

GOVERNMENT TOBACCO LICENSING DELAYS AGREEMENT

CUBA GOVERNMENT SENDS TROOPS TO SCENE OF STRIFE

Machine Gun Units on Way to Camaguary Province as Labor Troubles Are Increasing

HERSHEY'S SUGAR PLANT SUSPENDED

Efforts of Mediators Fail As Strike in Havana Continues and Others Are Feared; Situation Remains Tense at Match Factory Near Matanzas

Havana, Sept. 28.—(AP)—Government machine gun units were en route to the interior today as labor troubles increased.

Army headquarters said the troops were going to Camaguary province to guard sugar mills against workers' attacks, but the soldiers themselves declared their purpose was to suppress a revolution.

All the Hershey sugar interests suspended operations in Matanzas and Havana provinces because of strikes, and the Hershey electric railway between Havana and Matanzas was not operating.

The situation remained tense at a match and cigarette factory near Matanzas, where men workers attacked women employees, one of whom was wounded.

Efforts of neutral mediators have failed, a strike of Havana newspaper employees continued, and it was learned authoritatively that members of a service club were working to avert several strikes which it was believed might lead to a general strike.

PICKETS FORM AT ASHEBORO FACTORY

200 Workers On Strike at Hosiery Mill as Third Shift of Workers Is Dropped

Asheboro, Sept. 28.—(AP)—Pickets formed around the Bosong hosiery mill here today as approximately 200 workers went on strike. The plant was closed yesterday by mill officials when employees expressed dissatisfaction over discontinuance of a third shift in compliance with the NRA.

Workers who were finishing up left over wet material were pulled from their jobs today.

Says State Offered To Drop Drake

Condition of Action Was That Raleigh Man Pay \$5,000 To Bank Bureau

Raleigh, Sept. 28 (AP)—The Raleigh Times says it learned today that State's attorneys in the prosecution of W. B. Drake, former president of the defunct Raleigh Banking and Trust Company, Wednesday offered to drop the case if the defendant would make a payment not to exceed \$5,000 on obligations against him held by the State Banking Department.

Drake has been on trial a week on charges of embezzlement and charges of making false reports.

The Times says: "The proposal

Rotogravure Issue Will Benefit, Jenkins Thinks

The rotogravure edition of the Daily Dispatch is preparing to issue in the near future and will be helpful in that it will result in a greater cooperative spirit in the community, and will serve to put Henderson before the public in a large way, in the opinion of Colonel James W. Jenkins, distributor in this section of the State for the Graf Rotogravure Company products.

BYRD SHIP HEADS FOR SOUTH POLE

One of Rear Admiral Richard E. Byrd's two Antarctic ships, the Bear of Oakland, is shown here pulling out of the Charlestown navy yard at Boston as she departed for a two years' expedition at the South Pole. Admiral Byrd is shown, inset, on the ship's bridge as he rode with her down the harbor. He will make the trip aboard the other vessel, the Jacob Ruppert.

TEACHERS DESERT SCHOOL STRIKERS IF IT MEANS CUT

Agitation Takes New Turn As School Authorities Sense Another Whack At Salaries

NO CHANGE LIKELY IN ANY OF SET-UP

School Commission Learns of Methods Resorted to in Some Localities To Spread Propaganda Demand For Bus Service, in Which Commission Is Powerless

Raleigh, Sept. 28.—The "school bus strike" has taken a decidedly different turn since teachers and patrons have come to realize that if children are to be transported to school within the two mile limit as well as outside of it, teachers' salaries will have to be reduced at least another 15 per cent. As a result, the State School Commission, in session here today, has before it a stack of telegrams from teachers and parent-teacher associations over the State urging it not to make any further reduction in teachers' salaries, even if it continues to insist that all children living within two miles of school must walk as the law says. It also has several petitions and resolutions from various counties virtually demanding that it ignore the law and transport all children to school, whether they live within two miles of the school or not.

