

CUBAN PRESIDENT OUSTED

Won't Force Price Agreement In Tobacco Industry

President of Cuba

Carlos De Cespedes

Following the overthrow of President Gerardo Machado as head of the Cuban government, Carlos Manuel de Cespedes, son of the famous patriot, was named provisional president of the republic today as a move toward restoring peace. De Cespedes is not active in any political party.

OFFICIAL FIGURES IN MARKETS GIVEN

South Carolina Prices Range From \$11.10 to \$12.94 In Reports

RENEW SALES MONDAY Farmers Throughout Area Prepare for Offerings Next Week; Views Conflict As To Volume In Coming Week

Florence, S. C., Aug. 12.—(AP)—The usual Saturday holiday was observed in the South Carolina and border bright leaf tobacco belt today, but throughout the area farmers made preparations for bringing their crop to market next week.

There was nearly every indication that farmers were satisfied with prices paid for the common and medium grades Thursday and Friday, the first sales days of the season, but better types commanded but little more than they did last year.

Sales for the first week were light. Views of warehousemen conflicted on next week's prospects, some expecting a big increase in offering while others do not.

Official figures for three of South Carolina's largest markets for the first week were:

Mullins, 750,000 pounds at an average of \$12.94 per 100 pounds; Lake City, 407,332, at \$11.10; Timmonsville, 314,256 pounds at \$11.62.

PRODUCERS FACING WHATEVER PRICES MARKETS MAY PAY

'Inside' Information Is Manufacturers Not Going To Be Subjected To Scale of Pay

ALLOTMENTS PLAN TO BE ENCOURAGED

If Farmers Are Interested in Production Control In Future, Government Is Ready To Lend Its Assistance; Foreign Market Is Controlling Prices

Washington, Aug. 12.—(AP)—Producers of flue-cured tobacco may have to be satisfied with whatever price the market offers on the current crop.

It is "inside" information at the tobacco section of the Department of Agriculture that manufacturers are not going to be subjected to any marketing agreements calling for higher prices to the grower this year.

If, however, farmers want to control production in the future, the Agricultural Adjustment Administration stands ready to assist in a domestic allotment plan such as is offered wheat producers.

The crop of flue-cured is 63 percent larger than last year and with 40 to 50 percent of the total yield going into export channels, officials say the foreign market is controlling prices regardless of machinery Congress set up to elevate domestic values of farm crops.

Almost daily price complaints have reached the department since Georgia flue-cured markets opened on August 1 for a 20-day run.

Three Night Club Operators Killed At Kansas City

Kansas City, Aug. 12.—(AP)—Three night club operators were slain in a mid-town apartment district here today. Two fell under the gunfire of Sheriff Thomas M. Bash, who happened along as they were putting the third man "on the spot."

Ferres J. Anthon, operator and Armour Boulevard cafe, was the victim of the gang leaders. Police identified the men slain by the sheriff as Sam Scola and Gus Fasone, alias Sam Stine. Another man, Gus Gargotta, was taken into custody. Still another escaped. Sheriff Bash said Gargotta rushed at him from the killers' car, with his revolver blazing, then dropped his gun, empty and surrendered. Gargotta denied he was in the gang car.

Borrowings Victory Of Ehringhaus

May Mean Step Toward Financial Independence From New York's Banks

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, August 12.—The agreement of North Carolina bankers to lend money to the state at 4 1/2 per cent and to renew \$4,154,300 worth of notes at this interest rate, thus having the State \$30,000 a year on this amount alone, is being heralded here as a personal victory for Governor Ehringhaus. There are some who do not believe it is a good thing for either the State or the banks to have so much money tied up in State notes and thus keep it from being used for commercial and industrial loans. They think it would be better for the State to pay a little more interest in New York and let the North Carolina banks have this \$4,154,300 to lend to business men, manufacturers and farmers.

