from the liquor and vice contagion that is already affecting our shores. Mexico also, because of which probably a hundred million dollars a year is spent by our American Government to keep the peace, would be less a disturbing element if drink were abolished and this can be accomplished. As an aid in preventing Bolshevism from spreading to our shores, some countries of the Old World should be made acquainted with our customs and laws and their citizens taught to respect such before emigrating here."