Teachers Ready To Strike

One of these telegrams, rather paradoxically, is signed by all the teachers in one of the largest schools in Forsyth county, and says that "we

Deposit Guaranty Examiners Named

Washington, Sept. 28.—(AP)—The Federal Deposit Insurance Corporation today announced appointment of 39 new bank examiners to look into qualifications of banks for membership in the corporation. The corporation will commence guaranteeing bank deposits after January 1.

The force will supplant the present staff of national bank examiners now under direction of the comptroller of the currency. Others are to be named later. The list included:

North Carolina—J. E. Bobbitt, Raleigh; T. C. Hunter, Winston; H. W. Turnage, Albemarle; William M. Wiggins, Raleigh.

MASS PURCHASING IS SAVING MONEY

Prison Division Cuts Corners To Cut The Bill For Tax-Payers

Raleigh, Sept. 28.—Thousands of dollars a month are being saved by the State Highway and Public Works Commission, on the cost of food alone for its nearly 8,000 prisoners by buying this food in carload lots and then distributing it to the 35 prison camps and units by truck from Raleigh. It was learned today from W. Z. Betts, in charge of all purchasing for the commission. Accurate records kept over a series of months shows that the cost of warehousing and distributing this food has been steadily reduced during the past year, despite the fact that the total amount of food and supplies needed has been increasing.

The total cost of all food and supplies for prison units in July was \$17,837 and the total cost of warehousing and handling this only \$730, or only 4.2 per cent of the total cost. The cost of buying this food and these supplies locally would have been from 20 per cent to 40 per cent greater

TO SPEND BIG SUM ON INLAND ROUTES

\$1,250,000 Allotted for Improvement of Cape Fear-Winyah Bay Waterway Channel

Washington, Sept. 28.—(AP)—Major General Lytle Brown, announced today the allotment of \$1,250,000 for the improvement of the intra-coastal waterway, Cape Fear river, North Carolina, to Winyah Bay, South Carolina.

Various sections of the waterway will be dredged and three bridges will be built across the waterway in Horry county, S. C. This allotment is from the fund assigned to the War Department by the Federal Emergency Administration of Public Works.

MANDAMUS ASKED OVER SCHOOL BUS ROW IN TYRRELL

Judge Small Orders Commission To Appear For Hearing October 3 to Defend Itself

SCHOOLS NOT OPEN, DUE TO CONTROVERSY

New Action Plunges Commission Still Deeper Into Transportation Muddle In Addition to Dozens of Protests Against Its "Two-Mile" Ruling

Raleigh, Sept. 28 (AP)—New controversies over transportation of school children in North Carolina faced the State School Commission today with the announcement that a writ of mandamus is being sought in Tyrrell county to force the State to provide "adequate" transportation for children there.

The Tyrrell suit is based on the refusal of the commission to allot enough funds to meet costs of transporting children in the county to school under a contract system.

In the complaint it is set forth that the schools of the county have not yet opened due to the controversy over transportation, and the date for the opening is uncertain, as facilities to get the children to schools cannot be provided with an allotment of only \$4,500.

Already faced with dozens of protests against its ruling that school children living within two miles of the schools they attend cannot ride in buses, the new action plunged the commission deeper into the transportation muddle.

Judge Walter L. Small, of the superior court, signed a rule ordering the school commission to show cause at Washington on October 3 why the mandamus being sought should not be issued.

First announcement of the Tyrrell suit was made today when the complaint in the case, was read to the commission by LeRoy Martin, the Secretary.

JAMES W. COLLIER DIES AT CAPITAL

Was 24 Years Mississippi Congressman But Later Member of the Tariff Commission

Washington, Sept. 28.—(AP)—James W. Collier, of Mississippi, member of the Tariff Commission and former Democratic chairman of the House Ways and Means Committee, died at his home here today.

Death was due to heart trouble, his office assistant said. This was his birthday. He was born near Vicksburg 61 years ago.