But Governor Ehringhaus and his advisers do not take this view and it is known that the governor believes

WHERE BLOOD RUNS AS CUBA SEEKS TO OUST MACHADO

Seriousness of the Cuban situation has been enhanced by the arrival of additional troops to attempt to restore order in Havana by bayonet rule, following the

bloody massacre in which at least 40 were killed and hundreds wounded. The killings occurred when citizens rushed into the streets shouting, believing that

President Gerardo Machado had resigned. Layout shows: (1) fortress in Havana; (2) Machado; (3) map of Cuba; (4) presidential palace; (5) capitol.

State's Fiscal Outlook Becomes Much Brighter

Asheville Woman Freed from Jail

Asheville, Aug. 12.—(AP)—Mrs. Louise Kibler Glenn, held in jail here on charges of murdering her business-man husband, was ordered released in a habeas corpus hearing here today by Judge P. A. McElroy, who held that evidence presented by the State was insufficient to hold her.

Mrs. Glenn was brought into court on a writ signed by Judge McElroy. The writ instructed Sheriff Lawrence E. Brown to present her along with evidence detailing why she was being held. This evidence the judge ruled was insufficient.

MEDICINAL LIQUOR OUTPUT INCREASED

Relaxing of Prescription Rules Steps Up Consumption for Year

Washington, Aug. 12.—(AP)—The Bureau of Industrial Alcohol today set the production of medicinal liquors at 7,000,000 gallons for the calendar year 1934.

Officials at the bureau said that the allocation the largest since the eighteenth amendment became effective, was made necessary due to the depletion of medicinal liquor stocks, due to the relaxation of restrictions on prescription distillates.

Consumption of medicinal liquor, they say, had increased since the enactment by the last Congress of the Celler act.

This year's allocation compares with an annual production of 2,000,000 gallons in all previous years since 1923.

WEATHER FOR NORTH CAROLINA.

Slightly warmer in extreme west portion tonight; Sunday partly cloudy, followed by local thunder showers in west and north portions in afternoon or at night.

Held For Murder In Auto Fatality

Raleigh, August 12 (AP)—Roy Pearson, of Cary, today was charged with murder in a warrant sworn out by Coroner L. M. Waring, of Wake county, as the result of an automobile accident near Apex on Thursday, in which S. M. Hatch, of Sanford, was fatally injured.

Pearson and two other Sanford men were injured in the accident. Waring announced he would hold an inquest into the death of Cox Monday afternoon. Cox died yesterday in a Sanford hospital.

Balbo Armada Is Given Wild Greetings In Rome

Fiumicino, Italy, Aug. 12.—(AP)—General on both checks and embraced each officer.

Balbo's colleagues in the government the inventor Guglielmo Marconi and the king's aviator cousin, the Duke of Aosta, gave him a similar welcome.

United States Ambassador Breckenridge Long gave the general a cordial handshake, saying in Italian: "I congratulate you on the success of the most magnificent flight in the history of the world. As the representative of the government of the United States and the people of America, whence you just returned, and where you gave such a great impression, I extend you congratulations and to your officers and men felicitations and salute His Majesty the King, the chief of government and the Fascist State of Italy, which has made possible such a demonstration of bravery and efficiency."

FOUR MORE MAJOR INDUSTRIES PLACED UNDER NRA CODES

Electric Light and Power, Telephone, Canning and Construction Plans Approved

MILLION AND HALF WORKERS AFFECTED

Estimate 150,000 New Jobs Will Be Created in These Groups and Millions of Dollars Added to Purchasing Power; 64 Temporary Codes Are Approved

Washington, Aug. 12.—(AP)—Employees of four more major industries—electric light and power, telephone, canning, and construction—today were brought under NRA wage and work time supervision with the approval of Hugh S. Johnson as modified presidential re-employment agreements.

More than 1,500,000 workers were officially estimated as affected immediately by the action, under which the employees may join the blanket presidential agreement with their own modification wage and hour specifications and receive the blue eagle.

