

Fear Fire Menace In Toledo Strike

Ohio National Guard Moves in to Halt Toledo Riots

Ohio national guardsmen are shown in the streets of Toledo, setting up a machine gun, left, right near the Electric-Lite company's plant where serious rioting has occurred between strikers and police and sheriff's deputies. At

left is a view of the plant showing company guards in front of the shattered windows, broken by missiles hurled by strikers and sympathizers.

More Troops Are Prepared For Use When Called For

Aged Farmer Kills Two and Suicides

Ramsay, Ill., May 26 (AP)—Enraged when a young farmer called to marry his housekeeper's daughter, Thomas Hayes, 59, today shot and killed three persons, including the bride-to-be and her mother, then committed suicide.

One Man Arrested And Charged With Arson In Sector Where Firing Is Renewed

SERIOUS INCENDIARY FIRES IN THE NIGHT

Military Passes Are Issued for First Time to Newspaper Men and Others Desiring To Enter Riot Zone; Machine Gun Cavalry Moves Up

Toledo, Ohio, May 26 (AP)—Militiamen tightened their lines about the riot zone at the Electric Auto-Lite plant today, frankly worried over a fire menace as one man was booked on an arson charge.

One man, who gave his name as Thomas Mayer, 26, was arrested by National Guardsmen in the area where renewed rifle fire broke out early today in the wake of strikers' rejection of a peace proposal.

His arrest followed an investigation of the series of incendiary fires during the night. A. F. Gartz, district fire chief, said most of a dozen alarms were false, but that a box car and two houses had been fired with oil waste. The flames were extinguished quickly, Military officers said they were worried over the fire menace.

Military passes were being issued this morning for the first time to newspaper men and others who wished to enter the riot zone.

Meanwhile, orders were issued for the Toledo machine gun cavalry troop, which has been holding itself ready for strike duty, to proceed with horses and guns to the downtown armory.

GLASS WINS OVER THE PRESIDENT ON STOCK MART BILL

Roosevelt Said To Have Capitulated to the Virginian on Administering the Law

SPECIAL AGENCY IS TO DO REGULATING

Settlement Clears Way For Final Agreement on Measure; One of Strangest Senate-House Conferences In History; Glass Virtually Dictates Terms

Washington, May 26 (AP)—President Roosevelt was reported authoritatively today to have capitulated to the demands of Senator Glass of Virginia, that a special agency rather than the Federal Trade Commission should regulate the stock exchanges.

Settlement of this major controversy between the Senate and House cleared the way for a final agreement today over the form of the stock market regulation bill.

It was Glass who through the long market control controversy led the fight for the independent commission. The chief executive only ten days ago urged the trade commission plan. The agreement was reached in one of the strangest Senate-House conferences in congressional history. The official Senate representatives were in constant contact with Glass, who had protested at being left off the committee. Present in the stage wings also was Eugene Black, governor of the Federal Reserve Board, who acted as spokesman for the President.

STRONGER LABOR BOARD OF THE NRA ENDORSED

Washington, May 26 (AP)—Settlement at last of Senate-House differences over the stock market control

Plan Hop Paris To San Diego

De Bourget, France, May 26 (AP)—Paul Codos and Maurice Rossi world's record long distance fliers, decided today they will start tomorrow on an attempt to fly stop to San Diego, Cal.

They will take off at 5 a. m. (11 p. m. tonight eastern time). They reached their decision on the combined trans-Atlantic and trans-continent flight at 6:30 p. m. tonight after a study of weather maps embracing the whole route.

Good weather was reported over the Atlantic route which the fliers planned to take. They immediately discarded the alternative plan for a flight to Rio de Janeiro.

The runway here already has been prepared for them. Their airplane is ready to be wheeled out of the hangar and filled with gasoline and oil shortly before their departure.

The Frenchmen said they intended to pass directly over New York City, leading to the belief that they will fly the regular trans-continental route over the United States.

AGRICULTURE DEPT. OFFICIALS OPPOSE FLAT TOBACCO CUT

Say Horizontal Tax Slash Would Put 10-Cent Manufacturers Clear Out of Business

SAYS GROWERS THEN WOULD BE DAMAGED

Would Lessen Demand For Flue-Cured Types; \$2 Tax for Present 15-Cent Brands and \$1.70 for 10-Cent Cigarettes Is Proposed Instead

Washington, May 26 (AP)—A belief that the Vinson bill for a horizontal 40 per cent reduction in tobacco taxes would be contrary to the best interests of flue-cured and burley growers is expressed by Department of Agriculture officials.

Repeating statements made to members of the House Ways and Means Committee and at hearings on the bill, they declared such a reduction would probably force manufacturers of present ten-cent cigarettes out of business, and eliminate their demand for tobacco.

Tobacco growers gain most by competition of their products, officials said, and elimination of the independent manufacturers might mean a return to a virtual monopoly of the market by manufacturers of 15-cent brands.

As a compromise, department spokesmen propose a gradual tax of \$2 per 1,000 on the present 15-cent brands, and \$1.70 per 1,000 on present 10-cent brands to enable manufacturers of the latter to sell at a fair profit on the basis of two packages for 15 cents.

