Norfolk Intermediary Leaves Home Suddenly and Yacht Departs About Same Time; Bingham Links Liquor Racketeering With the Kidnaping Affair

Washington, April 23. -(AP) -Senator Bingham, Republican, Connecticut said in the Senate today that the fac. that Al Capone had twice offered to find the Lindbergh baby if released from custody, lends support to the belief that the kidnaping had been done by friends of Capone for this very purpose.

The senator said that color was

also lent to this belief by the "fact that it has been necessary to turn to gangsters" for aid in the recovery of the child.

Bingham described Capone as a gangster leader who made his money of beer racketing and bootlegging. He said, however, he did not believe the Lindbergh kidnaping was entirely due to prohibition, but added he thought Congress "must face the fact" that the "dry laws have made enormous profits available to gangsters and racketeers."

BANK SUSPENSIONS DWINDLE RAPIDLY

Marked Improvement in Situation Reported By Federal Reserve

Washington, April 23 .- (AP)-Reviewing the entire month of March, the Federal Reserve Board today reported conspicuous improvement in the country's bank-ing situation.

Suspensions during the month were placed at only 45, as against 122 for February and 342 for January. The deposits lof banks reopening were said to be approximately as large as those of th einstitutions which were forced to close. Most amounts were

in excess of \$15,000.000. The board noted an accelerated relic to the banks: lisuidation of bank loans continuing but offset in part by an increase in investments; increasing reserve balances of member banks and a decline in the total volume of

reserve balis credit. It is reported that the Bank of France industrial its gold stock by \$106,000,000 during the month, but that the return of short term funds into France was diminishing partiv because foreign balances had been almost all withdrawn.
