Paris, May 8.-(AP)-The French cabines today unanimously took a flat stand against the payment to the United States of the defaulted interest due last December 15 without a guarantee of a moratorium on the June 15 debt payment

This decision was taken in a threehour session, which canvassed unofficially the suggestion for a lump sum settlement of the war debt to America and other problems.

The official communique issued afterward made no mention of the debt question, but it was learned from a reliable source that there was no divergence of views on this subject. The cabinet came to this conclusion after a thorough examination of the report presented to Premier Daladier by Edouard Herriot, who recently returned from Washington, with Herriot's observations.