The administration estimated that 150,000 new jobs would be provided under the four temporary agreements, and that millions of dollars would be added to mass purchasing power by the minimum wages.

Approval of these brought to 64 the number of temporary wage and hour agreements which have been placed in effect.

Six permanent codes also have been made effective by presidential order, hearings have been completed on a dozen permanent codes, a number more have been set for hearing and hundreds are under analysis with hearings to be set soon.

Concentrating upon rushing through the temporary modified agreements to bring workers under maximum hour and minimum wage agreements at the earliest possible moment, the administration expects to turn them out at the rate of at least half a dozen a day.

High Price Of Tobacco Is Sought

Washington, Aug. 12.—(AP)—An advisory committee composed of six men from four flue-cured tobacco growing states will meet with farm administration officials Monday to discuss plans in the making to improve, if possible, the prices being paid for flue-cured tobacco.

The committee will meet with J. B. Hutson, chief of the administration's tobacco section. The representatives of the growers were called to Washington after a series of protests from Gorgia for the price paid for tobacco there and requests from other states that action be taken to increase prices.

North Carolina will be represented by G. M. Pate of Rowland; John T. Thorne, of Farmville, and T. M. Lewis of Walnut Cove.

To Peel Glove Back For Hard Blow In NRA Drive

Washington, Aug. 12.—(AP)—Several things led various officials today to forecast that the glove might soon be peeled back from the harder hand that is guiding the national recovery drive.

First bituminous coal men themselves expected the National Recovery Administration probably would settle their differences over pending wage and hour-fixing codes for that industry by ruling in or out the points of controversy.

Other developments cited to support the conclusion that more than general frustration is in store:

Appointment of 33 women "lieutenant generals" in as many states to guide family buyers into groups purchasing under the blue eagle.

Announcement by NRA that motion picture stars whose names were not made public will donate their ser-

MACHADO'S REGIME COLLAPSES; PALACE IN HAVANA SACKED

At Least Five Members Of Dreaded Machado Secret Service Are Killed by Angry Mobs

MANUEL CESPEDES IS NEW PRESIDENT

Former Ambassador To United States Provisionally In Office as Exuberant Mobs Take Charge; Ousted Chief at Country Estate Heavily Guarded

Havana, Aug. 12.—(AP)—President Gerardo Machado's request for a leave of absence opening the way for him to resign from the presidency in favor of a candidate approved by all political groups was presented to the Senate.

Havana, August 12 (AP)—President Machado's regime collapsed today and its downfall was celebrated by the sacking of the presidential palace and the killing of at least five members of the dreaded Machado secret service.

Carlos Manuel de Cespedes, former ambassador to the United States, was named provisional president as exuberant and sometimes vicious mobs were crushing the fixtures of the presidential palace and coursing through the streets and cheering and singing. All communication with interior Cuba was cut off and the capital was ignorant of what was going on there. Shouting opponents of Machado stormed the office of Gerardo de Cuba a newspaper which had supported him. The building was set on fire and the interior wrecked.

Meanwhile, another mob carried a piano out of the presidential palace and carried it to the office of the Diario de la Marina, an opposition newspaper. There the piano was broken into bits to provide souvenirs.

Approval Of Roads Is Given

Raleigh, Aug. 12.—(AP)—Federal approval for immediate construction of 18 highway projects in North Carolina was received today by the State Highway and Public Works Commission but no dates for the letting of contracts had been set this afternoon.

The first work to be undertaken will cost about \$600,000. It is estimated. A total of about \$11,000,000 will be expended on roads as fast as projects can be approved by the State and Federal authorities.

Projects on which work may immediately proceed were taken from the first lists submitted to Washington by the commission recently. The projects included concrete pavement from Norlina to Wise.

Warren county; surface treatment from Warrenton to Afton.

Municipal highway projects approved included in Norlina, concrete pavement on Federal aid route 47.
