BUDGET BALANCED FOR THE STATE AS FISCAL YEAR ENDS

Final Figures Expected To Show North Carolina Has Lived Within Its Income

EXPENDITURES ARE LOW AS POSSIBLE

Total Amount of Revenue From All Sources Will Probably Reach \$24,000,000; Sales Tax Revenue for Fiscal Year Will Exceed \$6,000,000

Daily Dispatch Bureau, In the Six-Walter Hotel, BY J. C. BASKERVILLE

Raleigh, June 30.—While the final figures on revenue collections and expenditures for the fiscal year that closes at midnight tonight will not be definitely known for ten days or so, yet, indications are that the expenditures from the general fund will not materialize beyond collections, it was learned today from authoritative sources. In other words, it is expected that the final figures will show that the State has lived within its budget during this fiscal year and that there will be little or no deficit. Last year the deficit as of June 30 amounted to \$4,084,000.

The total appropriations for this year, as made by the 1933 General Assembly, amounted to \$25,472,760. But the Budget Bureau has held down all allotments and expenditures so that the total amount spent by all the State agencies under the general fund this year is not expected to exceed \$24,000,000, and may be even less than

Henry Ford Adheres To NRA Codes

Automobile Manufacturer Advises Johnson Of Decision; Can Now Bid

Washington, June 30 (AP)—Henry Ford has pledged full compliance with NRA.

Hugh S. Johnson, leader of the recovery administration, announced in mid-afternoon that the automobile manufacturer had notified him by letter of his determination to abide by the automobile code.

The letter climaxed months of differences between the government and the manufacturer, which had resulted in Ford's exclusion from bidding on Government contracts.

The letter was understood to have been referred immediately to Assistant Secretary Harry Woodring of the War Department, indicating as it did that the manufacturer wished to re-

Explosion Feared At Hopewell Plant

Hopewell, Va., June 30. (AP)—Raymond Burroughs, plant manager of the Tubize Chatillon Corporation here, prepared to appeal to Governor Peery today for aid in protecting the population of Hopewell against what he said was a very serious danger of explosion in the plant resulting from suspension of operations caused by a strike of workers.

Nitro-cotton, left in the machines, he said, constitutes a serious danger, which is growing hourly and is likely to explode and wreck the \$20,000,000 plant within a short time just from the heat of the sun.

Brothers Fly Across Atlantic

Benjamin, left, and Joseph Adamowicz, brothers, of Brooklyn, N. Y., landed their Bellanca monoplane, partly shown above, in France today after a flight across the Atlantic ocean from Harbor Grace, Newfoundland, which they left early Friday morning, after a flight from Brooklyn. While they successfully crossed the Atlantic, they were forced down short of their goal when their gasoline ran short. The plane they used was the same one in which Otto Hillig and Holger Hoirilis flew to Germany two years ago.

SAG FEARED AFTER ROOSEVELT LEAVES

Especially Is This Likely for Business if Labor Troubles Grow

NEW BOOM IS WANTED

Bubbles Burst, But What of It? Boomers Would Clean Up First and Get Out Before That Time Came

By CHARLES P. STEWART (Central Press Staff Writer)

Washington, June 30.—While times have picked up somewhat; they have not improved inadequately. This is the impression I gathered from talks with numerous industrial notabilities, financial authorities, average business men and labor leaders during a recent trip through the belt from Pittsburgh, to the west and northwestward as far as the Detroit automotive area. I find it reflected in official circles on my return to Washington.

Inflation seemingly has not "taken" as its advocates hoped and expected it would.

They counted on it to increase prices and thus stimulate buying.

The theory is reasonable. With prices showing tendency to mount the assumption is that the public should be encouraged to lay in supplies of all sorts before the rising tide rises still higher.

But the fact is that the tide doesn't rise very fast and the public doesn't respond to it very readily.

There is some rise and some response but both are insufficient.

Besides much apprehension is expressed that neither will continue—that a sag, instead, is imminent. On my trip I repeatedly heard the guess hazarded that a decline will begin to be felt soon after President Roosevelt leaves on his Pacific voyage—especially if labor trouble spreads as threatened. Several commercial forecasters I met ventured the prophesy—

I met ventured the prophesy that the White House tenant will be summoned back in mid-vacation, to deal with the situation.

The idea that inflation must be made to take more decided effect evidently

Lived In Income, Ehringhaus Says

Raleigh, June 30. (AP)—The State of North Carolina today prepared to close its books for the 1933-34 fiscal year, and Governor Ehringhaus asserted, "We have lived well within our income."

The year-end statement of revenue collections was not ready, but it had past figures of \$21,268,000 yesterday for the general fund.

