#### PLEDGES DISCIPLINE FOR THE VIOLATORS

Those Found Not Complying With Promise To Raise Wages and Shorten Hours Will Be Called To Mat In No Uncertain Terms, Administrator Says

Washington, August 11 (AP)—A first prediction that a case of revocation of the blue eagle emblem of compliance with the National Recovery Administration will be made today by Hugh S. Johnson, the NRA administrator.

At his press conference, Johnson promised that violators of modified re-employment agreements would be disciplined if it were found that they were not complying with their pledge to raise wages and increase employment by shortening working hours.

He added, however, that he intended to let the situation rest for a brief period in the hands of local committees.

"But the time is coming," Johnson said. "When somebody is going to take one of these blue eagles off somebody's window in a clearcut case. And that is going to be a sentence of economic death," the administrator added sternly, leveling his finger at the newspaper men gathered before him.

Questions concerning the status of interstate utilities and similar busi-ness, Johnson said, that while they

Washington, Aug. 11.—(AP)—A code for barbers was forwarded to Washington today by officers of the Journeymen Barbers International Union of America.

If the code is approved, the minimum cost of a hair cut will be 35 cents and for a shave 25 cents.

#### Newspaper Codes Not Acceptable

But Johnson Declines To Indicate Sections That He Finds Objectionable

Washington, Aug. 11.—(AP)—Hugh S. Johnson, the industrial administrator today said there were "proposals which are unsatisfactory" in the proposed code of hours and wages submitted by the American Newspaper Publishers Association.

Johnson declined at a press conference to intimate what sections he considered objectionable but said the publishers' representatives were due at his office sometime today to talk over the program.

Informed of the acceptance by a number of newspapers of the program of the A. N. P. A. program Johnson said:

"There cannot be a code until it is approved after a hearing." It has been intimated in sources that Johnson feels there are many reservations in the news-paper code and that he objects to its being so hastily passed by the publishers and copy editors.

#### WOMAN'S BODY IS FOUND UPON ROAD

Officers Investigating Death In Western Part of Scotland County

Laurinburg, Aug. 11.—(AP)—The body of Mrs. John H. Woodard, 32-year-old wife of a west Scotland county farmer, was found lying in the center of Highway No. 20, nine miles west of her early today.

W. J. McCarter, a policeman of Rock Hill, S. C., was passing the spot in an automobile and discovered the body. Police immediately began working on a murder theory when a coroner's jury held that the woman came to her death from being thrown from an automobile.

Police found two wounds on Mrs. Woodard's scalp. In addition, there was a bruise on one of her arms.

They said the wounds indicated a fall rather than that the woman was run down by an automobile.

Woodard, questioned by Coroner W. J. McDougall, said he could throw no light on the killing. He said his wife frequently left home at night. R. E. Little, a traveling salesman of Wadesboro, and Tony Francis, Charleston, S. C., truck driver, were the principal witnesses at the inquest, in addition to McCarter, who discovered the body.

Number of Elective State Officials Not Accepting Full Cuts Asked

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, Aug. 11.—Commissioner of Labor A. L. Fletcher is the only elected State officials who voluntarily cut his salary 25 per cent in addition to the 15 per cent cut made in it by the 1933 General Assembly, it was learned from the records in the office of State Auditor here today. For while two other State officials—Governor J. C. B. Ehringhaus and State Treasurer Charles M. Johnson—reduced their own salaries a total of 25 per cent during the months of April, May and June when all State employes were required to take an additional 25 per cent salary cut in addition to previous reductions, Commissioner Fletcher turned back 25 per cent of his salary in addition to the 15 per cent that had previously been lopped off by the general assembly.

The salary of the commissioner of labor has been \$4,500 a year, along with that of insurance commissioner, commissioner of agriculture, secretary of state, State auditor, State treasurer and one member of the Corporation Commission. But the 1933 But the 1933 General Assembly de-

Waynick Surprised at Number of Requests for Help Being Received

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, Aug. 11.—Director of Re-employment Capus M. Waynick is frankly surprised at the number of requests already being received by the "employment" office for labor of various types, despite the fact that only a few of these offices are now open.

