

## ROOSEVELT SAYS WORK PROGRAM SUCCESS

### Gen. Balbo Armada At Land's End

Planes Alight In Waters Of Shoal Harbor, Newfound-land, Coming From Shedinac

### ONE PLANE DOWNED IN VICTORIA WATERS

Crew Refuses Aid, How- ever, and Makes Repairs; Unfavorable Weather Part of Distance Fails To Halt Flight on Third Lap of Home Trip

Shoal Harbor, Newfoundland, July 26.—(AP)—The Italian armada completed the third leg of its homeward flight today. By 11:48 a. m., eastern standard time, ten of General Italo Balbo's planes had alighted on Shoal Harbor and others of the squadron were circling overhead.

Victoria Harbor, P. E. I., July 26.—(AP)—One of the planes of the Italian air armada alighted here today for repairs. The other 23 continued on towards Shoal Harbor, Newfoundland, their destination, when they took off from Shedinac, N. B., this morning.

The 23 planes completed their passage over Prince Edward Island at 9 a. m., eastern standard time. When one of the ships came down in Victoria Harbor, the other circled about for a few minutes and then resumed their flight at a signal from below.

A motor boat went out from shore and towed the plane to the wharfside. The airman spoke no English and the fishermen in the motor boat were unable to learn what was wrong, but the Italians busied themselves about the motor as though they expected to make repairs and get back into the air.

Leaping across Prince Edward Island, the armada faced cloudy weather, but visibility was fair and clear weather was reported off the coast.

### WOMAN LOSES LIFE AS TRUCKS COLLIDE

Camden, S. C., July 26.—(AP)—Mrs. Nana Hemis, of Dallas, a widow, was instantly killed near here today when the truck she was riding crashed into a transportation truck parked on the side of the highway.

### Hatteras Steamship Destroyed

Hatteras, July 26.—(AP)—The auxiliary steamer Ethel, locally owned, burned to the water's edge here early today with a loss estimated at approximately \$7,000.

### Swain County Game Warden Fatally Shot By Own Son

Knoxville, Tenn., July 26.—(AP)—Jack Calhoun, 38, game warden at Fontana, N. C., died in a hospital today from a bullet wound through the abdomen.

### Laughs at Death

Carolyn Wells, prominent author, has just revealed that 20 years ago doctors told her she had only two years to live. She had a heart ailment pronounced incurable. Thinking the end was near, she began enjoying life to the utmost, has ever regretted being "doomed" to die.

### LEGISLATORS SAY STATE TO GO WET

### Visitors to Raleigh Nearly All Bring Much the Same Story

### EAST IS LIKELY WET

Orange, Bertie, Nash, Halifax and Pitt Put Down in Column Against Prohibition; Robeson Man Won't Comment

Raleigh, July 26.—(AP)—Legislators on former members of the General Assembly who are coming to Raleigh these days continue to predict that their home communities, in practically every case, appear ready to vote for repeal of the eighteenth amendment.

Lieutenant-Governor A. H. Graham, of Orange county, says: "My county, I believe, will give a wet majority, but there is a strong element of dry sentiment there."

Judge Francis D. Winston, lieutenant-governor in 1905, and veteran legislator, says his home county of Bertie "will vote for repeal if the preachers will let us," and Representative C. W. Spruill, of Bertie, says: "I think Bertie will be for repeal."

Representative Ernest Graham, of Robeson, refused to comment on the situation in his county, but Representatives Van Watson, of Nash, and F. M. Taylor, of Halifax, predict repeal majorities in their counties.

Senator A. B. Corey, of Pitt, believes Pitt "will be for repeal by a big majority," and added, "I'll be darned if I don't believe the State will go for repeal by a two to one vote."

### Rogers Hornsby Is Made Manager St. Louis Browns

St. Louis, Mo., July 26.—(AP)—Phil Ball owner of the St. Louis Browns, today announced signing of Rogers Hornsby as manager for the remainder of this season, 1934 and 1935. Hornsby succeeds Bill Killefer, who resigned recently.