Revisions of the tax rate would not affect processing taxes now levied on tobacco, since they are absorbed by manufacturers and would probably continue to be, they added.

PRESBYTERIANS WILL CUT DOWN ASSEMBLY

Montreal, May 26. (AP)—The General Assembly of the Presbyterian church in the United States, in session here sent to the committee on bills and overtures today a proposal that the number of commissioners be reduced.

The proposal, a step designed to bring about economy, brought forth a vigorous discussion, with ruling elders taking a prominent part.

Japan Plans To Abandon Parity Idea

Tokyo Fears Anglo-American Combine Against Her In Naval Armaments

Tokyo, May 26 (AP)—Japan, fearing an Anglo-American combine at the 1935 naval conference is ready, it was indicated today, to abandon any claims to naval parity with the United States and Great Britain.

These claims never have been enunciated by responsible officials. They have been hinted so strongly, however, that most observers had come to anticipate a vigorous demand for parity.

Instead, it was inferred by some officials and in editorial comment, the empire now is willing to forego parity claims, provided Japan is given a high rate, and theoretical equality.

Tokyo leaders have repeatedly emphasized their determination to oppose maintenance of the present 5-5-3 treaty naval ratios among the three countries.

The new trends cropped out today as a high official source made known London likely will be notified within the next 24 hours of Japan's willingness to engage in discussions preliminary to the 1935 naval conference.

In these discussions the Japanese government plans to pry into the much-discussed question of naval limitations, as well as helping lap the ground work for the conference.

Pou And Cooley Running Neck And Neck In Race

Detailed Forecast of Next Saturday's Vote Puts Pou Ahead by 2,500; Gives Zollcoffer, Evans and Bailey Combined Less Than 10,000 Votes

Daily Dispatch Bureau, in the Sir Walter Hotel, Raleigh, May 26.—While the race in several counties in the fourth congressional district for the Democratic nomination to Congress is going to be close between Harold D. Cooley, of Nashville, and George Ross Pou, of Raleigh and Smithfield, present indications are that Pou will have a majority over Cooley without Wake county and that his majority in Wake county will give him a substantial lead, according to observers who have been studying the fourth district campaign for the past week. It is also agreed that while Jere P. Zollcoffer, of Henderson, has continued to make some progress with the result that few now believe he will overtake Cooley and get in second place. W. F. Evans and Palmer Bailey, the two other

candidates for the Congressional nomination are still regarded as being in fourth and fifth place, respectively. It is still true that the Cooley forces are claiming he will carry almost every county in the district with the possible exception of Randolph and Vance, since they conceded Vance to Zollcoffer and Randolph to Pou. But most of the experienced observers here maintain these claims are greatly exaggerated and that Cooley is not likely to carry more than Nash and Franklin counties, and that he must get a large majority in Wake if he is to be a high man in the first primary. Nor is it expected that Zollcoffer will carry any other county than his home county of Vance, although it is expected that he will get his next high-

STATE SCHOOL TAX LAID ON PROPERTY WOULD BE 76 CTS.

Uniform Levy of That Much Would Be Necessary To Raise \$16,000,000 for Schools

THAT IS THE SUM STATE IS PAYING

County Tax Rates, Already Burdensome, Despite State Relief, Would Be More Than Doubled In Some Cases To Meet Such Statewide Levy

Daily Dispatch Bureau, in the Sir Walter Hotel, Raleigh, May 25.—A State-wide property tax rate of 76.43 cents would be necessary to raise the \$16,000,000 which the State is now sending to the various counties for the support of the State wide, State maintained eight months school term, figures just compiled by the State Department of Revenue on the basis of the valuation in the various counties in 1933, and released today by Commissioner of Revenue A. J. Maxwell, show. These figures show that the assessed valuation of all the property in all the 100 counties in the State in 1933, following the revaluations ordered by the 1933 General Assembly, amounted to \$2,089,209,188, or almost \$1,000,000 less than it was several years ago.

These figures further show that the average county wide tax rate in the State last year for regular county purposes and not including the maintenance of schools, was 88 cents. Hence, if the counties had had to levy a tax of 76.43 cents in addition to the other 88 cents for regular county purposes, the average property tax for all the counties would have had to be \$1.64 instead of 88 cents.

Thus the tax rate in Cleveland county, which was the lowest in the State last year, amounting to only 36 cents on the \$100 valuation, would have been \$1.33 cents if it had levied a property tax for the same amount it received from the State for school purposes. Hyde county, which last year had the highest county tax rate

Democrats Will Name New Judge

State Committee To Meet in Raleigh On Thursday To Put Man on Ticket

Asheville, May 26 (AP)—Chairman J. Wallace Winborne, of Marion, today called the State Democratic Executive Committee to meet in Raleigh Thursday at 8 p. m. to select the party's nominee for associate justice

Judge Michael Schenk, of Hendersonville, has been appointed to the unexpired term of Associate Justice W. J. Adams, who died Sunday. Judge Adams was the party's nominee to succeed himself.

