

KINSTON MINSTREL SHOW PLEASING

Performance Last Night Was a Most Creditable One—Show in Ayden Tonight.

The American Legion Minstrels of Kinston, delighted a large audience at White's Theatre last night. The performance was creditable in every way through and the audience appreciated the efforts of the entire company by hearty applause. The singing was good, hits apt and the costumes catchy. "Deep O" Green in his stunts, and Calkins and Richardson, were especially clever. The solo work of "Dick" was one of the outstanding features. The Legion quartet was highly appreciated as they were encored several times and responded gracefully.

The overture or first part of the show was unique. The hits as to local celebrities brought down the house. The company give a performance in Ayden tonight. All of the proceeds above the actual expenses goes to a ward in Oteen hospital, Asheville.

U. S. SUFFERS TREMENDOUS FOREST FIRE LOSSES

Washington, D. C., April 7.—Forest fires, sweeping over 56,488,307 acres of land in 45 States, caused amounting to \$85,715,747 during the five years 1916 to 1920, inclusive, according to information made public today by the forest service of the United States department of Agriculture. A total of 160,318 forest fires occurred during this period. Minnesota was the chief sufferer, its loss being \$30,895,868.

The bulletin containing this information is a special edition of safeguarding America Against Fire issued for the Federal and State forest services by the National Board of Fire Underwriters. It presents the latest survey of the country's forest fire situation, and points out that the major portion of the damage to America's forest resources, due to human agencies, is preventable. Railroads caused the largest number of all fires chargeable to such agencies.

Our Standard of Ingredients For You—

WHEN the world was young and man stood on the threshold of existence, Nature had to mother him and stand responsible for the provision of his necessities.

HIS needs were for shelter, clothing, water and food, and the most important of these was food and its ingredients, provided in proportion necessary for healthful sustenance.

AS THE world has grown old, man has learned many things and progressed beyond conception—however, he has never improved on Nature herself, as a provider of correctly proportioned food.

WITH Nature's standard as our guide, we have perfected a formula and method (patents applied for to protect our process) which enables us to offer to you the most correctly proportioned Ice Cream ever made, containing pure cream, pure milk, pure cane sugar, and flavored with genuine natural flavors.

NO OTHER Ice Cream will give to you that assurance of Quality and Purity.

WE DO NOT use gelatin, gums, starch or fillers, nor do we use imitation flavors.

THIS standard is your protection and assures you an Ice Cream exceeding in charm and purity even that good old-fashioned kind your Mother made—
