MOOD NEWS

Recent developments in electric cookery have resulted in shorter hours for the "cook," and a lower cost of operation! How? . . . Through Hi-Speed units, economy cookers, perfectly insulated ovens and more sensitive automatic controls. These improvements permit you to cook electrically now at the astonishingly low cost of LESS THAN A PENNY PER PERSON PER

Besides, it isn't necessary that you be "tied to the stove" during the cooking operation. Simply set the controls-they do the "staying at home," the watching, the turning on and off of the oven; and at precisely the moment desired the meal is ready-piping hot and ready to serve.

If you are a member of that ancient order of Kitchen your membership card for a pass to freedom and economy. There are facts about an Electric Range you ought to know. Let us tell you how this Modern Emancipator can lift your burden and at the same time reduce your cooking cost. During the next few weeks an allowance will be made for your old stove. The balance may be taken care of on a most convenient deferred payment plan.
