EXECUTIONS, ARRESTS CONTINUE IN GERMANY

Heavy Damage Done By Thunderstorms Sunday In Parts Of State

CHURCH IS STRUCK AT SALISBURY AND TWO GIRLS INJURED

Several Homes Also Struck in Vicinity and Barn in County Is Destroyed By Fire

FIVE MULES KILLED OUT FROM GOLDSBORO

Farmer's Barn Is Destroyed; Rain General In Wayne, Duplin and Lenoir and Many Crops Badly Washed; Area Badly Flooded At Some Points

Salisbury, July 2. (AP)—Lightning, high winds and torrential rains did large damage to Salisbury and vicinity last night as a heat wave which had prevailed for a week was broken. Rainfall was 2.10 inches, or more than the entire amount for the past month, and fell in agonizing showers. Lightning struck the Park Avenue Methodist church while a young people's meeting was in progress and knocked unconscious Helen Hall and Maxine Doby. Neither were seriously hurt. Several homes were struck, a barn belonging to C. A. Goodman in the country was burned, but the stock was saved. Trees were blown down, buildings unroofed and crops damaged to some extent.

More than 600 telephones were put out of commission and utility companies had plenty of trouble from poles shattered by lightning bolts and wires being down. Lightning ran in on a switch at the Kluck cotton mill. Sparks jumped off and ignited some cotton. The sprinkler system started functioning and reyon stored in the basement was damaged by water to an estimated extent of \$8,000.

FIVE MULES KILLED WHEN LIGHTNING STRIKES BARN

Goldsboro, July 2. (AP)—An intense storm struck this section last night, killing five mules, washing crops and flooding the area with 4.9 inches of rain. Norwood Smith, of Grantham township, lost the mules when lightning struck his barn. Reports said the rain was general over Wayne, Lenoir and Duplin counties, and that many crops were badly washed.

Duke Sends Second Man To U. S. Job

Gordon E. Dean, 28, Assistant Law School Head, Follows Dean Miller

Washington, July 2. (AP)—Gordon E. Dean, youthful assistant dean of the Duke University Law School at Durham, N. C., became a special assistant to Joseph B. Keenan, assistant attorney general, today. Dean, who is 28, will work out methods for the Department of Justice to cooperate with local authorities, Keenan said, in announcing the appointment. Last week, Justin Miller, dean of the Duke University Law School, became a special assistant to Solicitor General J. Crawford Biggs. Dean Miller has a year's leave of absence, but Dean has resigned his post at the North Carolina school.

Phantomlike Madman Kills Two In Ohio Steel Factory

Stuebenville, Ohio, July 2. (AP)—A phantomlike madman who seemed bent on killing off the employees of the Wheeling Steel Corporation here, shot and killed two workers in the mill yards today and disappeared in the darkness. The dead are William Messer, 32 and Ray Kockendorfer, 38, employees in the open hearth of the mill. They were shot as they were reporting for work. Last January bullets came out of the darkness in the company yards, fatally wounding Fred Memshimer, 38, company railroad brakeman. On March 21, James Barnett, 28, another employee, was shot three times, but he recovered and left the hospital last week.

Board Named to Calm Steel Strife

Impartial board set up by President Roosevelt is seeking to settle threatened national steel strike amicably. Members of board are: (l. to r.) Chief Justice Walter P. Stacy of North Carolina Supreme Court, chairman; James Mullenbach, Chicago oil man; and Rear Admiral Henry A. Wiley, U. S. N. retired. (Central Press)

Roosevelt Cruiser Turns Finally To The Open Sea

First Stop of Warship To Be At Haiti Thursday For Visit to That U. S. Possession

LOUD FAREWELL IS GIVEN EXECUTIVE

Mrs. Roosevelt and Son Wave as Big Cruiser Slips Away at Annapolis Sunday Evening; Two Other Sons Accompany President On Cruise To Hawaii

Aboard the U. S. S. Gilmer, Accompanying President Roosevelt, July 2. (AP)—President Roosevelt turned toward the open sea today, starting out on his historic journey to the American possessions in the Atlantic and Pacific. The cruiser Houston, carrying the President, neared Hampton Roads at dawn for a final exchange of official papers after a cheering send-off as darkness fell last night at Annapolis, Maryland.

From Hampton Roads, the President does to the high seas, stopping briefly at Haiti Thursday before leaving Porto Rico Friday to travel across the island.

A flotilla of small craft surrounded the cruiser. (Continued on Page Two.)