"I am both pleased and surprised at the manner in which private employers in all lines of business are already calling on us to supply them with the help they need," Waynick said today. "We frankly had not anticipated that the smaller employers would start using our service so soon or as extensively as they seem to be."

"Since yesterday we have been called up to supply employers with five carpenters, one dry cleaner, twelve young men to do canvassing and to find a colored man and his wife the man to be experienced in dairying, for employment on a dairy farm. All of these requests were filled at once." Additional requests for trained help of various sorts are being received either by mail or telephone almost constantly, and those in charge of the various offices are being asked by Director Waynick to speed up their registration and classification of appli-

Proposal Submitted U. S. Ambassador Welles for Restoration of Peace In Island

#### ROOSEVELT SEEKS NEW ORDER THERE

Sugar Quota, Complete Reversal of Nation's Debt, Reciprocal Tariffs and New Deal in General Demanded by American President; Bomb Is Exploded

Havana, Cuba, Aug. 11.—(AP)—Members of the executive committee of President Gerardo Machado's own Liberal party said today that the government had submitted to United States Ambassador Sumner Welles a counter proposal by which the President would surrender his office to General Alberto Herrera, the present secretary of war.

The Popular and Conservative parties already have demanded that the President step down and now his own political organization has come forward with a plan accomplishing the same object.

The action of the Liberals, in part, reversed their decision yesterday when they held that Ambassador Welles was guilty of "intermeddling" and that his mediation activities were prejudicial to the sovereignty of Cuba.

Ramon de Leon and a number of members of the Liberal executive committee gave confirmation that the counter proposal had been submitted.

## Says NRA Code Violated In Stores And Factories

Labor Federation Head Says Irregularities Being Reported to Washington Fast as Received; Will Be Discussed at Charlotte Convention Next Week

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, Aug. 11.—The various working codes providing for shorter hours, and higher wages are being widely violated in all sections of the State, not only by manufacturers but by retail merchants, restaurant operators and others, according to hundreds of reports he has received, President R. Lawrence, of the State Federation of Labor, said here today. These many violations by manufacturers and employers may cause considerable fire-works at the annual convention of the

State Federation of Labor to be held in Charlotte Monday and Tuesday of next week, Lawrence intimated. He believes, however, that the National Recovery Administration in Washington is not going to tolerate some of the abuses now going on much longer, and that stern measures are going to be taken with those that refuse to conform to the spirit of the various codes, as well as the letter.

"The new regulations are being widely violated by restaurant operators, as one example," Lawrence said.

#### Bootlegger Shot Dead In His Car

Durham Deputy Battles Liquor Runner in Latter's Car and Then Shoots

Durham, Aug. 11.—(AP)—Deputy Sheriff L. L. Morgan shot Briar Rush a liquor runner to death today as they fought in Rush's automobile while the machine roared along a Durham county highway at 55 miles an hour.

When Rush was shot, the automobile left the road and crashed into a telephone pole. Morgan was thrown four or five yards into a field and suffered slight head and body injuries.

The struggle began when Morgan boarded Rush's automobile in an attempt to arrest him. Armed with search warrants he and Deputies Otis Small and Norman Shaw had been searching for the automobiles of Rush and Herman Adkins.

Some distance south of the city they came upon the automobiles parked beside the highway and found three cases of liquor in one and two cases in the other. Rush and Adkins were located participating in a dice game in a nearby woods and the officers called upon them to surrender.

Adkins fled further into the woods and Rush ran to his car and started away. Morgan jumped to the running board, and as Rush whipped the car about at high speed in an effort to shake the officer off, he struggled with him. Finally he pulled his pistol and fired. The bullet penetrated Rush's heart. A. S. Campbell, county coroner, said he was uncertain whether an inquest would be held.
