## JOHNSON ATTEMPTS TO FORCE HIGHER WAGES

### POST IS OFF FROM ALASKA FOR THE U. S.

Resumes Aerial Jaunt Around the World In Early Morning From Emergency Landing  
PREPARES FOR HOP TO CANADIAN CITY  
Will Re-Fuel at Fairbanks, Alaska, for Long Jump To Edmonton, Alberta; Broken Propeller Replaced and Post Takes Off, With the Weather Good

Flat, Alaska, July 21.—(AP)—Wiley Post, Oklahoma flier, resumed his aerial jaunt around the world today at 7:28 a. m., Fairbanks time (12:28 p. m., eastern standard time).  
Joe Crosson, Alaskan pilot, who brought a new propeller for Post's plane from Fairbanks, circled over the field here at 7:25 a. m., and three minutes later Post joined him in the air. Both planes headed east for Fairbanks, where Post will refuel for his flight to Edmonton, Alberta. The weather was good.

### STOCKS CRASH IN WILDEST TRADING

Trading Demoralized In Most Chaotic Session Since 1929 Collapse  
New York, July 21.—(AP)—Stocks crashed down today in the wildest market since 1929. Extreme losses generally ranged from \$3 to more than \$12 a share for shares of the country's largest corporations.  
Trading in many issues was demoralized, due to the absence of supporting orders. Pools liquidated stocks in enormous volume, and there was tremendous selling from speculative margin accounts that had collapsed.  
Reports that the New York Stock Exchange planned to close were denied by the exchange, which also said that dealings had not been suspended in any issue, despite the chaotic conditions of the market. The tape at one time fell half an hour behind floor transactions.  
By 2:55 o'clock the market had rallied from the lows. The rebound for some leaders was substantial, American Telephone snapping back to \$119 from \$114, reducing its loss by half. United States Steel common, which had collapsed under \$50 for a loss of about \$8, veered back to above \$52, while New York Central, after losing \$11, cut its decline by \$5.

### Think N. C. Now Headed For Repeal

Political Opinion In Raleigh Sees Certain Approval Of Amendment Here  
Daily Dispatch Bureau In the Walter Hotel, BY J. C. BASKERVILLE  
Raleigh, July 21.—Nothing short of a miracle can keep North Carolina from voting for repeal of the eighteenth amendment on November 7, especially since both Alabama and Arkansas have voted for repeal by heavy majorities and with Tennessee following, according to most of the opinion in political circles of both parties here. Even some of the most ardent dries, personal as well as political, are already conceding that there is not much chance to defeat the apparently growing wave of sentiment in favor of repeal in the State. Since the campaign this fall is to be a non-partisan campaign, leaders in both parties are declining to make any statements concerning repeal for fear of alienation. But with the exception of the more ardent dries, most of them believe that this State will vote for a

### Libby Will Avoid Stage Two Years

Winston-Salem, July 21.—(AP)—The moaning tones of Libby Holman Reynolds, widow of Smith Reynolds, and former Broadway blues singer, will not be heard from the stage again until her infant son is at least two years old, according to an announcement by Benet Polikoff, her attorney.  
Polikoff, returning here after a visit to the young widow, said she was determined to devote her full time to the baby until he is past the dangerous first two years.  
He said he found Libby's health much improved and the baby "doing fine."

W. T. Clark, of Wilson, was appointed by A. B. Carrington, of Danville, Va., chairman of the association, to inform the United States Department of Agriculture that opening dates fixed several weeks ago would remain unchanged.  
Carrington presided over the sales committee meeting, which was attended by a large delegation of South Carolina warehousemen, farmers and others from the tobacco area of that State.

### Cotton Spinning Mills Hit New High Mark For Activity During June

Run at 129 Percent of Capacity on Single Shift Basis For the Month Just Ended  
MORE THAN TWICE THAT IN JUNE, 1932  
Nearly 40 Million Spindles Operated at Average of Nine Hours Per Day; Cotton States at Highest Peak; North Carolina Sets New High Record

Washington, July 21 (AP)—United States cotton spinning operations reached a new high record of activity during June.  
They operated at 129.1 percent of their capacity on a single shift basis. This was a sharp advance over activity in May, which was at 112.3 percent of capacity.  
June's activity was more than twice that of the same 30-day period in 1932, according to the monthly report of the Census Bureau today.  
Based on an average of 8.96 hours per day, the average number of spindles, operated during June was 39,917,475. Many of the mills ran at capacity around the clock, with 25,840,504 spindles active during the month. These set up a new record by operating an aggregation of 9,429,026 spindle hours, during the month, or 301 hours average for each spindle in place.  
Cotton growing states showed the most activity.  
Both North and South Carolina set up new records by each operating well over two billion spindle hours during the month. South Carolina led all states.