With a smile, the governor told newspaper men this morning that sales tax receipts have passed \$6,000,000 and pointed out that only 11 months were covered by the payments and no tax was collected on credits and time accounts which had not been paid by June 1.

SCHOOL GROUP IS MAKING ITS PLANS

Highway Moguls of State Association Quiet About Their Program

Daily Dispatch Bureau, In the Six-Walter Hotel, BY J. C. BASKERVILLE

Raleigh, June 30.—The school forces of the State—or rather the city and county superintendents—are already starting to get their ducks in a row for the next General Assembly, despite the fact that it does not meet until January, 1935. Evidently believing that the "early bird gets the worm" and that the worm in this case is more State money for schools and higher salaries, the legislative committee of the North Carolina Education Association, recently appointed by Superintendent Guy B. Phillips, of the Greensboro city schools, who is also president of the NCEA, has held two meetings here within less than a week.

But what this legislative committee is planning to do remains a deep, dark secret, since no one here seems to know that it even met, to say nothing of what it did. The committee is understood to have met here Thursday, as well as last Friday, following the meeting of the State Democratic convention. The strong endorsement given the present State-supported eight-months school system by the Democratic convention is reported to have made some of these school politi-

Marlborough Duke Dies Suddenly At London Residence

London, June 30. (AP)—The Duke of Marlborough, the ninth holder of the historic title, and former husband of Consuelo Vanderbilt, American heiress, died suddenly in London today.

Formerly active in public life, the duke was under secretary of state for the colonies from 1903-05 and joint parliamentary secretary to the board of agriculture in 1917-18. He married Miss Vanderbilt, a daughter of William K. Vanderbilt, in 1895, when she was only 17 years old. They were divorced in 1920.

The duke later married Miss Gladys Beacon of Boston, and the first duchess became the wife of M. Jacques Balsan.

BROTHERS FAIL TO REACH THEIR GOAL IN WARSAW, POLAND

Shortage of Gasoline Forces Landing Short of Objective In Ancestral Country

PLANE HAD CROSSED OCEAN ONCE BEFORE

Adamowicz Brothers Had Hoped To Fly Non-Stop From Harbor Grace, Newfoundland, Which They Left Friday Morning; Thought Gas Sufficient

Paris, June 30. (AP)—The monoplane "City of Warsaw", bearing two Brooklyn fliers, landed safely today southwest of Caen, France.

Although their goal was Warsaw, Poland, they were forced to land because of a shortage of gasoline.

The two brothers, Benjamin and Joseph Adamowicz, Brooklyn soda-pop manufacturers, hopped off from Harbor Grace, Newfoundland, yesterday at 3:38 a. m. in an effort to fly their big bright-hued monoplane the "Warsaw", veteran of one trans-Atlantic crossing, non-stop to Warsaw.

In the ship's tanks when it took off were 6,110 gallons of gasoline, enough, they thought, for 40 hours of flying. They had hoped to cover the 3,000 and more miles to Warsaw in 30 hours, however.

Peace Restored Milwaukee, Wis.

Milwaukee, Wis., June 30. (AP)—Peace after serious rioting descended on the strike-torn areas of Milwaukee today with the ending of the four-day strike of employees of the Milwaukee Railway and Light Company.

Transportation was back to normal as a result of a settlement agreement reached last night between the striking American Federation of Labor unionists and the company.

Dillinger Is Leader In Hold-Up

South Bend Bank Robbed of \$20,000 And One Policeman Is Killed

South Bend, Ind., June 30 (AP)—A gang of bandits believed to have been led by the notorious John Dillinger, raided the Merchants National Bank here today and escaped after killing a policeman and wounding four persons, one of them seriously. Their loot amounted to \$20,000 in cash and currency.

The officer killed was Patrolman Harold Wagner. He was shot down in the view of scores of bystanders as he approached one of the bandits who had stationed himself outside the bank. The robbers entered the bank firing promiscuously, and covered their retreat by a shower of bullets.

The driver of the car in which the men escaped after the robbery was identified as Dillinger by Detective Harry Henderson, a member of a police squad that arrived just as the bandits were fleeing.

WEATHER FOR NORTH CAROLINA

Fair tonight Sunday partly cloudy; local thundershowers Sunday afternoon in north and west portions. FOR HENDERSON For 24-hour period ended at noon today: Highest temperature, 98; lowest, 78; southwest wind; no rain; clear. Temperature at noon today, 95.

