

Courses In Summer For High School

Annual Vacation Session To Start May 14 and End June 22, Six Weeks

The annual summer session of the Henderson high school will be conducted again this summer, and will start on Monday, May 14, lasting six weeks and closing Friday, June 22, it was announced today by Prof. W. D. Payne, the principal.

All classes, it was said, will be conducted at the high school, and the hours will be from 9 a. m. to 1 p. m. daily. The faculty has been selected from the regular high school faculty, and will consist of Miss Julia Bethel, teaching French and Latin; Prof. S. M. Crowder, history and English, and Prof. W. D. Payne, mathematics and science.

Pupils completing courses in the summer school will receive regular credit toward promotion and graduation. A tuition fee will be charged according to the number of courses taken. This year's seniors who lack enough credits to graduate at the closing exercises on May 8, will be enabled through the summer school to receive their diplomas at the close of the summer session, it is stated.

The summer school is open to pupils who fail a half year's work and wish to make it up; pupils who are passing by narrow margins and wish to strengthen themselves for next year's work and for pupils who desire to take advanced work so that they can be graduated at the close of their tenth year instead of their eleventh.

All pupils who desire to take summer school work, or parents who are interested in their children taking summer school work are requested to communicate with the office at the high school immediately, Prof. Payne announced today.

Bond Purchasing Contract Coming From PWA Heads

Superintendent E. M. Rollins of the city-county schools, was advised by telegraph today from the Public Works Administration in Washington that the bond purchase contract covering the grant of \$16,000 for four new rooms to the Dabney school will be mailed not later than April 18. He was advised to have the board meet immediately on receipt of the contract to approve it, and was also advised to employ a bond attorney of national reputation to pass on the form of the securities to be offered to the government.

A great deal of "red tape" must be handled before the money is obtained, but it is considered certain that the building can be made ready for the opening of the fall term of the school in September.

AROUND TOWN

No Recorder's Court.—No session of the recorder's court was held today, there being no cases for trial.

Two Marriage Licenses.—Two marriage licenses were issued yesterday by the register of deeds, as follows: J. C. Wilkerson, Henderson, Route 3, and Lena Maude Cawthorn, Henderson, white; and James Williams and Dorothy Mitchell, colored, both of Henderson.

Judgment Suspended.—Herman Hunt, colored, was tried in police court today on a charge of assaulting India Williams and Zola Hunt with a deadly weapon, namely, a knife. He was given six months on the roads, sentence to be suspended on condition he keep the peace toward his wife for two years.

O'NEIL BUILDING IS NOT BEGUN AS YET

Work has not yet started in the rebuilding of the O'Neil building, destroyed by fire two weeks ago. The jagged walls left by the fire have been torn down to a level of the first floor ceiling and barricades have been removed so as to permit pedestrians to have the use of the sidewalk alongside the old structure. Plans for the restoration of the block have not yet been completed, it was learned today.

Is This Too Good for Your Cough?

Creomulsion may be a better help than you need. It combines seven major helps in one—the best helps known to science. It is made for quick relief, for safety.

Mild coughs often yield to lesser helps. No one can tell. No one knows which factor will do most for any certain cough. So careful people, more and more, are using Creomulsion for any cough that starts.

The cost is a little more than a single help. But your druggist guarantees it, so it costs nothing if it fails to bring you quick relief. Coughs are dangerous signals. For safety's sake, deal with them in the best way known.—(Adv.)

Awards Are Presented To Boy Scouts Tuesday

Presentation of merit badges and other awards and announcing of various appointments, together with a fun program made up of the Court of Honor meeting of the Boy Scouts at the Parish House of Holy Innocents Episcopal church last Tuesday evening. E. H. Dixon, president of the local council, presided in the absence of Rev. I. W. Hughes, chairman of the Court of Honor.

District Scout Executive Claude Humphries, of Raleigh, was present and presented renewal charters to Troops 30 and 31. He also presented to E. H. Dixon a certificate as chairman of the civic duty committee for Occaneechee area council, and to R. G. Kittrell a certificate as chairman of the leadership training committee of the area council.

