Candidates Select Themselves, It is Argued, and Results in Mud-Slinging Between Candidates, To Exclusion of Real Issues Involved

Daily Dispatch Bureau, in the Sir Walter Hotel. BY J. C. HANKERVILLE.

Raleigh, July 5.—Sentiment in favor of the abolition of the Statewide party primary system and a return to the convention system for the nomination of State officials, has developed rapidly in all sections of North Carolina as the result of the two recent primaries. It is recalled that an effort was made to repeal the State primary law in the 1931 General Assembly, and many believe that the 1933 General Assembly will give much more serious consideration to a movement for its repeal than did the 1931 session, as the result of the excessive cost of primaries.

It is agreed that a conservative estimate of the cost of even one party primary in the State is fully \$100,000.

VOLUNTEER HELPERS MIGHT END EFFORTS

Unless Funds Are Available Committee Cannot Function, Congress Is Informed By Hoover In Brief Message; Appropriation Had Been Omitted

Washington, July 5.—(AP)—President Hoover, in a brief message to Congress, today, asked for a special appropriation of \$120,000 to continue the activities of the President's organization on unemployed relief.

The chief executive pointed out that Congress had omitted an appropriation for the unemployment organization headed by Walter S. Gifford in the second deficiency bill recently enacted.

Should no appropriation be given, Mr. Hoover said, "there would be grave danger of national, state and local volunteer groups concluding that service, such as they have rendered no longer necessary."

The committee is composed of leading men and women in every state, whose efforts have been to stimulate private aid and coordinate local activities.

Mr. Hoover said it was "obviously of the utmost importance" that there be no diminution in the voluntary efforts "which combine the intimate knowledge of local conditions with the sense of responsibility toward fellow citizens and neighbors in distress."

### Dictatorship Suggested To Fight Present Crisis Not Popular With Masses

By CHARLES F. STEWART Washington, July 5.—The country's financial, commercial and industrial nobility may favor the methods of a Mussolini in dealing with the economic crisis, but the masses of the American people do not, according to Senator Elmer Thomas of Oklahoma.

It was Senator Thomas who recently introduced the resolution for repeal of the law under which President Wilson's wartime council of national defense was created and under which the old authorization still remaining effective) President Hoover has repeatedly been urged to act in the present emergency.

"And although he has refused hitherto," says the senator, "the fear that he may yield, following congress adjournment, to pressure for the establishment of some system amounting practically to a dictatorship is widespread."

"I have received hundreds of demands," continued the Oklahoman, (Continued on Page Three.)

### Meantime, Conferees Put Final Polish on Measure Strongly Opposed By President

THREAT IS BROUGHT TO HOUSE BY SNELL

Minority Leader Spent Week End With Hoover at Mountain Camp and Learned President's Purpose; He Is Against Public Works Bond Issue Idea

Washington, July 5 (AP)—Senator Watson, the Republican leader, said today that President Hoover would veto the \$2,100,000,000 unemployment relief bill, and insisted that Congress stay in session until a new measure has been passed.

The Republican leader said in a statement off the floor that this virtually ended any chance for an adjournment of Congress this week.

Approved by Conferees. The \$2,100,000,000 compromise unemployment relief bill finally was approved today by House and Senate conferees.

Representative Rainey, of Illinois, Democratic leader, appeared at a meeting of the conference committee, said he report would be taken up tomorrow by the House.

The conferees approved the final draft of the compromise agreement in the same form in which it was tentatively agreed to last Saturday, carrying \$300,000,000 for direct relief loans to states; \$322,000,000 for public construction and \$1,500,000,000 for loans through the Reconstruction Corporation, both public and private.

A copy of the compromise measure was sent by the conferees to the White House today for President Hoover's study.

Washington, July 5.—(AP)—A threat that Congress must enact the kind of relief bill President Hoover wants or stay in session today House and Senate conferees met as they put what they considered the final polish on their \$2,100,000,000 program.

The threat appeared in a statement by Representative Snell, of New York, Republican leader in the House, and chairman at his party's recent national convention.

After a week-end at President Hoover's Virginia mountain camp, Snell told newspaper men: "We are going to have relief legislation, no matter how long we stay here. If the President should veto the bill and Congress adjourn without any relief legislation, the President will call us back within 24 hours. He will not let us leave here without enacting an acceptable relief bill."

Snell did not say what portions of the bill as already agreed to by the conferees was objectionable to the White House. There was little, if any, relief, though, that Mr. Hoover had retreated from his stand against allowing \$300,000,000 for public works, as the measure would provide.
