

PROHIBITION ISSUE IN DRY STATES OF SOUTH IN PRIMARY

Referendum on Question Is Favored by Senatorial Candidates in North Carolina

ALABAMA RUN-OFF HEARS WET ISSUE

Half a Dozen States In Old South Fight Over Referendum or Repeal in Contests for Senate or House Seats; In Traditionally Dry Area.

Atlanta, Ga., June 2.—(AP)—Primary skirmishes over seats in Congress have opened the prohibition question in traditionally dry districts. Half a dozen states generally regarded as dry and Democratic, in spite of romances about the Old South's mint julep and hot toddies, have found clearcut issues as referendum, repeal or submission to states were ejected into campaigns of candidates for Senate and House.

Militantly dry Alabama, prohibiting the sale of anything that looks like, tastes like or foams like beer, has two senatorial candidates in a runoff who favor a referendum.

North Carolina has on a five-corner senatorial race between the incumbent Senator Cameron Morrison, Commissioner of Labor Frank Grist, who favors a referendum; Robert R. Reynolds, Asheville lawyer, who announced on wet platform; Judge Tom Bowie and Arthur Simmons.

Jap Premier Sees No Danger of War With The Soviets

Tokyo, June 2.—(AP)—Viscount Minori Saito, Japan's premier, and foreign minister, asserted today in a written statement that there is absolutely no danger of war between his country and Soviet Russia.

The Japanese government has stated repeatedly that no danger of war with the Soviet Union exists, he said, "the attitude of the Soviet government respecting affairs in Manchuria, has been perfectly correct, and we only wish that the Soviet government might see a way to repose such a further measure of confidence in Japan's sincerity as would enable the Soviet union to discontinue all concentration of troops in the Far East."

TO SPEED CHARGES ON WALKER OUSTING

Will Be Put Up To Roosevelt And May Influence National Campaign

New York, June 2.—(AP)—Speedy preparation of removal charges against Mayor James J. Walker was in prospect today.

Samuel Seabury's investigation of the mayor's office, in which 14 months of tollsome inquiry reached a climax in a spectacular verbal duel between Seabury and the mayor, wound up late yesterday. Newspapers predicted ouster charges would be laid before Governor Franklin D. Roosevelt soon, possibly next week.

Because Governor Roosevelt is a candidate for the Democratic presidential nomination and Mayor Walker is an adherent of Tammany Hall, the possible effects on the Walker case on the national political picture have come more and more to the fore.

Military Dictatorship Is Not Unlikely In Germany

Von Papan's Cabinet May Impose Drastic Measures To Preserve Normal Conditions

AUTOCRATIC POWER IN AN EMERGENCY

New Cabinet Could Not Obtain Vote of Confidence In Reichstag If One Were Proposed, and Legislature Will Not, Therefore, Be Assembled

Berlin, June 2.—(AP)—The possibility of a virtual military dictatorship in Germany during the life of the new cabinet of Count Franz von Papan was seen by some political observers today.

These observers pointed out that the new cabinet which was framed yesterday would in all likelihood be unable to secure a vote of confidence in the Reichstag if it were convened. They predicted that President von Hindenburg, therefore, would not call the legislature together, but would continue to function under Article 48 of the constitution, which grants almost autocratic powers in an emergency.

Repudiation of the cabinet by the Central party, to which Count Von Papan himself belongs, and by the Bavarian peoples party last night was taken as indications of what the Reichstag would do if a vote of non-confidence were proposed.

Democratic Proposal For Bond Issue Would Unbalance Budget, Mills Tells Senators, While Hurley Says Public Works Would Help Very Little

Administration relief program was put before Congress today while two cabinet members were assailing the public works phases of Democratic measures before Senate and House committees.

Before the Senate Banking Committee, Secretary Mills of the Treasury said the Democratic proposal for a bond issue would "unbalance" the budget.

Secretary Hurley before the House Ways and Means Committee opposed a bond issue for public works, saying the huge expenditures involved would give comparatively little relief to unemployment.

