Britain and France And Italy In Accord In Efforts To Stave Off Future Clash

BRITAIN MAKES NO FURTHER ALLIANCES

Sir John Simon, Foreign Secretary, Reassures House of Commons as Barthou in Paris Starts Work on Eastern Pact; Italy Agrees With England

London, July 13.—(AP)—Great Britain has reinforced the pact of Locarno, but has not entered any "select alliance" with any country.

In his anxiously awaited statement on continental affairs, Sir John said the recent Anglo-French conversations had resulted in a greater feeling of peace and security in Europe and will greatly improve conditions on the continent if powers affected fully enter the proposed eastern regional agreement.

He added that Premier Mussolini of Italy agrees with Britain as to the necessity of an eastern pact—"eastern Locarno" as it has been called—and fully approves of it.

Sir John supported the statement of Louis Barthou, the French foreign minister, when the latter left London, that Britain and France were cooperating in trying to perfect permanent peace in Europe.

GERMANS PROTEST JOHNSON'S SPEECH

State Department Replies With Underhanded Apology for Remarks

Washington, July 13. (AP)—Replying to an official German protest against the anti-Hitler utterances at Waterloo, Ova, of Hugh S. Johnson, the State Department said today it was "to be regretted that the position occupied by the recovery administrator made it possible for remarks by him as an individual to be misconstrued as official."

The department made this statement in explaining a visit to Secretary Hull's office today by Dr. Rudolph Leitner, charge d'affaires of the German embassy, to protest Johnson's speech.

In his Waterloo speech yesterday, the NRA chief said conditions in Germany made him "very actively sick." "The idea that adult, responsible men can be taken from their homes—stood up against a wall—backs to rifles—and shot to death—is beyond expression," he added.

Secretary Hull declined to answer questions asked by newspaper men concerning any other phases of General Johnson's speech or the German government's protest.

He also declined to say whether the State Department considered the statement made to Leitner by Hull could be considered as closing the episode, or whether any further action by the government was anticipated.

(Copyrighted by The Associated Press)

Berlin, July 13 (AP)—Chancellor Adolf Hitler told the German people and the world today that he would make a brutally frank declaration of events, "which will live in the memory of our history."

Speaking before a packed audience, which included the German eichstag, the chancellor told the waiting throngs they had been called "to give me a chance to explain events."

"The content of my declaration will be brutally frank," he said. He said the events of which he intended to speak were "as sad as they were menacing."

"I must limit myself," he said, "only in the extent of my regard for the interests of the reich and otherwise for a feeling of shame."

"We have not made a revolution as anarchists. But as executives we have removed the regime of a revolt."

Tobacco Farmers Are Carrying Out Reduction Pledge

Washington, July 13 (AP)—J. B. Hutson, chief of the farm administration's section, said today that tobacco farmers were making acreage reductions which they agreed to last winter.

The July report estimated the tobacco crop this year at 1,039,517,000 pounds. This is the approximate figure set for limitation of this year's crop, Hutson said.

The prospective crop is as much below the annual world consumption of United States tobacco as the 1933 crop was above, he added.

In addition, farmers have made progress toward reducing surplus stocks, Hutson said, asserting this year's crop would result in removing approximately 20 million pounds of the 950,000,000 pounds of surplus.

Daily Dispatch Bureau, Raleigh, July 13.—The Department of Revenue is about ready to "crack down" on some 35 or 40 merchants, almost all of them in Winston-Salem, who so far have refused to make any returns or pay any of the sales tax to the State, it was learned today from authoritative sources. A high navy official said the building program is being pointed toward

Sympathetic Walk - Outs Threaten Serious Situation in Great Cities Along The Pacific; Food, Gasoline and Fuel May Run Short If Crisis Develops

San Francisco, Cal., July 13. (AP)—Housewives and men in the street felt the Pacific coast maritime strike today as an increasing number of labor unions joined the movement toward a general strike in the San Francisco Bay area.

Shortages of food, gasoline and fuel became an actual threat.

With a move toward a general strike gaining headway in Portland, Oregon, and rumblings of a similar movement heard in Los Angeles, the San Francisco strategy committee called a meeting of all unions this afternoon at which a general strike is expected to be demanded.

Nearly 100,000 workers in San Francisco and the trans-bay cities of Oakland, Berkeley and Alameda have pledged themselves to walk out in sympathy with 27,000 striking maritime workers if the strategy committee

Abernethy Files Counter Suit On Sanitarium Plea

New Bern, July 13 (AP)—Answering a suit of the Washington Sanitarium, Inc., for collection of an alleged debt of \$1,415.26, Representative C. L. Abernethy, Mrs. Abernethy and C. L. Abernethy, Jr., have filed in superior court here a counter claim of \$35,000 and costs against the hospital for "malicious and wanton and willful abuse of the process of the court."

The counter claim advances the contention that the sanitarium suit, which was filed here May 19, was part of a "wrongful scheme to intimidate the defendant into paying an excessive bill."

Pay Raise Likely To Teachers

Martin Says Federal Aid Will Likely Assure Ten Percent More Salary

Raleigh, July 13. (AP)—LeRoy Martin, executive secretary of the State School Commission, returned to Raleigh today from a trip to Washington, expressing the opinion there was some hope that North Carolina teachers may receive a 10 per cent increase in salary next fall.

"The ultimate decision in the matter must of necessity rest with the governor and the commission," Martin said, "but there is a possibility there may be an increase of ten per cent."

The commission will meet here in a couple of weeks, Martin said, and will probably consider the matter then. At the same time, bids for the purchase of some 750 buses with funds made available by the Federal Public Works Administration will be considered.

Should teachers' salaries be increased, it is understood the increase would be made purposely to place annual expenditures above State appropriations. It was pointed out by State officials today if the State launched a school program which used all of its money in seven months or less, the State could assume the status as all other states and ask Federal fund to keep the schools from closing.

Washington, July 13.—Senator William E. Borah is too old to be nominated for the White House.

He is just past 69. He will be 71 about the time the 1936 national conventions are being held. If he were to be nominated and elected he would be almost midway between 71 and 72 by inauguration day. How dependable his health is, also is a doubtful issue; he underwent quite a prolonged hospital siege and an operation rather recently. In view of his age questions