MARIE DRESSLER FIGHTS ILLNESS

Marie Dressler, grand old troupier of stage and screen, has been fighting serious illness at Santa Barbara, Cal. The famous actress who first appeared on the stage in 1886 in "Under Two

Tax Warrants To Tobacco Growers

Washington, June 30 (AP)—The Farm Administration said today tobacco growers whose production adjustment contracts under the Kerr-Smith act had been accepted would be issued tax-payment warrants without the necessity of applying for them.

Meanwhile, E. B. Hutson, chief of the tobacco section, said regulations covering issuance of the warrants for flue-cured tobacco grown in North Carolina, South Carolina, Georgia, Florida and Virginia were about completed.

ROOSEVELT NAMES NEW LABOR BOARD

Constituted Under Industrial Dispute Act As Independent Agency

Washington, June 30. (AP)—President Roosevelt today set up a national labor board under the new industrial dispute act.

The following members were appointed: Lloyd Garrison, of Wisconsin, chairman; Henry Alden Millis, of Illinois, and Edwin E. Smith, of Massachusetts.

The executive order established the board in conjunction with the Department of Labor, but not subject to the jurisdiction, supervision of the labor secretary.

The board is composed of three impartial members receiving a salary of \$10,000 a year.

12 Persons Hurt In Head-On Crash On the Southern

Blackville, S. C., June 30. (AP)—Twelve persons were injured, nine very slightly, in a collision between Southern Railway passenger trains about 4 a. m. today, in which nine cars were derailed or overturned.

The accident occurred at Yale Siding, six miles from eber. Eye witnesses said Train No. 24, northbound from Savannah to Chimney Rock, N. C., was pulling into the siding when Train No. 23, running south from Columbia behind schedule struck it a glancing blow in the dark. Three of the injured were taken to a Columbia hospital for treatment.

HITLER ROUGHSHOD RIDING OVER FOES TO RETAIN POWERS

Ex-Chancellor Schleicher is Killed in Resisting Arrest as National Conspirator

NATIONAL ARMY IS READY FOR ACTION

Von Papen, Who Two Weeks Ago, Denounced Hitler Tactics, Is Taken Into Custody; Those Who Raise Hand Against Hitler Will Lose Heads, Is Decree

Berlin, June 30. (AP)—The National German army today was ordered to be ready for emergency duty.

VON PAPEN, SHARP CRITIC OF HITLER, UNDER ARREST

Berlin, June 30. (AP)—Chancellor Franz von Papen, who two weeks ago startled Germany by criticizing certain radical practices of the Nazi government, today was taken into "protective custody", to gether with three members of his staff and removed to the secret police headquarters.

TELEPHONE CONNECTIONS TO BERLIN ARE CUT OFF

Paris, June 30. (AP)—Telephone communications between Paris and Berlin were suddenly cut off at 4:30 p. m. today.

By LOUIS P. LOCHNER, Associated Press Foreign Staff.

Copyrighted by the Associated Press. Berlin, June 30. (AP)—Chancellor Adolf Hitler today rode roughshod over his foes in his effort to maintain his control of Germany.

Former Chancellor Kirk von Schleicher, reactionary and monarchist, was killed by police when he resisted arrest as a conspirator.

Captain Ernst Roehm, national

SOME SECTIONS GET RELIEF FROM HEAT

Thunderstorms Predicted Generally During The Week-End Period

TEMPERATURE AT 110

44 Deaths Have Been Reported Directly or Indirectly From Heat Since Thursday in Sweating Region

(By the Associated Press)

Killing heat that has wilted many sections of the country east of the Rocky Mountains for days was moderating today. Thunderstorms were predicted generally over the week-end.

Temperatures as high as 110 were reported yesterday. In New York City, a "sun temperature" reading in Central Park was 137 degrees, while the shaded official thermometer hit 97. Three deaths were ascribed to the heat.

The list of deaths throughout the heat belt mounted rapidly, even as relief reached many sections. Forty-four deaths have been ascribed directly or indirectly to the heat since Thursday.

Heavy windstorms struck near New Liberty, Iowa, and Taylorville, Ill., causing some property damage yesterday.

Scattered storms broke the heat wave in Ohio, where a dozen heat fatalities occurred yesterday. Eight died yesterday in St. Louis, bringing to 15 the total fatalities for an 11-day stretch of trid temperatures.

Give \$1,555,000 To Morehead Channel

Washington, June 30. (AP)—The Public Works Administration announced today an allotment of \$1,555,000 to the War Department for a 30-foot channel from Beaufort Inlet to Morehead City, N. C., contingent upon assurances marine terminal facilities suitable for ocean-going vessels would be established by local interests at Morehead City.

At the same time EWA announced approval of an application of the Morehead City Port Commission for a loan and grant for \$425,000 for construction of the marine terminal, subject to the commission's entering a contract satisfactory to Administrator Ickes.