Collier served 12 terms in the House and declined to run again last November after a controversy over whether candidates should run at large or by districts.

Fords Fix Schedules For Work

Detroit, Sept. 28.—(AP)—Officials of the Ford Motor Company today said the plant will be operated on a five-day 40-hour week, with a complete shut-down several days each month to bring the average down to 35 hours prescribed by the NRA automobile code, which the company has not signed.

The officials said it was planned originally to operate the plant on a four-day 32-hour basis followed later by a period of five-day 40-hour operation to bring the average to 35 hours a week.

That plan, officials said, has been abandoned.

Officials declined to comment on the closing of the Ford assembly plant at Chester, Pa., and said they knew nothing of a "sympathy walk-out" of 500 employees in their Edgewater, N. J., plant.

WEATHER FOR NORTH CAROLINA

Mostly cloudy tonight and Friday; probably occasional showers in west portion; slightly cooler in north portion tonight.

KELLY NABBED; SHANNON ON STAND

At left is George (Machine Gun) Kelly, western desperado sought in the \$200,000 Urschel kidnaping, who surrendered to federal agents at Memphis, Tenn., following a nationwide search and a sensational raid on a Memphis house. Kelly had recently sent bold threats to Chicago to the prosecutors of the 12 persons on trial at Oklahoma City, where he

was named as a partner of Albert Bates in the actual kidnaping of Charles Urschel. At right is R. G. (Boss) Shannon, hard-bitten Texas rancher and one of the 12 on trial at Oklahoma City, shown on the stand as he denied any connection with the kidnaping, although admitting Urschel was held captive at his farm house by Kelly and Bates.

Seeking Jury In Cemetery Murder

Camden, Sept. 28.—(AP)—Efforts to select a 12th juror in the murder trial of Wilton Forbes and Winfred and Corney McPherson, were continued there this afternoon when court reconvened following the noon recess.

Forbes and the two McPhersons are charged with shooting Earl Barnard of the Shiloh Road, to death on August 15 when they attempted to hi-jack some liquor which Hubert Whitehurst, one of the State's witnesses, testified at the preliminary hearing was hidden on the Barnard farm.

EMPLOYMENT GAIN DUE TO ROOSEVELT

Labor Head Says, However, 11,000,000 Still Idle; Sees Hard Winter

Washington, Sept. 28.—(AP)—Big employment gains were attributed today to the Roosevelt recovery program by William Green, American Federation of Labor chief, but employer-labor difficulties—this time involving Henry Ford—continued to worry NRA officials.

Green said the federation estimate that 815,000 persons returned to work in August represented "greater progress in employment" than in any month since the depression.

He counted the remaining unemployed at 11,001,000, and said "relief needs this winter will be greater than ever before."

Coincident with Green's comment on the recovery program were fresh intimations that a change in monetary policies to aid farm policies may be forthcoming soon. Dr. James H. Rogers, of Yale, returned from a talk with President Roosevelt to confer with ranking Federal financial officers.

Though official comment was lacking, the Rogers conference served to revive talk of a commodity dollar with less than the present dollar's buying power.

Mail Bags With Likely \$100,000 Taken in Boston

Boston, Mass., Sept. 28.—(AP)—Three sacks of registered mail containing money and valuables estimated by postal officials to be worth more than \$100,000 were stolen from the South Station car by this morning by four daring daylight thieves. They fled in an automobile.

MARKET PROPOSAL PLANNED, HOWEVER, BY THE WEEK-END

Government Wants To Retain Right To License Companies Not Signing the Contracts

IT WOULD BE USED ONLY IF NECESSARY

Examination of Company Records Would Pertain Only to Flue Cured Purchases and Not Company's Entire Affairs; Await Carolinas Reactions

Washington, Sept. 28.—(AP)—Chester Davis, chief of production of the Farm Administration, said today that signing of the flue-cured tobacco marketing agreement was being held up by government scrutiny of a provision covering the administration's proposed agreement not to invoke its licensing power at his time on domestic manufacturers who signed the contracts.