### Swain County Game Warden Fatally Shot By Own Son

Knoxville, Tenn., July 26.—(AP)—Jack Calhoun, 38, game warden at Fontana, N. C., died in a hospital today from a bullet wound through the abdomen.

### PARITY OF PRICES IN DAIRY INDUSTRY BY WINTER UGED

Can Be Had by Christmas Without a Tax If Dairy Farmers Will Help Themselves

### U. S. ADMINISTRATOR MAKES STATEMENT

Tells Cooperative Institute at State College How It Can Be Done; Government Ready to Carry Out Its Program; Control of Supply Is Discussed

Raleigh, July 26.—(AP)—Dr. Clyde L. King, Federal dairy products administrator, predicted to the American Institute of Cooperation this afternoon that "we can get pre-war parity prices in the dairy industry by Christmas, without a tax" if dairy farmers will help themselves.

Dr. King called for further organization of the dairy industry, asserting it was essential that cooperatives be organized "not only to enforce milk agreements but to help the government to keep them, and this cannot be done unless organization can be perfected."

When dairy farmers agree to "run their own show," the government will be ready to carry out the provisions of the dairy program, he said.

Government assistance in farmers' organization plans for control of supply will provide the element of compulsion which cooperatives have failed to be needed," C. C. Teague, of Santa Paula, Cal., president of the California Fruit Growers Exchange, and former farm board member, told the institute.

### Relief Fund To Be Based On Local Aid

Cities and Counties Must Do Their Part If They Get Federal Money

Daily Dispatch Bureau, In the Sir Walter Hotel, N. Y. C. BASKERVILLE.

Raleigh, July 26.—State and local emergency relief organizations must not only cooperate with all agencies that can put people to work, but must also provide sufficient State and local resources, by taxation if necessary, which, when added to Federal relief grants, will provide "reasonably adequate" relief for those in need, according to a letter just sent to the governor and relief administrators of the various states by Harry L. Hopkins, Federal emergency relief administrator. This letter was made public today by Ronald B. Wilson, acting director of relief for North Carolina. He is also sending copies of this letter to all local relief directors and to all boards of city and county commissioners.

This letter from Administrator Hopkins makes it plain that no city or county can expect to continue to get Federal relief funds unless they make substantial contributions to relief activities from city or county funds, Wilson said. During the past three months, the Federal government has been supplying more than 85 per cent

Times To Apply Code. Raleigh, July 26.—(AP)—The Raleigh Times today telegraphed President Roosevelt that it is ready to apply the blanket industrial code to its entire plant.

### ROCK HILL MAN IS HOME OWNER HEAD

Washington, July 26.—(AP)—A. E. Hutchison, of Rock Hill, S. C., has been appointed ex-officio general manager of the Home Owners' Loan Corporation, and will combine the duties with those of secretary of the Federal Home Loan Bank Board.

### WEATHER

FOR NORTH CAROLINA. Occasional showers tonight and Thursday.

### Mollison Plane Too Damaged to Fly Again

Photo taken from the air the day after crash-up of Mr. and Mrs. James Mollison shows the terrain into which they crashed near Bridgeport, Conn., almost within sight of their New York goal, after flying across the Atlantic. As picture indicates, they almost landed in a creek. Plane is too much of a wreck to fly again. (Central Press)

### Stretch-Out Witnesses Not Fired

### South Carolina Textile Man Denies Reports After Hearings Held There

Bennettsville, S. C., July 26.—(AP)—W. P. Jacobs, of Clinton, secretary of the South Carolina Cotton Manufacturers Association, said here today he had made a personal investigation of each mill employee who testified at stretch-out hearings in this State, and that "not a single one has been discharged."

Jacobs, here on business, said after he read press dispatches yesterday saying some of the "stretch-out" witnesses had been discharged because of their testimony, he contacted each employer operative who were heard in Greenville and Spartanburg.

