Washington, Oct. 18 .- (AP)-President Roosevelt feels that, although farm prices have increased 32 percent since the average for the year that ended March 31, they were not ye high enough.

An economiist for the executive council has presented figures to the President showing that the products the farmer sold in September brought 32 percent more than in the 12 months ending with March.

In the same period, it was stated in official quarters today, the economist has reported the cost of things the farmer buys has increased 11 percent.

Figures also have been submitted to the President showing that factory employment in September compared with 1929 had recovered two-fifths of its decline, and the income of factory workers had regained a quarter of the loss, while the cost of living rose nine percent from March to September.

Squabble and Bickering In Party Ranks In State Displeased Him

Daily Dispatch Bureau, In the Sir Walter Hotel, RY J C. RASKERVILL. Raleigh, Oct. 18-There are two

main reasons why former Governor O. Max Gardner resigned as a mem. ber of the Democratic National Committee, according to opinion in political circles here, aside fro mthe reason given in his letter of resignation, to the effect that he desired to de. vote his entire time to his law practice in Washington. These two reasons are as follows:

1. He grew tired of the factionalism and bickerings within the Demo. cratic party here in North Carolina and between its representatives in Congress.

2. He resented the talk that has been prevalent for some time that he was capitalizing on his positoin as a national committeeman and his former prestige as governor in his law practice in Washington.

It is also agreed that Gardner was becoming tired of being used by senators and congressmen as an alibi to job hunters and of being represented as the "power behind the throne" in the distribution of Federal patronage know the facts are convinced that.
