## WOODROW WILSON BREAKS SILENCE

Writes Letter to Editor of Stars and Stripes—First Utterance Since March 4.

Washington, May 28.—Woodrow Wilson broke today the silence he has maintained since he retired from the White House on March 4.

In a Memorial Day letter to the editor of "the Stars and Stripes," which was published today in that soldier periodical, he declared that the American people "shall not be able to enjoy the full pride of the day's recollections until we have made sure that the duties that grew out of the war have been fulfilled to the utmost."

"Are we sure?" he asked. "If we are not shall we not soon take steps to do whatever has been omitted?" The full text of the former President's letter follows:

"Memorial Day has always been one of our most solemn and thoughtful anniversaries when we recalled great memories and dedicated ourselves again to the maintenance and purification of the Nation, but this year it has an added and tremendous significance because the memories and sacrifices of the great world war are now among the most stimulating of the recollections of the day. "We celebrate the immortal achievements of the men who died in France on the field and in the trenches, far away from home, in order that both our own people and the peoples across the seas might be delivered from the ugliest peril of all history. It is our privilege not only to indulge a high and solemn pride and grief for the heroes of that great struggle but also to rededicate ourselves to the achievement of the great objects for which that war was fought. We shall not be happy; we shall not be able to enjoy the full pride of the day's recollections until we have made sure that the duties that grew out of war have been fulfilled to the utmost."

"Are we sure? If we are not shall we not soon take steps to do whatever has been omitted. "Cordially yours, WOODROW WILSON."

## COMPLAINT AGAINST RENT PROFITEERING

Are Now Being Made in Havana—Attacks Made Almost Daily in Newspapers.

Havana, Cuba, May 28.—Bitter complaints are being made here against rent profiteering. Attacks are made almost daily in the newspapers on profiteering landlords. Numerous cases of three-room apartments for which \$150 a month is demanded, with one month's rent in advance and two months' rent as deposit, are cited.

One relief project being considered for submission to the city council provides for the appropriation of \$1,000,000 yearly for a number of years to construct four-room homes for the poorer people at a cost of about \$3,000 each. By selling these homes on a partial payment plan, it is declared that the proceeds, turned into the construction of more homes, would soon solve the housing problem, and, incidentally, eliminate the rent profiteer.

## APPEAL FROM MAY 29 TO JUNE 5TH

Christian Education Movement is No Longer a Great Undertaking of Church.

Nashville, Tenn., May 28.—"The Christian education movement is no longer a great undertaking of a great Church, but an individual enterprise," was the statement given out by A. C. Marts, advisory director, in commencing upon the prospects for final success when the Christian education movement reaches its climax, with the putting on the drive for the big educational fund. Mr. Marts stated further, "What was the church's responsibility in January 1921 has become an individual responsibility in May 1921. From this time on the movement is a searching challenge to two million individuals to think of the undertaking not as the Christian education movement of the Methodist Episcopal church, South, but as an individual responsibility for the Christian education of America. When we are driven by the compulsion of personal accountability we will not spare ourselves in energy, devotion, intercession or giving. When we, as individuals, have one by one, paid the price in our own hearts and will, then we, as a church, can render this saving service to the world."

Leaders of the movement in this section say that during the past six months the Methodist Episcopal church south has forced upon the attention of the people it serves an ideal which has already begun to exercise a far-reaching influence, and that the development of education throughout the south will be affected for years to come by the church's commitment to an enterprise which is planned to result in Christian character. They state further that it is not the custom of Methodists to erect an ideal and then walk away from it, but that during the approaching financial drive in behalf of the Christian education movement, that will seek to make the ideal effective by a sweeping victory for the various goals sought.

The date for the Church-wide financial appeal is May 29-June 5 and the amount to be raised throughout the church is \$30,000,000, which will be applied to the improvement and enlargement of its 91 educational plants. It is said that between one and two million dollars has already been subscribed to the fund.

## PICTURE'S PRICE ASTONISHED HIM

French Painter Sells Picture for Mere Song then Learns of Its Great Value.

Paris, May 28.—M. Gassy, a Parisian painter, was strolling past an art dealer's shop sometime ago when he recognized a landscape which he had hastily splashed on the canvass in his Latin Quarter days years ago and then disposed of for a song. Curious to ascertain what prices were asked for the picture he entered the shop and nearly suffered a stroke when the dealer said: "40,000 francs."

"You dealers are great humorists," he admonished the shopkeeper, "I know what that canvass is worth; I painted it myself." "Please begin by being serious yourself" replied the dealer coldly, "this is a genuine Whistler, why don't you look at the signature?" The Painter had the dealer summoned before a committee of experts which has just reported that the painting is not a Whistler but the work of M. Gassy, the plaintiff in the case.

The picture is now on sale for 1,500 francs.

## BRITISH CABINET TO SEND REINFORCEMENTS TO IRELAND

London, May 28.—The cabinet has decided to send large reinforcements to Ireland and it is rumored that new measures are to be adopted against the Republican forces in the South and west, according to an announcement by the London Times.

A large number of mobile troops, the newspaper says, are to be employed in a systematic "round-up of rebels" over large areas, but, it adds, the details have not been settled, as owing to the continuance of a state of emergency through the industrial troubles, and the need of sending troops to Silesia, it is difficult to spare troops at present.

According to a census taken for taxation purposes, German now possesses 3731 picture palaces, divided between 2104 towns.

## COWS BEING HELD IN QUARANTINE

This is the Situation in Germany—Animals Donated by Americans Now at Bremen.

Berlin, May 28.—Cows donated to Germany by American farmers are being held in quarantine at Bremen. Experts say that blood tests have disclosed bacteriological bodies capable of transmitting Texas fever but that the animals "are otherwise in good health."

The Bureau of Animal Industry in Washington has held that the mosquito which transmits Texas fever infection does not exist in Germany, but the experts here have decided there is a possibility that mosquitos were brought over with the cows and have recommended that the entire shipment be kept in communal stables in the large cities.

The German Red Cross, which is directing the distribution of the gift cows, has consented to this arrangement and milk from the cows is being distributed among the poor children of Bremen.

The situation, however, has again revived discussion of the advisability of donating cows to Germany, where there is such a shortage of feed that native livestock is suffering.