The party returned in three special Pullman cars and immediately were whisked to their hotel to freshen up in preparation for their parade and reception at City Hall later in the morning.

### HAS ROOSEVELT SWITCHED?

Babson Tells Inside Story of London Conference  
BY ROGER W. BABSON, Copyright 1933, Publishers Financial Bureau.  
Babson Park, Mass., July 22.—Many rumors have come to this country concerning the London Conference. The general impression is that the Conference has been a failure. Such, however, is not the case. Tales have been sent over here regarding conflicts between different members of the American delegation. Some of these grief stories are due to American delegates "getting in Dutch" with certain newspaper correspondents. Other propaganda has been definitely put out by the

French Publicity Bureau, which is operating in this country as well as in other countries. Hence, I believe readers are entitled to the real facts based on information from the highest authorities.  
**Internationalism Vs. Nationalism.**  
President Roosevelt is essentially an internationalist. He believes in world peace and all nations working together for the common good of the world. When I first became well acquainted with President Roosevelt he was campaigning for the League of Nations as Vice-Presidential candidate.

Harriman, head of the defunct Harriman National bank, is under close watch at Bellevue hospital. The banker is facing trial on charges of misappropriation of funds. ### TENNESSEE VOTES DRY LAW REPEAL

Becomes 19th State To Favor Return of Liquor; Margin Is Small

(By the Associated Press.)  
Tennessee became today the 19th state to approve repeal of the eighteenth amendment as Oregon preceded to ballot on the problem.  
The margin of victory for anti-prohibitionists in Tennessee was smaller than in any of the other states which have held popular elections on the proposed constitutional change.  
Repealists, however, continued to hold their advantage of approximately 10,000 as additional precincts reported today.  
In Oregon today leaders of the repeal movement predicted two to one victory. Dry leaders seemed agreed that they had no more than a "fighting chance."

### Employers Who Have Signed Are To Display Posters Showing They Are Cooperating

TO ASK CONSUMERS TO SUPPORT THEM

Volunteer Unpaid Boards of Seven Will Be Named In Each of 24 Department of Commerce Districts To Supervise Movement In All Sections

Washington, July 21.—(AP)—Here's the plan which Hugh S. Johnson and his aides have mapped out to put the big re-employment campaign across. On July 21 mail carriers will begin distributing to every establishment employing more than two people blank agreement forms by which signers pledge wage limitations of working hours and boosted wage minimums.  
Each signer makes his agreement to the nearest district office of the Department of Commerce in a return envelope provided.  
On and after August 1 each employer who has signed may present a certificate of compliance furnished him by his postmaster, receiving posters and badges bearing the words: "Member in N. R. A. We do our part."  
(N. R. A. means national Recovery Administration.)  
This may be displayed on goods.  
Re-employment agreements will be filed in Washington, and also posted in the local post office.  
After August 1 consumers who wish to help may go to authorized establishments (to be designated later) and sign this statement:  
"I will cooperate in re-employment by supporting and patronizing employers and workers who are members of N. R. A." They will be given the N. A. R. membership button.  
Volunteer unpaid boards of seven will be named in each of the 24 Department of Commerce districts to supervise and advise on progress of the re-employment movement.  
State recovery boards of nine members will be created in each State to give further supervision and cooperate with the governors. A council will accompany each board, its membership drawn from heads of State, labor, trade, civic, welfare associations and so forth. There will be no compulsion except that of "conscience and opinion."  
A thorough program of public explanation and agreement and its aims will be carried on by addresses and otherwise with civic, patriotic, religious and fraternal organizations cooperating.

### Says Wets Used Fraud Tennessee

Dry Leader Claims Repeal Margin May Vanish When Final Vote Is In

Nashville, Tenn., July 21.—(AP)—Charging that the "grossest possible frauds" were perpetrated in Memphis and Nashville in yesterday's referendum on the eighteenth amendment, John F. Baggett, chairman of the dry campaign, said in a statement today that the vote is being "very carefully studied" with a view to contesting the election.  
Mr. Baggett said that "all right-thinking people, regardless of whether they were for or against repeal, know we deserve and have won," and added: "We have the city machines of Nashville and Memphis to thank for the very narrow margin which the wets are claiming."  
Pointing to the fact that a number of precincts are unreported he said it was possible the repealist margin will be overcome when complete reports are in.
