Senator Overman Speaks

Raleigh, N. C.—Assailing the Republican party of North Carolina and of the nation, Senator Lee S. Overman, addressing the Democratic State Convention today, declared the Republicans, "hoping to in the next election by discrediting the great head of the Democratic party, have entered into a conspiracy of abuse and slander of the vilest and most inhuman kind against the President of the United States."

"The Republicans indict the President for stubbornness and indifference to their feelings, when it was they and not he who made the treaty a partisan issue, continued Senator Overman. "He try did it wilfully, and deliberately. They determined more than a year ago that regardless of all of the provision of the treaty they would so change it and modify it that they could gain a partisan victory over the President. They had no other program and no other purpose. They care nothing for principle, national honor or national good faith and national pride; they dashed all away for partisan advantage. Even while the Government was negotiating this treaty—before its contents were known—our Republican friends, desiring to make political capital out of it and injure the President, entered into a conspiracy to fight it to the bitter end. For eight long months this treaty has been held up in the Senate, embarrassing the President and embarrassing us both at home and abroad. We now have to appear before the nations of the world as a people who do not regard treaties as a solemn international obligation, but regard them only as campaign issues. America, in my judgment, will finally ratify the treaty with certain mild reservations and Woodrow Wilson will be vindicated."

Senator Overman charged that the highway of the Republican party in the nation was strewn with a wreck of broken pledges and unperformed promises.

"In the last election they carried both the House and the Senate in the promise that they would reduce tax-

GOV. APPROVAL LABOR UNIONS IN JAPAN

Tokio.—Government approval of the organization of labor unions would be given for the first time in Japan under a new bill drawn up by the department of commerce for submission to the present session of the Diet. The government proposes, however, to regulate, restrict and to a certain extent, otherwise control the operations of the unions which might be organized under the proposed law.

Unions of various trades would be permitted to form a federation of unions only provided its rules and regulations were submitted and approved by "the proper authorities."

Congressman Hoey Speaks

Raleigh, N. C.—In the keynote speech on State issues before the North Carolina Democratic State Convention here today, Representative Clyde R. Hoey, of the 10th Congressional district, as temporary chairman reviewed the work of the party in the administration of the State's affairs, advocated passage at the special session of the Assembly of the constitutional amendment granting full suffrage to women, and declared the Democrats boldly accepted the challenge of the Republicans, predicting that in the November election, "the Republicans will be buried under an avalanche of ballots from which there will be no political resurrection in North Carolina."

Four outstanding measures for the State, Mr. Hoey said, must be completed. They are the revaluation act, to give a fair and just system of taxation; the income tax amendment to relieve all real and personal property from any tax whatever for State purposes; a State system of highways, to facilitate marketing and general transportation, and full suffrage for women.

"The Democracy of North Carolina," declared Mr. Hoey, "welcome the splendid womanhood of the State to share fully the duties and responsibilities of government, and I hope to see our General Assembly at its special session ratify the suffrage amendment. Such action will serve the two-fold purpose of granting simple, though delayed justice to our women, and exercising for ourselves the privilege of conferring the right of full suffrage upon our women. Everybody can support that proposition. Those of us who believe in suffrage for women can vote for it upon that ground, and those who are opposed to it can support it because they are going to have it any way and it would be much more

RESPIRATORS WORN BY JAPS IN EPIDEMIC

Tokio.—A striking feature of the epidemic of influenza here was the grotesque appearance of Tokio crowds wearing all kinds of respirators, from the celluloid artificial nose to the patch of black tastefully embroidered upon the aesthetic school girl. Innoculation with preventive serum was tried. It is claimed with good results, though in certain cases it was said to be as fatal as the disease itself. The deaths from influenza in January totalled 5,775.

GERMAN MUSIC IS RETURNING TO ENGLAND

London.—German music is returning to England without arousing protest or hostility. Strauss' work was heard here for the first time since 1914 when his "Don Juan" was placed last on the program in Queen's Hall recently with the idea that those who did not want to hear it need not remain. Some members of the audience left the hall when it began but there was no other manifestation of disapproval.

gracious for it to come by the vote of the men of our own state. "The State is to be congratulated upon the amicable relations existing between the races and the real progress the negro race is making along right lines. The negro gets absolute justice in our courts, is accumulating property and is being educated along the lines in which his services will be needed, and we will have no political race problems if the republican politicians will leave him alone. With the supremacy of Democracy there is absolute assurance of continued Anglo-Saxon government unimpaired and untroubled with Africanism."
