Many Sections of State Clamor For Road Fund Relief

Raleigh, July 26.—(AP)—The North Carolina Highway Commission was "literally dug" with delegations this morning. Chairman E. B. Jeffress said, but no decision as to what roads will be included in the State emergency relief building program was announced.

North Carolina may be in financial stress, but the people certainly still want good roads," said Jeffress as he estimated that requests already on file would call for the expenditure of \$15,000,000, while only about \$6,000,000 is available.

Banks Ask About New Currencies

Washington Gets Numerous Inquiries On Home Loan Bank Bill Provision

Washington, July 26.—(AP)—A stream of inquiries from national banks concerning the possibility of their issuing currency with government bonds as security, as permitted under the Glass-Steagall amendment to the home loan bill, continued today to flow into the office of the comptroller of the currency.

The act permits national banks to issue the currency by depositing with the treasurer of the United States government bonds bearing not more than 3 3/8 percent interest, and paying a charge of one-half percent a year together with the expense of turning out the money.

The act operative for three years, would permit a maximum expansion of \$750,000,000 in the nation's currency.

While the names of a number of banks which inquired about the workings of the law were made public yesterday, officials of the comptroller's office said today no further information of that kind would be announced.

New York, July 26.—(AP)—Andrew W. Mellon, returning today on the liner Majestic, denied reports he intended to resign as ambassador to Great Britain.

"That's news to me—mid-summer news," said Mr. Mellon. The ambassador, while on board the boat, was not certain whether he would go directly to Pittsburgh or to Washington, but said he would spend no time in New York.

He declined to discuss the reason for his trip home, saying only: "There was a lull over there for the time, and I took advantage of it."

He refused to discuss debts or reparations or anything official. The ambassador also refused to discuss the coming political campaign. "I will do anything I can," he said, "but I did not come for that purpose."

He said he would return to England within two or three weeks.

Lumberton, July 26.—(AP)—Frank Pridden, 70-year-old farmer, was beaten to death at McDonald, near here, today during an argument over the Bible with Houson Williams, who fled immediately after the beating.

Police placed bloodhounds on Williams' trail and spread out in a general search for him through the section.

A coroner's jury was empaneled immediately after the beating, and Coroner D. W. Biggs, of Robeson county, announced that Pridden was beaten to death by Williams with a pair of brass knuckles.

It was testified at the inquest that Williams, an employee of Pridden, struck the old man during an argument over a passage of Scripture. Williams was ordered arrested and held on a charge of second-degree murder.

HOME OWNERS CAN NOW BORROW FROM HOME LOAN BANKS

Easy Payment Plan For Saving Homes May Be Godsend To Thousands In This State

PLAN IS OUTLINED BY B. & L. EXPERT

LaRoque Shows How Liquidation of Home Mortgages Can Be Spread Over Long Periods of Time, Enabling Many To Save Homes They Have Paid On

Daily Dispatch Bureau, In the Six Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, July 26.—Thousands of home owners in North Carolina who have not yet completed paying for their homes, as well as thousands of others who would like to buy homes but who cannot now do so, will be benefited by the home loan bank bill passed in the closing days of Congress and finally signed by President Hoover. For the home loan banks now being set up under this law with a capitalization of \$125,000,000, will make it possible for building and loan associations, savings banks and insurance companies to borrow from them twelve times the amount of stock they subscribe to and thus enable them to handle more loans over a longer period.

Incidentally, this bill was enacted largely through the efforts of the North Carolina delegation in Congress as was the Federal aid road bill and other important measures enacted by this Congress. Senator Cameron Morrison twice saved this bill from defeat in the Senate and Representative

An Accord With Vets Is Likely

Order To Evacuate Government Buildings by Last Midnight Is Extended

Washington, July 26.—(AP)—Whether some of their shelters would fall about their heads depended today upon the ability of bonus seekers to agree with the Treasury as to when they will get out of government buildings.

One group of veterans had a plan ready for the Treasury, which indicated that the already half wrecked building torn down, whether their occupants evacuated or not.

Police were ready, too, for a possible demonstration when nine men arrested yesterday in a general melee, following an attempt to picket the White House, were arraigned in police court. Exhorters of the radical wing, soap box speeches last night, urged the demonstration as a protest against the arrests.