Davis said the government wants to retain the right to license domestic buyers on their flue-cured operations only later on if it is necessary to license companies that do not sign the contract.

He emphasized this was intended as a precautionary measure to protect the grower and assure the government of its ability to enforce the contract if this should become necessary.

Under the proposed agreement, the

HURRICANE'S TOLL IS MORE EVIDENT

Mrs. O'Berry Stays In Washington Seeking Special Relief For Needy

Daily Dispatch Bureau, in the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, Sept. 28.—Mrs. Thomas O'Berry, director of the Governor's Office of Relief was still in Washington today conferring with Relief Administrator Hopkins with regard to getting more relief funds for use in the counties where so much damage was done by the recent hurricane. She is expected back here Friday.

While no definite estimate of the total damage done by the storm had been made up here yesterday or the total additional load the relief agencies would have to carry, some quite definite figures had been received from several of the counties. A preliminary survey in Carteret county showed that 100 homes had been completely destroyed, 1,000 homes damaged and that 1,095 families have already been aided either by the Red Cross or by the relief agencies working out of the Governor's Office of Relief. Of these 1,095 families, 910 were fishermen's families. These families can be rehabilitated and made self-supporting if they can be provided with houses, boats and nets. But if they are not rehabilitated, they will have to be carried on relief indefinitely. Mrs. O'Berry hopes to be able to persuade the Relief Administration to undertake the rehabilitation of these families as the cheaper of the two undertakings, although it will re-

(Continued on Page Three.)

Cooperation By Farmers Insisted On

Ehringhaus Says It's Same as NRA to Industry; Urges Tobacco Delays

Mount Olive, Sept. 28.—(AP)—Governor Ehringhaus urged the farmers to give their united support to the Agricultural Adjustment Administration, which he described as the same thing for the farmer that the NRA is for the business man, in an address today, at the Mount Olive farmers' festival.

"I hope to see the day when the farmer chisel will be held up to scorn by his neighbors," added the governor, explaining he meant the farmer who agrees to make acreage reductions and then doesn't carry out the agreement.

Governor Ehringhaus said the Agricultural Adjustment Administration intended to bring peanuts under its scope soon.

Discussing the present prices being paid on the tobacco markets, he urged growers to keep back their crop to prevent a glut on the market, and to offer only as much tobacco as the buyer can handle conveniently daily.

"We must learn how to apply the principle of cooperation in production," he continued. "If we do that, the selling will take care of itself." Thousands of farmers from throughout this section were here for the all-day festival.

Says Government Means To End Kidnaping Crime

Oklahoma City, Sept. 28.—(AP)—Joseph B. Keenan, assistant United States attorney general, opened the final argument in the Charles F. Urschel kidnaping case today with a declaration that the government is determined to wipe out kidnaping and the activities of machine gun gangsters.

"The interest of the nation is now focused upon the drama now coming to a close in this court room, and we are here to find an answer to the question of whether we shall have a government of law and order or abdicate in favor of machine gun gangsters," Keenan told the jury.

Albert Bates and Harvey Bailey are accused as principal defendants in the \$200,000 kidnaping case with George Kelly, gunman arrested in Memphis.

Keenan referred to the unusual spectacle of four separate groups of defendants linked in the same case.

"It would seem that kidnaping has become a modern act," he said. "It requires the 'spotters,' those who determine what the intended victim can pay; it requires the actual 'snatchers,' the bold outlaws who smash their ways into a home in the dead of night to whisk away their victim at the point of machine guns.

"The third group comprises the guardsmen and those who hide the victim from the searching public, spurred by the outraged community.

"Fourth, and not less important, are the money changers, the slippery, slimy creatures, scheming in the manner and fashion of the modern financiers who exchange the marked currency into money that cannot be identified."