"The dispatches," Jacobs said, were "absolutely incorrect. I talked with each executive whose employees testified and not a single one of the employees has been dismissed. I checked every single witness."

### Excessive Price On Land May Kill Forestry Chances

Daily Dispatch Bureau, In the Sir Walter Hotel, N. Y. C. BASKERVILLE.

Raleigh, July 26.—Refusal of landowners to cooperate by placing prohibitive values on their holdings and inability to locate suitable tracts of sufficient area, threaten to block efforts to establish a national forest in Eastern North Carolina, State Forester J. S. Holmes said yesterday.

Mr. Holmes said a repetition of the same factors which resulted in a similar defeat of efforts of the Department of Conservation and Development and others to obtain establishment of a national forest in the eastern part of the State several years ago.

Requirements of the National Forest Reservation Commission, which has charge of the acquisition of National Forest lands, the State forester continued, include a block of reasonably continuous land aggregating in the vicinity of 100,000 acres or more; a price in keeping with the productive capacity of the area; and land without an excessive proportion of swamp or poison.

If such conditions are not met, the State forester feels sure that the federal commission will not consider setting up a National Forest in the eastern part of North Carolina. Recently the Conservation Department, through Director J. W. Harrison, has urged consideration of the coastal plains in the new program of National Forest acquisition.

Word from Washington reveals that a fund of approximately \$20,000,000 has been made available by the federal government for the purchase of National Forest lands in Eastern United States. State officials believe that the greater part of this money will be used for the acquisition of lands in purchase areas already established. They are of the opinion that the approximately half million acres of these holdings in Western North Carolina will be materially augmented and are eager that the coastal plains also shall share in the advantages of such reservations.

### N. C. Is Allotted Another \$713,003

Washington, July 26.—(AP)—Harry L. Hopkins, Federal emergency relief director, announced today that North Carolina has been granted a loan of \$713,003.

The loan was made on the basis of expenditures of public money during the second quarter of the year.

North Carolina previously had received a total of \$1,273,377.

### Hauling Of Children Is Large Item

Many Restrictions Ordered In Operation of School Buses This Year

Daily Dispatch Bureau, In the Sir Walter Hotel, N. Y. C. BASKERVILLE.

Raleigh, July 26.—The transportation of some 240,000 school children to and from school every day in some 5,000 school buses is not only one of the biggest and most hazardous jobs in connection with the operation of the public schools, but one of the most expensive, the State School Commission has found as a result of its study of the transportation problem. The commission started work on this phase of school operation until the new transportation routes in the various counties have been worked out and approved.

Last year the cost of transporting approximately 240,000 school children to and from school every day was about \$2,100,000, according to figures obtained from the office of the State School Commission. Because of the reduction in the appropriation for schools this year and the fact that all the school buses must now be operated for eight months instead of six, the cost of transportation must be sharply reduced. It is expected that the new school law, putting the operation of the school buses directly under the control of the school commission, instead of under the county superintendents as in the past, will result in some saving. Additional savings are expected from the sections of the law making it unlawful for school buses to transport any children that live within two miles or less of the school they attend, or for buses to leave main roads more than 1-2 miles to pick up children. The commission has already passed a ruling

### Negro Taxi Man Robbed and Tied To Tree an Hour

Fayetteville, July 26.—(AP)—Archie Clark, Negro taxi driver, was found tied to a tree in a wood near here early today and told police he was robbed of \$1.40 and his car by two strange Negroes who trusted him to the tree.

### GASTON TRIO ALL DENY THEIR GUILT

### Whitworth and Two Falls Claim Innocence of Mrs. Whitworth's Death

Gastonia, July 26.—(AP)—A. F. Whitworth, on trial for murder in connection with the death of his wife, made a blanket denial of the State's charges from the witness stand today. When he completed his testimony the defense in the case, involving Whitworth and two others, rested.

Philip C. Falls, a former Gaston county deputy sheriff, and his 20-year-old son, Port Falls, the other defendants in the case, denied the State's charges when they testified yesterday. With only one or two State rebuttal witnesses to be heard, indications were that the case would go to the jury late this afternoon.