There was an order instructing veterans to get out of the banned area at midnight last night, but Pelham D. Glassford, police superintendent, in a personal speech to the shanty town residents, granted a 24-hour reprieve.

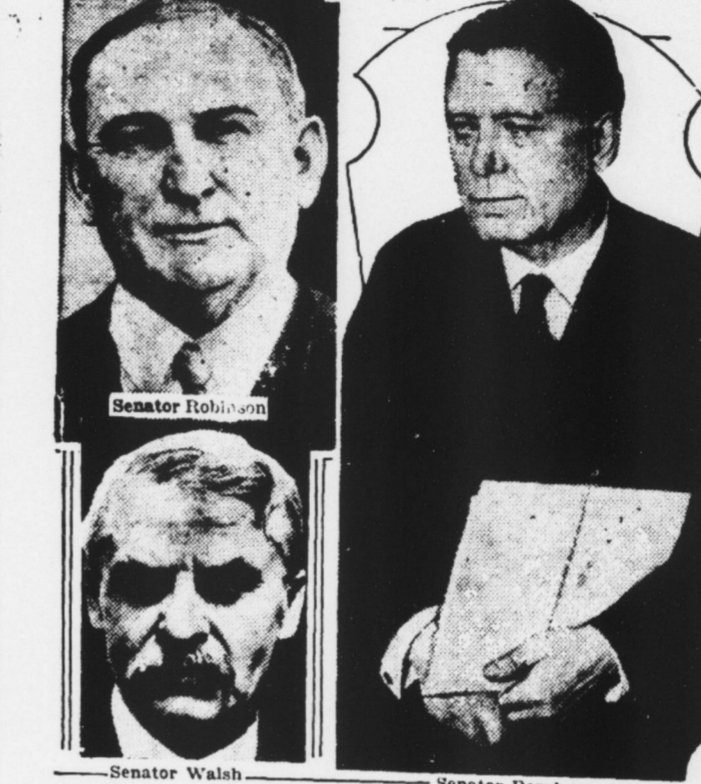

The compromise plan would have veterans leave government buildings and grounds in a "reasonable time," provided other billets were preferred. Estimates of what would be a "reasonable time" varied from five to 30 days.

WEATHER FOR NORTH CAROLINA.

Partly cloudy tonight and Wednesday; probably local thunder showers in interior Wednesday.

Daily Dispatch Bureau, In the Six Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, July 26.—The executive committee of the Young Democratic Clubs of America, by its decision that it would require only 25 cents of the membership fee to be used for the national organization purposes, thus leaving the total membership fee at \$1, of which 50 cents will be retained by the local club, with only 25 cents each for the State and national organization, has made a very wise move, in the opinion of Dewey Dora.

Manufacturers Unwilling To Make Major Concessions To Their Workers

High Point, July 26.—(AP)—Reports from several conferences between manufacturers and their employees today failed to indicate any break in the deadlock between the mills and 6,000 striking mill workers. The manufacturers were reported willing to make no major concessions, and the committees elected to represent each mill's workers indicated they did not feel they could authorize resumption of work until the manufacturers are at least willing to compromise their differences.

60 Missing As German Ship Sinks

Only 40 of 100 Cadets Saved from Naval Training Vessel Caught in Gale

Kiel, Germany, July 26 (AP)—The German naval training ship Noibe today went to the bottom of the Baltic Sea in a heavy storm with the probable loss of 60 cadets reported missing. Of the 100 cadets aboard, only 40 were known to have been rescued.

The Noibe a three-masted sailing vessel, keeled over about 2:30 p. m., when a fast-rising full gale struck. The tragedy occurred only a few minutes after the giant DO-X, flying from Travemunde to Kiel, had passed over, and dipping low, had signalled a greeting.

Among those rescued from the Noibe was Captain Rufus, her master. Naval craft in the vicinity immediately went to the scene and late this afternoon the steamer Theresia Ruff, which had previously picked up the 40 cadets, was standing by. The cruiser Koenigsberg, a seaplane, and four fast torpedo boats were also in the vicinity. Naval authorities were at a loss to explain the disaster, but they gave it as their guess that the crew, unprepared for the sudden wind, had been unable to reach the sails in time.
