Roosevelt and Party Leaders Go into Huddle at White House Debate Plan to Commission All Naval Academy Graduates and for Promotions

Washington, May 15 (AP)—Congress headed into the adjournment stretch today under spur for a \$1,322,000,000 appropriation with communications control and unemployment insurance hurdle in the offing.

All was set for the presidential request that huge moneys be made available to finance the multi-pointed recovery program through another year.

The plan apparently is to pass that legislation in days immediately ahead, but if the opposition barrier is too high the bill may go the way of other less urgent ones that invariably are put aside at the session's end.

Jimmy Kirk Named as Alleged Brains of Plot In Abduction of William F. Gettle

MILLIONAIRE FREED IN RAID BY POLICE

Kirk Declares Only Three Were Involved in Scheme; Disclaims Knowledge of Two Women in Custody; Five Persons Placed Under Arrest

Los Angeles, Cal., May 15 (AP)—Three men arrested in the kidnaping of William F. Gettle, who was released unharmed last night, were reported by authorities today to have admitted participation in the abduction of the Beverly Hills millionaire.

Statements of the three, made in the presence of police detectives, sheriff's deputies and post office inspectors, named Jimmy Kirk as the alleged "brains of the plot," Larry Kerrigan and Roy Williams as the one who aided Kirk in seizing the millionaire at his summer home last week.

Under questioning by Captain Morris G. Stensland, of the sheriff's office, Kerrigan was quoted as saying he was to have received \$18,000 for acting as Gettle's guard and that Kirk had ordered Gettle to write the letters regarding arrangements for delivery of the \$60,000 ransom.

Kirk, in his statement before the officers, said the plot to kidnap Gettle was his idea, but that Williams and Kerrigan helped to make the plans.

Asked if any one else was involved in the plot, Kirk said: "That is all."

He said he knew nothing about two women now in custody.

Williams, in his statement, said he and Kirk were the two men who kidnaped Gettle.

Officers found the retired broker last night, bound to a bed and with his face covered with a court plaster mask, in a little house in the foothills town of La Crescenta, only a few miles from here.

Liquor Law May Remain Unchanged

Legislature May Prefer Status Quo To Stirring Another Wet-Dry Fight

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE. Raleigh, May 15.—What will the 1935 General Assembly do with the liquor question? Will it continue to do nothing and leave the Turlington act on the books untouched, making the State a haven for the bootleggers, or will it revise the Turlington act and put in a system of strict regulation?

These questions are being asked quietly in political circles both here and in other sections of the State, although there is very little open discussion since most candidates and most party leaders do not want the liquor question to become involved in either the Democratic primary June 2 or in the election in November.

Most observers here are inclined to believe that the 1935 General Assembly will again sidestep any consideration of the liquor question and refuse to change the Turlington act, just as the 1933 Assembly did, and for the following reasons:

1.—Any tampering with the State prohibition law would stir up another fight between the wets and dries of

NEW U. S. AGENTS AFTER TAX ONLY

Not Interested in Suppressing Liquor Selling, But in the Money

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE. Raleigh, May 15.—The new "special investigators," as the government now calls what were formerly called "revenue agents" or "red legs," will arrest those found to be selling liquor on which the Federal tax of \$2 a gallon has not been paid, those who are found manufacturing liquor without a license or those selling liquor without a government retail liquor dealer's license, Collector of Internal Revenue Charles H. Robertson said here today.

"The Internal Revenue Bureau is not issuing any licenses to manufacture liquor in North Carolina, so that any one found operating a liquor still or manufacturing plant can be arrested and prosecuted for manufacturing liquor without a license," Collector Robertson said.

"It is also illegal for any person to have in his possession for purpose of sale any liquor upon which the Federal liquor tax of \$2 a gallon has not been paid. But even though this tax has been paid and a person is found selling this liquor without the regular Government retail liquor dealer's license, he can be arrested and prosecuted for selling liquor without a license."

HUGE SUM SOUGHT TO TAPER OFF ALL EMERGENCY ITEMS

\$940,905,000 Earmarked by President for General Relief and Public Works Purposes

HUNDRED MILLIONS FOR ROAD BUILDING

40 Millions for Navy's Shipbuilding and 35 Millions for Public Buildings Construction; Warns Against Appropriation in Excess

Washington, May 15 (AP)—President Roosevelt asked Congress today for \$1,322,000,000 to taper off emergency expenditures during the coming government year.

The main portion of the fund—\$940,905,000—was assigned by the President for general relief and public works purposes. He asked discretionary power to use it as demands require.

Out of this, however, he has tagged \$100,000,000 for road construction, \$40,000,000 for starting the navy shipbuilding program, \$48,000,000 for the Tennessee Valley Authority, \$35,000,000 for public buildings construction, and \$5,000,000 for the inter-American highway.

The appropriations would increase the government debt to the all-time peak of \$31,834,000,000 for June 30, 1935 as fixed in the two-year budget submitted to Congress in January.

Pointing to a pay-as-you-go basis for the 1936 fiscal year the President warned in his message today:

"In my judgment an appropriation in excess of the above amount would make more difficult if not impossible, an actual balance in the budget in the fiscal year 1936, unless greatly increased taxes are provided."

"The present estimates should be sufficient, as a whole to take care of the emergencies of relief and of orderly re-employment, at least until the early part of the calendar year 1935. If at that time conditions have not improved as much as we hope today, the next Congress will be in session, and will have full opportunity to act."

Second Big Cloudburst In Tiberias

1,900-Year-Old City Near Jerusalem Is the Scene of Two Catastrophes

Jerusalem, May 15 (AP)—A second cloudburst within 24 hours struck the 1,900-year-old city of Tiberias at noon today shortly after the 17 persons drowned in yesterday's deluge were buried.

Another heavy death toll among children, tens of whom were killed yesterday, was feared as a result of today's rain.

The water swept down the hills for 25 minutes like a river.

Stocks of goods were carried out of shops and houses were emptied of their contents.

The entire population of Tiberias fled as best it could to higher ground outside the city.
