### SILVER ARGUMENT DELAYS PROGRESS ON WHEAT LIMITS

Big Four Wheat Producing Nations Reach Agreement With Danubian Countries

EXPORTS WOULD BE SHARPLY CUT DOWN

Preparing To Resume Negotiations With Soviet Russia for Like Project; India and Spain Object to Limitations on Their Sales of Silver

London, July 18.—(AP)—Progress in negotiations for limiting wheat exports was counter-balanced today by a fresh setback in conversations regarding the use of silver, as the world economic conference tottered toward its close.

The "big four" wheat producing nations—the United States, Argentina, Australia and Canada—were said by the chief American wheat delegates to have reached an agreement with four Danubian countries whereby exports from the latter countries will be held to 54,000,000 bushels this year, and 50,000,000 bushels next year.

Subsequently the "big four" representatives prepared to resume negotiations with Russia regarding a like project and to take up similar proposals with European importing nations with a view to inducing those countries to abandon some of their import restrictions on the cereal.

The silver committee, slated to convene after a recess of several days, was unable to assemble until tomorrow and it was reported that India objected to an export quota for silver, which the United States had suggested, and that Spain had raised sharp objections to a restrictive agreement on its monetary silver.

### Balbo in America: Closeups of Flying Columbus

Photos, taken since his arrival in America, reveal the human side of Maj. Gen. Italo Balbo, youthful commander of the Rome-to-Chicago armada. He wears the Fascist black shirt with his uniform, smokes incessantly when out of the air, is superstitious, likes jokes. Pictured with him is Brig. Gen. Pellegrini, second in command of the epochal mass flight over the Atlantic. Balbo was one of three associates of Mussolini in organizing the Fascist revolution and devised the castor-oil punishment for opponents. He wears a beard to appear older. (Central Press)

General Johnson Has Far-reaching Proposal Ready, But Secretary Roper Opposes Forceful Action; Roosevelt Prepared to Use Big Stick If Needed

Washington, July 18.—(AP)—President Roosevelt left with his "recovery council" to day the preparation of any general code for higher wages and shorter hours as he was confined to his room again by a slight indisposition.

Arrangement was made for a second session of the administration's advisory group, composed of members of the cabinet and chief administrators of the various major recovery laws. They are divided on the necessity for immediate forceful action by the Federal government to spur business and consumption.

Hugh S. Johnson, industrial administrator, apparently had ready a far-reaching proposal to bring about increases in wages and the shorter hours in labor immediately, pending establishment of many of the new industrial codes to govern compensa-

### Wets Seek Half Of Goal From Today's Election

Prohibition Balloting In Alabama and Arkansas Admitted Crucial by Both Sides; Drys Hope To Stem Surging Tide and Delay Decision Until 1934

(By the Associated Press.)

Repeal forces, racing to reach their goal before Christmas, strove to round the half way post in the South today, while prohibitionists fought to send them sprawling.

Arkansas and Alabama, threw open voting booths today to decide their stand on the proposal to block the eighteenth amendment from the Constitution.

Tonight the foes of national prohibition will know whether they have garnered half the states necessary for repeal. Sixteen states have voted to ratify repeal up to today. Thirty-six are necessary to change the Constitution.

Before the week is over, 20 states, containing 49 per cent of the population of the United States, will have recorded their will on the problem. Tennessee votes Thursday and Oregon Friday.

Arkansas and Alabama were the first strictly southern states to ballot on prohibition and both sides felt the result was fraught with much significance for their cause.

Prohibition forces expressed confidence that if some of the southern states held fast to prohibition, they could put the final test over until next year, and thus better their chances of preserving he eighteenth amendment.

Sergeant Lynn took him into custody on suspicion because of his alleged resemblance to the likeness of the man wanted in a circular distributed among Virginia police.

Dempsey was not placed in jail, but was being held in police headquarters.

### Wage Base State Pays Is Studied

Some May Get Salary Lift by Reason of Higher Classifications Given

Daily Dispatch Bureau, in the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, July 18.—State employees who have been scraping along on drastically reduced wages for many months and whose salaries were reduced 38 per cent below the 1930 level beginning July 1, according to the law as passed by the 1933 General Assembly, are somewhat cheered at the announcement just made by Assistant Budget Director Frank Dunlap that all present salary schedules are being studied with a view to working out new ones. For the only hope any of these employes have of getting any increase in their much cut salaries is to be reclassified into a higher position with a resulting higher salary scale.

Assistant Budget Director Dunlap, who is also director of personnel since the 1933 assembly combined the two jobs, is now holding a series of conferences with department and division heads, going over present salary schedules and making an individual study of each employe. There is no

Washington, July 18.—(AP)—William Green, president of the American Federation of Labor, said today he planned to investigate any discharge of employes under the shorter work week in industry.

"I will insist upon investigation of such cases coming to my attention," Green said.

Dressed in overalls, Dempsey was taken into custody in the railroad yards by Sergeant Lynn. He said he came to Staunton from Hagerstown, Md., and that he was on his way home to seek work.