Mrs. Whitworth, 40-year-old dress maker, and estranged wife of Whitworth, died May 27 from a fractured skull. Whitworth and the elder Falls maintained the woman leaped from an automobile after having threatened to commit suicide and struck her head on the pavement.

The State contends she was either killed by a blow on the head or thrown from an automobile.

### PHONE RATE CUTS DUE DURING WEEK

### Reduction in Service Charges Planned by Corporation Commission

In the Sir Walter Hotel, Daily Dispatch Bureau, N. Y. C. BASKERVILLE.

Raleigh, July 26.—The State Corporation Commission is expected to issue an order this week instructing the various telephone companies in the State to put lower charges into effect for the use of so-called French style hand telephone sets, for installation and moving of telephones, and other similar incidental charges. Commissioner Stanley Winborne said today. The commission does not expect to be able to issue any order with regard to the regular monthly rental charges made by the various companies for some time yet, however, Winborne said.

Most of the telephone companies are now charging 50 cents a month extra for telephones equipped with the new French style hand sets, about \$3 for installation and \$3 moving a telephone from one location to another. The Corporation Commission hopes to get the various companies to agree to a material reduction in these charges immediately, and to issue an

(Continued on Page Five.)

### NEAR 6 MILLIONS BACK TO WORK BY LABOR DAY LIKELY

Pledges of Support to President Continue To Arrive As He Holds Press Meeting

### ROOSEVELT CERTAIN NEW DEAL CLICKING

Recovery Program To Be Applied In Nearly All Industries Immediately, the President Declares; Chiefs In Charge Join Him In Optimistic Views

Washington, July 26.—(AP)—President Roosevelt today declared the industrial recovery program for shorter working hours and higher wages to be a success.

Meeting with reporters at the White House while pledges of support continued to arrive, he based his judgment on 12,000 replies already received from recovery section to his appeal to put a new charter for American industry into immediate effect.

Meanwhile, at the hard working Industrial Recovery Administration hearings progressed on individual wage and working time codes for the oil, lumber and men's clothing industries.

Mr. Roosevelt was described as convinced that the "new deal" of a shorter working week and higher wages will go into effect almost immediately in the vast majority of industries.

While he has not had opportunity to read all the telegrams, he rejoiced over the public response.

The recovery chiefs who have made a hurried survey of the replies of employers joined the President in declaring the campaign a success.

Hugh S. Johnson, the administrator, predicted the re-employment of between 5,000,000 and 6,000,000 before Labor Day.

### HIGHWAY HEARINGS ALMOST COMPLETE

Roads and Streets Asked Far In Excess of Government's Money

Raleigh, July 26.—(AP)—The State Highway and Public Works Commission hopes to complete its hearings of delegations asking street and highway improvements this afternoon.

The commission has heard hundreds of citizens since Monday and requests would cost far in excess of the \$11,000,000 which will be available, Chairman E. B. Jeffress said. No tabulation of the requests has as yet been made.

### New Scale Teachers' Pay Soon

Raleigh, July 26.—(AP)—The State Board of Education met this afternoon to lay plans for a conference with a committee of the State School Commission with a view to setting new teacher salary schedules for the 1933 school year.

The school commission spent the entire morning discussing transportation of school children and allotment of school funds to the counties, but reached no definite decision, LeRoy Martin, secretary, said.

### Pledges Made Roosevelt Given Most Cordial Reply

Washington, July 26.—(AP)—Each person who telegraphs a pledge of cooperation to President Roosevelt in his economic uplift movement has been sent a reply from Hugh S. Johnson, the national recovery administrator, saying: "I felt sure that the administration could rely upon the people of America to render the loyal cooperation needed in this great emergency. Therefore, your telegram is most gratifying."

"I hasten to thank you, your organization and other civic groups for your prompt response."

"I will see that complete plans are sent to you as soon as possible and will watch with great interest the report of the progress you make."