STATE'S REVENUES HIGHEST ON RECORD

General Fund Receipts For Fiscal Year Just Ended \$21,569,818

Raleigh, July 2. (AP)—The State of North Carolina collected more general fund revenue during the fiscal year which closed Saturday than it ever received before. Receipts for the general fund aggregated \$21,569,818.07, an increase of more than 77,000,000 over the total of \$14,301,819.03 which was collected in 1932-33. A. J. Mixwell, commissioner of revenue, said today. Highway receipts for the 12 fiscal months aggregated \$22,552,478.57, an increase of \$2,383,000 over the 1932-33 total of \$20,169,478.57.

WEATHER

FOR NORTH CAROLINA Generally fair tonight and Tuesday, except local thundershowers Tuesday afternoon.

AMERICAN PROJECT TO LIMIT TRAFFIC IN ARMS ACCEPTED

Plenary Session of Arms Conference Steering Committee Adopts Drastic Plan

TRIBUTES ARE PAID TO UNITED STATES

Other Nations Laud Constructive Proposal by This Country; Draft Will Be Sent All Governments With Idea of Putting It Into Arms Treaty

Geneva July 2. (AP)—The American project to curb the manufacture and traffic of arms urged by President Roosevelt as imperative, was adopted today at a plenary session of the disarmament conference's steering committee.

The plan provides for international registration and publicity and the strictest inspection and supervision of all armaments.

Representatives of Great Britain, France, Venezuela, Sweden, Czechoslovakia, Switzerland and Spain supported and paid tribute to the United States for its constructive proposal. A Venezuelan representative said it "would go down in history as a great success."

A draft of the proposal will be sent to all governments with the idea that it will be incorporated in the general disarmament treaty.

An address of American Ambassador Hugh Gibson announced American acceptance of the plan as drastic, said that it will be an "important contribution to that security which looms so large in the eyes of so many nations."

UNEARTH ABUSES IN MANY DEPARTMENTS

Some are Out-and-Out Graft, Others Only Gross Mismanagement

By CHARLES P. STEWART (Central Press Staff Writer) Washington, July 2.—Abuses of various sorts are beginning to be uncovered in one government subdivision after another as the now dominant element in Washington digs more and more deeply into details of the respective systems of operation in recent years.

These abuses do not all represent out-and-out graft.

Some do. Some represent only gross mismanagement, but as expensive to Uncle Sam as actual dishonesty. Because they are just being revealed it is not unlikely that the current administration will be blamed for them. As a matter of fact most of them are of long standing and the administration of today is entitled to credit for bringing them to public attention—is blameworthy, if at all, for having been a trifle slow in doing so.

But, perhaps, at that, it is unfair to accuse the present powers of delay. The evils they are striving to deal with date back, in their origin, at least to the war period. Fifteen or sixteen months is not a long enough interval to have permitted more than a start upon the task of analyzing them.

For example, it will not be until Congress next meets that many folk will sense anything like the real import of Senator Hugo L. Black's investigation of the mail subsidies granted to American shipping and aviation lines.

During the last session the Alabama senator was too busy with his inquiry to clarify, for popular understanding, the significance of the facts he was bringing out. Starting next January he should and undoubtedly will find time to explain the probe's results in first reader language (the Alabamian is good at simplicity of expression, when he needs to be), to make it plain to the whole country how it has been mulcted, through the postoffice department, for a few interest's benefit.

As to ocean mail charges the inquisition automatically leads back into the matter of the terms upon which government-built vessels were surrendered.

Die In Nazi Uprising In Germany

Kurt von Schleicher In the abortive revolt in Germany last Saturday, the death list included Kurt von Schleicher, commander of the Reichswehr (German army), and who was killed by officers when he resisted arrest, and Ernest Roehm

Ernest Roehm member of the brown shirt army of 800,000, who committed suicide when arrested and shorn of his command. Von Schleicher's death is expected in some quarters to store more trouble for the iron-handed Chancellor Adolf Hitler.

To Congress

Graham A. Barden Of New Bern

BARDEN CHOSEN TO SEAT IN CONGRESS

New Bern Man Beats Luther Hamilton In Third District Saturday

Charlotte, July 2. (AP)—Graham A. Barden, of New Bern, former member of the State House of Representatives, will represent the third North Carolina district in Congress.

Virtually complete unofficial returns from Saturday's run-off primary showed Barden leading his opponent, Luther Hamilton, of Morehead City, by around 2,000 votes.

Returns from 152 of the 165 precincts in the district gave Barden 15,335 votes and Hamilton, 13,309.

The Democratic nomination is equivalent to election, and Barden will succeed the veteran Representative Charles L. Abernethy, who has represented the district in Congress for 12 years. Abernethy ran third in the first primary.