Mr. Winborne explained that the nominee for superior court judge of the eighteenth district will be selected by the executive committee of the judicial district. Judge Schenk's appointment to the supreme court created this vacancy.

Congress May Quit On June 9

Washington, May 26 (AP)—Senate leaders saw a "good possibility" today that Congress will adjourn in two weeks.

They based this forecast on the agreement by Senator Long, Democrat Louisiana, to end what had termed a one-man filibuster against the tariff bill. Senator Harrison, Democrat, Mississippi, obtained an agreement from Long and the Republican opposition late yesterday to limit debate on the administration reciprocal tariff bill, beginning Wednesday, bringing a final vote Thursday. It already has been approved by the House.

Adjournment by June 9—a date ten

Californian Wins British Golf Play

Trestwick, Scotland, May 26.—(AP)—W. Lawson Little, of California, defeated James Wallace, Scottish carpenter, 14 to 13, today for the British amateur golf championship, smashing all existing records for the classic tournament.

FAMILY DINNER IS TURNED TO TRAGEDY

One Dead, Two Hurt and One in Jail In Alabama Shooting Friday

Athens, Ala., May 27 (AP)—Two charges from a shotgun fired into a family group last night killed one woman, seriously wounded another and slightly wounded a brother-in-law of the two. The husband of one of the women was in jail here.

Mrs. Myrtle Rogers, 42, was killed by the charge that converted a family dinner party into tragedy; her sister-in-law, Mrs. Janie Carter, 38, was in a critical condition from wounds received, and John Rogers was slightly hurt.

Reece Rogers, husband of the slain woman, was arrested by officers and taken to jail here suffering slight wounds in the chest, which officers said were self-inflicted.

CLAIMS AUTO TAX SAVES 65 MILLIONS

Present Levies Make Up-keep Possible That Cuts Operating Costs

Daily Dispatch Bureau, in the Sir Walter Hotel, Raleigh, May 26.—Although the automobile and truck owners in North Carolina are now paying approximately \$21,000,000 a year in gasoline and license taxes, this is the minimum amount needed to retire the bonds and interest due on them and to maintain the roads as they should be, according to Miss Harriett M. Berry, secretary of the North Carolina Good Roads Association, and who is now carrying on a determined campaign against any reduction in the amount spent for highway maintenance in North Carolina. For by spending this \$21,000,000 a year in paying for the roads already built and for their proper maintenance, the car and truck owners of the State are actually saving \$85,000,000 a year, Miss Berry maintains, since it costs twice as much to operate automobiles and trucks over unimproved roads as over improved roads.

At the present time approximately 360,000 automobiles and trucks are registered in the State, Miss Berry points out, representing an investment of at least \$350,000,000. Fully 25 per cent of this cost would go for operation and depreciation if they were to be operated on unimproved highways, which would make the cost of operation \$87,500,000 a year, to say nothing of loss of time, restriction of trade and marketing of farm products, the breaking down of the rural school program and other things, Miss Berry points out.

"The income now derived from the gasoline tax is \$13,500,000 a year and

WEATHER FOR NORTH CAROLINA

Fair and slightly warmer tonight and Sunday.

House Will Adopt Silver Bill Before Senate Acts

Washington, May 26 (AP)—Impatient House leaders traced plans today for beating the Senate to the draw by quick enacting the new silver monetary bill next week.

Confident that little difficulty will be encountered in gaining House approval, Chairman Doughton, Democrat, North Carolina, of the ways and means committee, said today he plans to send it to the Senate as quickly as possible.

Originally, it had been planned by the Democratic chieftains to let the Senate substitute the new measure to make silver a fourth of the monetary stock of the United States for the House-approved Dies bill. Then the House would tack on the proposed tax features against silver speculators.

Determined to speed consideration, Doughton said he would seek to "shoot it through." This would leave up to the Senate the simple matter of acceptance.

11.34c Per Pound Base For Setting Bankhead Act Tax

Washington, May 26 (AP)—Rexford G. Tugwell, acting secretary of agriculture, said today an average price of 11.34 cents per pound for lint cotton had been established as the base for determining the tax rate on all cotton under the aBnkhead act.

The figure was determined through a study through a price per pound of 7-8 inch staple, middling spot cotton. The tax which is fixed at 50 per cent of this price, will be levied on all cotton ginned in excess of the total of 10,000,000 bales established in the act.

U. S. Envoy At Havana Is Marked

Plot Is Found To Kill Ambassador And Destroy United States Property

Havana, May 26 (AP)—Cayetano Fraga, chief of the Cuban technical police, announced today he had information of a plot to assassinate Jefferson Cafferey, United States ambassador to Cuba, and to destroy United States property. He said the technical police, as a result were observing the strictest vigilance of the ambassador, and all American-owned buildings.

Mr. Cafferey, who is from Louisiana a United States diplomat for 20 years and former assistant secretary of state, went to Havana December 12, 1933, as President Roosevelt's personal representative.

He was cheered by a great crowd of Cubans when he arrived, and later, largely through his recommendation, the United States recognized the present regime of Carlos Mendieta. Mr. Cafferey was made ambassador.
