GARDNER MAKES NEW MOVE FOR SETTLING ROCKINGHAM STRIKE

Governor Wires Presidents of Two Mills Offering to Arbitrate Grievances Brought

OWNERS UNCERTAIN AS TO THEIR PLANS

W. B. Cole Says He Doesn't Know, and Entwistle Says No Strikers Have Approached Him About Settlement; Gardner Urges Agreement in Controversy

Raleigh, Sept. 23.—(AP)—Governor O. Max Gardner took new steps today to bring an end to textile strikes at Rockingham today by telegraphing the presidents of the mills involved in offering his services in arbitration of the labor disputes.

The governor said in his telegrams that he understood the strikers were willing to arbitrate and asked the mill presidents immediately to advise him of their attitude.

His purpose in recommending the governor's telegram said, "is to relieve a situation which gives me grave concern, and which seriously affects the property interests of many citizens of North Carolina."

W. B. Cole, president of the Hannah Bickett Mills, and George P. Entwistle, president of the Entwistle Mills, were sent the wires. The governor said he understood Cole, who has been out of the State some weeks, returned to Rockingham last night.

ONE AND ENTWISTLE ARE NON-COMMITTAL ABOUT IT

Rockingham, Sept. 23.—(AP)—W. B. Cole, president of the Hannah Bickett Mills, declined to accept Governor Gardner's offer to arbitrate a strike between the mills and 1,200 of its employees who have been idle several weeks.

"I don't know," said Cole when asked if he would agree to arbitration. "I haven't thought the matter over yet. I have just been handed the governor's telegram."

George P. Entwistle, president of the Entwistle Mills, said he had not received Governor Gardner's telegram. Asked if he would agree to arbitrate the differences between his mill and its employees, he said no strikers had approached him respecting a settlement, and he did not know what his attitude toward arbitration would be.

But, added Entwistle, "I do not plan to open my mill Monday. In fact, I have no plans as respects this situation."

BIG SAVINGS MADE IN RECLAIMING OIL

Daily Dispatch Bureau, in the Sir Walter Hotel. BY J. C. BASKERVILLE. Raleigh, Sept. 23.—The oil reclaiming machine used by the State Highway Commission to Salvage used motor oil has already reclaimed 7,800 gallons of oil at an approximate saving of \$1,124.50, according to the equipment division of the commission. The cost of reclaiming the used oil is not more than 12 cents a gallon and frequently less so that the net saving is fully 15 cents a gallon, since new oil costs from 27 to 28 cents.

Laboratory tests and road tests both show this reclaimed oil to be just as good if not better, than absolutely new oil since the old oil is refined by this machine, and only the highest quality is turned out.

WHITE MAN'S BODY FOUND BY ROADSIDE

Had Evidently Been Killed Month Ago; Discovered Near Liberty

Liberty, Sept. 23.—(AP)—The body of an unidentified white man, wrapped in a rubber blanket and oil cloth, and bound with wire, was found today by Tom Bowden, Negro, 100 yards off a highway east of Liberty.

Coroner George Brooks and Sheriff Blair of Chatham county, called to the gruesome scene, said the body evidently had been lying in the weeds three to five weeks. The body was being held here while officers checked records of missing persons.

University Moral, Says Dr. Graham

Amid Misunderstanding, It Would Understand Its Foes President Asserts

Chapel Hill, Sept. 23.—(AP)—The University of North Carolina, at the formal opening of its 127th year today, was held up by President Frank Graham as an institution that throughout its history has maintained "an atmosphere that is free, moral, honest and spiritual."

"The answer to error," President Graham said, "is not terror but clean and wholesome freedom. Attacked, the University makes no attacks. Threatened, she makes no threats. Amid misunderstanding, she seeks to understand those who would strike her down."

President Graham told the new students that "discipline and contentment are not nearly so important as the attitude of one's own mind."

DURHAM UTILITIES COMPANY SUGGESTS REDUCED CHARGES

Scale of Lower Rates Offered to State Corporation Commission, But Not Accepted

FIRST OFFER MADE BY UTILITIES GROUP

Proposed Cuts Not Made Public; Other Companies To Have Opportunity To Make Proposals, Including Carolina Power, Sometime Next Week.

Raleigh, Sept. 23.—(AP)—Representatives of the Durham Public Service Company conferred today with members of the State Corporation Commission in regard to proposed electric rate reductions, and brought along tentative lower rate schedules with them, but they did not meet with the commission's approval, it was learned.

As far as is known, the Durham officials were the first to make any concrete reduction proposal since the commission instituted a series of conferences a month ago and members said reductions would be ordered.

The proposed schedules could not be heard.

