FLOOD OF APPEALS FOR RELIEF MONEY REACHING RALEIGH

Only Those Counties That Have Exhausted Own Resources First, Will Receive Share

ALLOTMENT MADE VERY INADEQUATE

Estimating 300,000 In Need, Ten Cent Per Person Would Be \$900,000 in One Month; Local Sources Are Responding Commendably

Daily Dispatch Bureau, In the War Water Hotel, Raleigh, Oct. 10.—Although North Carolina has been granted a loan of \$15,000,000 in Federal relief funds by the Reconstruction Finance Corporation, this money must be stretched as far as possible and will be allotted only to those communities which have virtually exhausted their local relief resources, it was reiterated again today by Dr. Fred W. Morrison, State relief director.

All increasing flow of requests for money from this loan was coming in today. But every request will be carefully examined and only those counties, cities and towns which can show that they have done as much as they can to handle their own problems will be allotted funds. Nor can any of these communities fold their hands and stop their efforts to do as much as possible to handle their relief problems themselves, it was pointed out.

With fully 300,000 persons in North Carolina entirely dependent at the present time and who must be fed and clothed in some way, the task is tremendous and one in which every citizen of the State must assist, it was said. Allowing only 10 cents a day per person for those in need, the cost would amount to \$900,000 a month. This means that the \$15,000,000 obtained from the government is entirely inadequate to take care of the relief problem in North Carolina even for only 30 days, unless local effort is put forth in every community, Dr. Morrison points out.

However, the survey made of the relief needs of the State indicate that the people of the State as well as the governments of the various subdivisions have been making real efforts to deal with the relief problem. This survey shows that during the first eight months of this year \$3,000,000 was spent in relief work and that about \$1,000,000 more will be spent for the remaining four months. But there is need for still more local efforts, Morrison says.

INSULL HELD AT ATHENS, BUT NOT FOR EXTRADITION

The first authoritative explanation of Mr. Insull's detention was that it had been requested by the American Legation. Legation officials said, however, police acted solely on their own initiative.

It was explained police cannot hold any person for more than 48 hours in connection with defective papers. In the meantime, police took possession of Mr. Insull's passport in order to examine it. They may be authorized to arrest him pending an extradition application by American authorities.

MAXWELL ASSERTS FACTS WILL SHOW HIM AS TAR HEEL

Says Will Filed In New York Only Because Minor Cannot Make Will In This State

NEW YORK STATE IS AFTER 2 MILLIONS

Would Be \$1,900,000 Under Present Tax Law, There, Applicable If Will Is Probate There and Stands; Libby Holman's Father In Winston-Salem

Raleigh, Oct. 10.—(AP)—The State Revenue Department will take any steps necessary to protect the interests of North Carolina in collection of inheritance taxes on the estate of the late Smith Reynolds, A. J. Maxwell, commissioner of revenue, said today.

A will of Reynolds filed in New York last week set forth that the young man, a son of the late R. J. Reynolds, tobacco millionaire of Winston-Salem, was a resident of the State of New York.

"I think the will was executed and probated in New York probably for the reason that a minor could not make a legal will in North Carolina, and could under the New York statute," Maxwell said. "But," he continued, "whether he was a resident of North Carolina or New York, is a question of fact, and, in my opinion, facts will sustain his residence in North Carolina."

NEW YORK STATE WOULD GET NEAR TWO MILLIONS

Albany, N. Y., Oct. 10.—(AP)—New York State will take nearly two millions from the estate of the late Smith Reynolds if his will disposing of an estate of \$15,000,000 is probated as offered in New York.

At the present rate of taxation, the inheritance taxes collected by the State would amount to approximately \$1,900,000.

Under New York State law, the surrogate is the taxing officer and levies the tax, which is collected by the department of taxation and finance. This department said today it had "not officially learned" of Reynolds' death.

Over \$12,000,000 Cut From State's Tax Bill For Past Fiscal Year

Daily Dispatch Bureau, In the War Water Hotel, Raleigh, Oct. 10.—The largest tax reduction on land and property ever achieved in North Carolina in a single year was recorded for the fiscal year 1931-32 when property taxes showed a decrease over 1930-31 amounting to \$12,228,990, or a decrease of 20.4 per cent, according to figures compiled and just released by the State Tax Commission.

In 1930 the total property tax levy amounted to \$59,911,000, the Tax Commission figures show, while in 1931 the total decreased to \$47,682,000. This was the first year that the property taxpayers had the benefit of the school and road legislation enacted by the 1931 General Assembly and of the legislative and administrative economies in local government as the result of the local government law.

ATTORNEY WARNED IN SWEATBOX CASE

Told To "Lay Off" of Defense of This Will Be Your Last Case

Jacksonville, Fla., Oct. 10.—(AP)—Receipt of two threatening letters was announced today by Fuller Warren, attorney for Solomon Higginbotham, one of two former convict guards on trial charged with murdering Arthur Maillefert in a prison sweat box.

One letter, dated Pittsburgh October 7, said: "Lay off the Higginbotham-Courson case, otherwise this will be your last case. We know your record. You got one good beating from us."

The letter was signed but the signature had been scratched out, and was illegible. Warren said he recalled one beating and that was while he was a steward in 1921 on the steamship Coman, during a seaman's strike. He said, "four men beat me up then."

19 Miners Drown As Cage Falls

Lough Lanchire, England, Oct. 10.—(AP)—Nineteen mine workers were drowned at the Plank colliery near here today when an elevator carrying a number of workers fell to the bottom of the mine shaft.

The whole group fell into a sump hole at the bottom which was full of water. The crash occurred as the early morning shift was about to relieve the night workers. The elevator had just started down the shaft when something went wrong with the machinery and the cage dropped.

A rescue crew ascending their position, went down through another shaft and extracted the imprisoned bodies. They applied artificial respiration without success and the bodies of the men were placed anxiously above at the shaft's mouth.

Kansas Political Interest Concentrated On Campaign Of Goat Gland Specialist

(Charles P. Stewart, touring the middle west, sizes up the political outlook in Kansas.) By CHARLES P. STEWART Kansas City, Mo., Oct. 10.—Dr. John R. Brinkley, the celebrated goat gland specialist, is practically drowning out all other Kansas politics with his independent campaign for the governorship. Presidential news is subordinated almost to the vanishing point in the Sunflower state press, in favor of accounts of the three-cornered contest between Dr. Brinkley, Alfred M. Landon, the Republican nominee, and Gov. Harry H. Woodring, who is seeking re-election on the Democratic ticket.