Billy Vaughan won a knot-tying contest by handling nine tenderfoot knots in one minute and 15 seconds. He represented Troop 31 in the contest.

In a "cracker busting" contest H. M. Rowland of Troop 30 and T. W.

Ellis, Jr., of Troop 36 were winners. Both were blindfolded. Herbert Crawford, of Troop 36 won the head bandage contest and Pat Bobbitt, of Troop 31, won the reverse spinal bandage contest.

A song by each troop closed the evening's exercises.

Awards were presented as follows: By C. M. Cooper as tenderfoot ranks Dick Jones, Troop 36; Dick Callaway, Troop 36; Harold Hunt, 36; Billy Dunn, 31; William Walker, 31.

By W. R. Vaughan to second class Scouts: Malvin Parham, 36; Jimmy Peck, 36; Billy Alston, 31; McCarl Crews, 30.

By J. B. Watkins, first class: Scott Ferebee, 36.

By J. Harry Bryan, merit badges. T. W. Ellis, Jr., 36, safety, first aid to animals and handicraft; Herbert Crawford, 36, automobiling; Billy Vaughan, 31, electricity and woodcarving; Billy Powell, 30, scholarship, handicraft, chemistry; H. M. Rowland, 30, scholarship; Clyde Hight, 30,

agriculture, soil management, business; Meredith Watkins, 30, weather, scholarship, athletics; Eugene Patterson, 31, first aid; Council Planell, 31, personal health.

By S. M. Crowder, life badge, to Meredith Watkins, 30.

Warren Agrees to Proposal in Vance About Senatorship

The Democratic Executive Committee of Warren county has given its approval to the proposal of the Vance county group that allows each county to name the State senator for the district in the years the county furnishes the nominee. That means that nominees to be voted on in the Democratic primaries will be selected by votes only in the county where they reside. Vance and Warren constitute the sixteenth senatorial district.

This year it is time for the nominee to come from Warren county, and Vance will take no hand in the nominations. Three candidates are already in the field in Warren these being Frank Gibbs mayor of Warrenton; former Senator T. O. Rodwell, and W. A. Connell.

Looks like the "Havana Widows" will even steal your drink if you don't look out. Glenda Farrell is seen here in an episode from the picture of the same name, now playing at the Stevenson theatre today. Joan Blondell, Allen Jenkins, Frank McHugh and Guy Kibbe are some of the stars in the cast.

REV. I. W. HUGHES TO PREACH AT OXFORD

Rev. I. W. Hughes, rector, of Holy Innocents Episcopal church of Henderson, has accepted an invitation to deliver the commencement sermon to the graduating class of the Oxford high school this year. The sermon will be preached in St. Stephen's Episcopal church in Oxford on Sunday evening, May 2, at 8 o'clock. The seniors of the Oxford Orphanage will join with the graduating class of the city schools in occupying reserved seats for the service.

Eases Headache In 3 Minutes

also neuralgia, muscular aches and pains, toothache, earache, periodical and other pains due to inorganic causes. No narcotics. 10c and 25c packages.

An Important Announcement about An Entirely New Type of Gasoline

FOR nearly 20 years airplanes and racing cars have been equipped with mechanical *super-chargers* which increase the power value of gasoline to get *more firing charges per gallon*.

Ever since the invention of the *super-charger*, chemists have been striving to accomplish a similar result by "super-charging" gasoline itself. Now, after many years of experimentation, Shell engineers have finally succeeded in developing and perfecting this "super-charging" process. They have actually succeeded in changing the entire chemical structure of gasoline in such a way that it results in an amazing increase in energy.

So far this remaking process has "super-charged" gasoline so that it is possible to obtain as many as 6900 more firing charges per gallon. This, of course, means increased mileage.

Road tests conducted under laboratory conditions have shown gains of from 1/2 to 2 miles per gallon. Motorists who have used this new gasoline in their cars have reported even greater increases.

Without knowing your car or your driving habits, it is impossible to forecast the exact increase you will experience with Super-Shell, but we know the increase will be sufficient to effect a real worthwhile saving in your yearly gasoline expenditure.

For the present, you need pay no more per gallon for this new "Super-charged" Super-Shell than you would for ordinary gasoline.