R. L. Lindsey, general manager, and Jones Fuller, attorney, appeared for the company. Yesterday representatives of the Southern Public Utilities of Charlotte, were heard. Next Wednesday the Tidewater Power Company of Wilmington will appear, and later the Carolina Power and Light Company, of Raleigh, will be heard again.

RECIPROCITY PACT AID TO MOTORISTS

Agreement With Virginia Affects Automobiles and Trucks as Well

Daily Dispatch Bureau, in the Sir Walter Hotel. BY J. C. BASKERVILLE. Raleigh, Sept. 22.—The new reciprocity agreement for automobiles and trucks recently completed with Virginia considerably enlarges the privileges of owner-operated cars and trucks as well as for-hire trucks in inter-state commerce, it was pointed out that the State Highway Commission today.

This agreement provides that owners of automobiles or trucks may operate their trucks in either State for the duration of their regular license and not be required to buy two licenses. It also provides that for-hire trucks making "occasional" trips from either state into the other, may make as many as eight of these trips a month without having to purchase additional licenses. The shipments made by these trucks must be strictly inter-State, however, otherwise additional State licenses must be purchased.

Since this agreement with Virginia makes the same agreement binding with all other States with which Virginia has reciprocity agreements, it means that for the most part it will apply to all northern states from Virginia on to New York. Hence it will be possible to trucks owned by individuals or for-hire trucks to make a maximum of eight trips a month as far north as New York without having to buy additional licenses. Trucks operated on regular schedules over franchise routes, however, will still be regarded as common carriers and be required to buy a state license through each state they operate.

Persons residing in either state and whose business requires them to go

Republican Headquarters Not Disturbed On Surface By The Results In Maine

(Charles F. Stewart noted Washington writer, touring the nation to observe political and economic trends, stops in at the national Republican headquarters in Chicago.)

By CHARLES F. STEWART. Chicago, Sept. 23.—Only a mighty man would budge the G. O. P. managers, whether satisfaction it can get out of its theory that the recent Maine election result was a blessing in disguise. They say that the Maine election will prove to have thrown such a jolt into Republicans

as to stimulate them to exertions which will guarantee victory for their ticket in November.

Not, indeed as National Chairman Everett Sanders explained to me, that the Republicans are not going to win anyway.

As he pointed out to me, there is a steadily rising tide of Republicanism everywhere—but it has not risen quite high enough when the Maine electorate went to the polls to float the Hamiltonian craft into port as

Jobless Seaman 13th Fatality Since Monday and 50th Since August 1.

New York, Sept. 23.—(AP)—Peddlers of death by five-cent doses of poison today from police somewhere in the dim districts that most Manhattanites try to forget.

On the Bowery, in hotels, flock houses speakies and "shops" joints, and through the mirk of the water front, the itinerant peddlers have passed by night selling gulps of high-powered poison for a pan-handled nickel.

Detectives have followed their trail daily—it is a trail of unsuspecting and buying men—but have been unable to catch any of them. Police Commissioner Edward P. Mulrooney has ordered an intensive search.

Democratic Nominee Carries Campaign To Within 35 Miles of Hoover's Home Town

REPUBLICANS ARE RESPONDING FAST

Governor Pays High Tribute To Senator Johnson, Of California; Estimate 100,000 Jam Waterfront To Greet Candidate In San Francisco

San Francisco, Sept. 23.—(AP)—With a prediction that party lines would be broken more than ever before in history in the November elections, Franklin D. Roosevelt, today, carried his presidential campaign to within 35 miles of the legal residence of President Hoover whom he hopes to succeed in the White House.

The Democratic nominee's statement that Republicans were giving a "remarkable response" to his plea to forget party lines, was coupled with words for Senator Hiram Johnson, California Independent Republican, who has often clashed with President Hoover.

Enthusied by a tumultuous reception last night the Democratic candidate today faced a busy program with State and party leaders.

Police estimated 100,000 persons jammed the waterfront at Oakland and the Embarcadero, San Francisco's waterfront, and around Market street as Roosevelt entered the Golden Gate City and drove to the historic Palace hotel.

EXPERIMENT WITH CENTER ROAD-LINE

Daily Dispatch Bureau, in the Sir Walter Hotel. BY J. C. BASKERVILLE. Raleigh, Sept. 23.—Work has started on the painting of a center line on route 22 all the way from Fayetteville to the South Carolina line, through Lumberton, it was announced today at the State Highway Commission. This work was authorized by the commission some two or three weeks ago as an experimental project to see if a continuous center line would aid in reducing the number of accidents. In the past three months has used the black or white center line only on curves and hills. There has been a good deal of agitation for the center lining of all paved highways, however, as a safety measure. So the commission is experimenting with the continuous center line on several stretches of highway.