Relief Of Heat Area Promised

New York, July 2. (AP)—Relief from the spell of scorching weather which has gripped the east for the past 13 days is in sight for tomorrow.

Government weather forecasters gave promise of cooling thunder showers locally and lowered temperatures tomorrow night. Today, however, offered no promise of respite to New York's sweltering inhabitants from the heat, which drove an estimated 2,000,000 persons to metropolitan beaches yesterday.

FRANZ VON PAPEN, HITLER CRITIC, DUE TO BE DISCHARGED

Prussian Premier Goering Slated To Become His Successor As German Vice-Chancellor

TRAITORS WILL BE HANDLED SEVERELY

Executions Believed To Be Far Above Known 18; Hundreds Believed Arrested In All Throughout The Nation; Merciless Attitude Is Being Assumed

Berlin, July 2. (AP)—A bold stroke from President Paul von Hindenburg today calling the Reichswehr to the defense of Vice-Chancellor Franz von Papen's safety was quickly followed by advice from usually well informed quarters that the vice chancellor would resign or would be ousted at the instigation of Chancellor Hitler, probably tomorrow.

Advisors said that Prussian Premier Hermann Wilhelm Goering would succeed von Papen in the vice-chancellorship. President von Hindenburg, who earlier in the day had sent his congratulations and blessings to both Hitler and Goering threatened a state of siege if von Papen were victimized for his recent bold stand of criticizing some Nazi policies.

HINDENBURG TO PROTECT VON PAPAN WITH TROOPS Berlin, July 2. (AP)—President Paul von Hindenburg today made the Reichswehr (German army) personally responsible for the safety of Vice-Chancellor.

Morehead's Project To Start Soon

Bailey Says State Has Not Awakened To Full Meaning Of Port To State

Daily Dispatch Bureau, Raleigh, July 2.—Actual work should start any day both on the construction of the port terminals at Morehead City as well as on the dredging of the channel, now that the money has actually been allocated by the Public Works Administration to these projects, Senator Josiah W. Bailey said here today. He was notified Saturday that the FWA had allocated \$1,550,000 for the dredging of the channel and \$25,000 for the port terminal project and feels sure that work will start almost immediately.

"In fact, work has already started on the port terminals project, since the engineers have been on the job making plans and getting everything in readiness for several weeks now," Senator Bailey said. "But now that

Brooklyn Fliers Land Fourth Time

Torun, Poland, July 2. (AP)—Brooklyn's flying brothers, Joseph and Benjamin Adamowicz, were forced down near here today en route to Warsaw, making their fourth landing in Europe after conquering the Atlantic. A defective gasoline pipe was the trouble this time. Neither of the brothers was hurt and the plane was damaged in the landing. They had to fix the gasoline pipe by hand, and make another start for Warsaw, their goal when they left Brooklyn.

Pardon Now Sought For W. B. Davis

Wife Publishes Notice of Intention To File Application With Governor

Asheville, June 2. (AP)—Mrs. Wallace B. Davis today published formal notice of her intention to seek a pardon for her husband at a State's prison camp following his conviction, three years ago of bank law violations.

Davis has served 20 months in two cases. He was sentenced to from five to seven years for publishing a false report of the condition of the Central Bank and Trust Company, of which he was president prior to its failure. Another sentence of from four to six years for conspiracy with Luke Lea and Luke Lea, Jr., to defraud the bank was ordered to run concurrently.

Davis was employed in the library of the Central Prison at Raleigh until recently, when he obtained a transfer to a farm camp in the interest of his health.

The transfer came almost simultaneously with the arrival at the prison of the Leas, who lost a long fight to escape service of their terms. The elder Lea faces a six to ten year term and the younger a two to four year

Government Has Leeway Of Huge Spendings Soon

Washington, July 2. (AP)—In the fiscal year just beginning, the government can spend nearly ten billion dollars and still remain within President Roosevelt's estimate of the cost of whipping the depression.

It spent a peace-time record of \$7,105,050,084.95 in the 1934 fiscal year, which closed Saturday night, piled up an operating deficit of \$3,989,486,035.42 and pushed the public debt to an all-time high of slightly over \$27,000,000,000.

Even these huge sums were far below Mr. Roosevelt's forecast of \$10,569,006,967 of outlays in the old year and a debt increase of \$7,809,068,211 as compared with the actual boost of \$4,514,468,954.33.

Administration officials re-asserted that funds budgeted for the old and new years together which were not spent in the last 12 months will be spent in the next—if necessary for relief and recovery.