FIRE IS RAGING IN ORANGEBURG PLANT

Orangeburg, S. C., June 2.—(AP)—Fire departments from three cities were asked to run equipment to Orangeburg to battle a lumber yard fire which was threatening the nearby cotton mill and oil refining plants.

The flames which were sweeping through the yards of the Orangeburg Lumber Company, where 4,000,000 feet of lumber is stored, apparently had gotten out of the hands of the local fire department, and trucks were rushed here from Columbia, Bamberg and St. Matthews.

A brisk breeze fanned the flames and sparks were carried three-quarters of a mile across the city, igniting a Negro church, a two-story frame dwelling and seven Negro shanties.

London, June 2.—(AP)—A Russian attempt to land arms in southern Ireland for the Irish Republican Army, the Daily Express said today, was thwarted by the British Navy over the past week-end.

The arms, the paper said, were intended to be used by the republican forces, who were placed under the ban of the government during the previous regime of President Cosgrave of the Free State, in the event of a conflict between the Free State and Ulster.

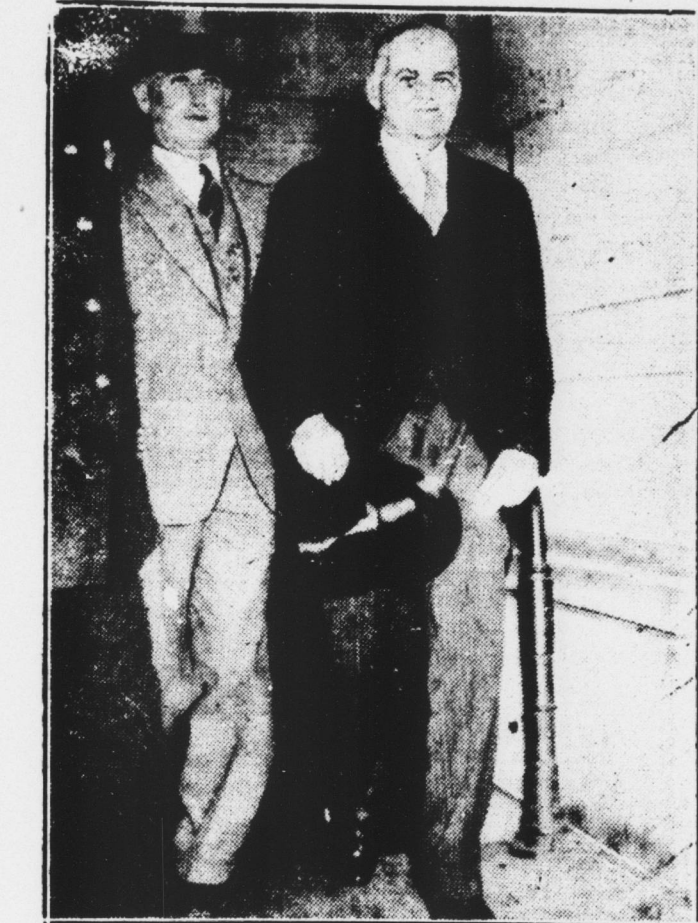

The tramp steamers carrying the arms, it said, were warned by radio of the activity of British warships which set out to head them off at British ports and they returned to the foreign ports where they were chartered, without being able to land the fighting equipment.

While Doctors Disagree, America, The Sick Patient, Suffers, And Bills Pile Up

By CHARLES P. STEWART Central Press Staff Writer

Washington, June 2.—What's the use of analyzing the prescriptions that are being offered for America's economic malaise? The doctors are only guessing anyway. They see the patient's symptoms but disagree as to their cause. The country at least, if not the doctors, also has reason to worry over the cost of its illness. Even if it recovers, will it not be found itself ruined by the bill for all the remedies the physicians by that time will have experimented with?

Representative George Huddleston of Alabama is an economic savant who discusses the present crisis in the nation's case with exceptional candor.

The other day he, a Democrat, joined Senator Bronson Cutting, a Republican, in introducing in the lower house of congress, while Cutting introduced in the upper chamber, a proposal for a \$5,000,000,000-program of public improvements for unemployment relief, to be financed by a fed-
