### Bankhead Act May Be Scrapped As Result Of Short Cotton Crop

#### DROUGHT EXTENDS ITS KILLING HEAT INTO DEEP SOUTH

Texas and Oklahoma, Big  
Cotton Growing States,  
Already Hard Hit  
by Dry Weather

#### CATTLE BUYING TO BE MUCH ENLARGED

Four and Possibly Seven  
Million Head To Be Bought  
With Less Than Two Mil-  
lion Taken So Far; Effort  
To Aid Farmer To Con-  
tinue, Wallace Asserts

Washington, July 27. (AP)—Out of the dust and misery of the nation's worst drought as yet today the possibility that the Bankhead act, imposing compulsory reduction of the cotton crop, may be scrapped. The drought has been extending its killing reign into the South, notably Texas and Oklahoma. This has led officials to wonder whether the crop would not be reduced even lower than the 10-40 251 bales permitted under the Bankhead act.

At the same time an enormous expansion of the government's cattle buying program is planned. Secretary Wallace declared "we expect to buy at least 4,000,000 cattle and possibly 7,000,000. The government has already bought 1,500,000 to save them from death by thirst and starvation."

Wallace predicted the AAA's general effort to aid the farmer or some similar plan "will continue, regardless of any change in administration—or there will be disaster again."

#### FOES OF NEW DEAL TRUST ROOSEVELT

That's Why Security Mar-  
kets Are Insensitive to  
U. S. Events

By LESLIE EICHEL  
New York, July 27. (CP)—Security markets are becoming peculiarly sensitive to European developments—but rarely reflect American developments. There is a reason. Revolution—reactionary revolution—is looked for in Europe. The United States, on the other hand, is seen "safe" in the hands of Franklin D. Roosevelt.

A panic would ensue in the United States if anything should happen to President Roosevelt, some men say. Even the men who oppose the New Deal every step of the way are fearful with Mr. Roosevelt out of the country. They believe he stands as the chief support of the order, which has made and preserved them.

In the same time, however, the business forces which oppose the New Deal are not letting up in their opposition an iota. Indeed, they are strengthening their breastworks.

#### Faction Abroad

The calling of National Guard every few days now is producing an effect abroad that Americans are combating a revolution.

Europeans cannot conceive that the troops called are National Guardsmen—that they are not part of a regular army.

The Roosevelt administration has indicated that it frowns upon such use of National Guardsmen. Con-

## Dillinger's Face-Lifting Doctor And Girl Taken

Chicago, July 27. (AP)—John Dillinger's last sweetheart and the plastic surgeon who sought to conceal the gang chief's identity in a face-lifting operation, were reported held by Federal agents today.

Samuel P. Cowley, acting head of the Department of Justice investigating branch here, did not deny that both had joined Mrs. Anna Sage, the "woman in red" who accompanied Dillinger and his girl friend the night he was slain in custody. He merely refused to comment on the developments.

The sweetheart, Polly Hamilton Keele, was reported to have surrendered, but the manner of the doctor's purported apprehension was not made public.

Officials declined to discuss the possibility that the Keele girl was the woman who led the agents to James Probasco was seized and surgicial instruments were found. Probasco later committed suicide.

### European Powers Ready to Act to Preserve Austrian Freedom

Concerted action by other European powers to prevent Austria from being made a German dependency by a Nazi coup is indicated, following "putsch" in which Emil Fey (1), minister of safety, and Chancellor Engelbert Dollfuss (2) were captured and the latter killed in the Chancellery in Vienna, before which a crowd of demonstrators is shown. Kurt Schuschnigg (3) became acting chancellor and President Miklas (4), and Dr. Anton Rintelen (5), Nazi leader, became principal actors in the drama staged to the accompaniment of rattling machine guns. A machine gunner is seen on duty at a Vienna street corner as shadow of Hitler (right) influence in Austrian affairs lengthens. (Central Press)

## Radicalism Being Curbed As Pendulum Swings Back

Babson Believes World Moving Again Toward The  
"Right"; People Will Find the CCC, TVA, HOLC,  
FERA, Etc., Have All Turned Out To Be IOU's

By ROGER W. BABSON  
(Copyright, 1934, Publishers Financial Bureau Inc.)  
Babson Park, Mass., July 27.—A prominent preacher has recently quoted me as saying: "Capitalism is dead!" Of course, I never said nor thought this. To believe this would be to believe that the world has been turned upside down. The principle of capitalism—the desire to acquire and hold real property—is inborn in the human race. It has existed since the world began and it would be a brave soothsayer who would dare predict its complete elimination.

World War Blow to Capitalism  
Capitalism as a system has had its ups and downs throughout the centuries just as art, literature, democracy and religion have had their

periods of strength and weakness. With the Renaissance and Reformation after the Middle Ages, with the discovery of the New World, and with the invention of stock companies, capitalism increased in power very rapidly. It reached its peak in this country some years ago, and has since been subject to terrific blows. One of these blows, resulting from the World War, has been witnessed by the present generation. It started in Russia, spread over Europe, and crossed the seas to America.

It, however, is foolish to think of capitalism as being dead even in Russia; while in Austria, Germany, Italy, Australia and other nations, all attempts to kill it have been checked by

## 1368 Dead As Drought Is Halted

(By The Associated Press)  
Scorching heat has been routed after killing 1,368 persons.

Cool breezes swept rains into most sections yesterday and today, but, while they brought a sharp drop in heat fatalities, they afforded no material aid the drought ravaged farm area.

In the Pacific southwest, however, where a new heat wave started, thermometers went up to 110 degrees. Readings were high too, along the Atlantic coast.

## HENRY STEVENS IS TO OPPOSE BAILEY

Former Legion Head Said  
To Be Ready To Make  
an Announcement

In the Sir Walter Hotel, Daily Dispatch Bureau  
BY J. C. BASKERVILLE.  
Raleigh, July 27.—Ex-National American Legion Commander Henry L. Stevens, of Warsaw, is going to do the running for the United States Senate against Josiah William Bailey, continuing reports say.

There was a Duplin delegation in Raleigh yesterday evening. Members of it think Mr. Stevens has about made up his mind. To date there have been many suggestions of possible candidacies. The proponents of the opposition were looking for a runner. Former Lieutenant Governor R. T. Fountain has shown considerable interest in the race and when last interviewed on the subject said he neither has said he would nor would not try to beat Mr. Bailey. Governor Ehringhaus apparently has no interest at all in it. That leaves the East with uncertain candidates. But the Duplin people say they have been talking with Mr. Stevens, who impressed them as about to make a decision.

It is known here that Senator Bailey would have provided at least two good Washington appointments for Mr. Stevens had the Warsaw lawyer been willing to accept them. By declining to accept these offers Mr. Stevens left himself free to contest with Mr. Bailey and without at

## Terrorists Threatening Paris Again

"Three Judges of  
Hell" Believed Re-  
sponsible for Sub-  
way Blast Fatality

Paris, July 28. (AP)—The "three judges of hell"—mad bombers who have terrorized the French capital—were believed by police to be responsible for a Montparnasse subway station today, which killed the stationmaster and injured two passengers.

A conductor in a "first class" coach found an innocent lying package lying on a seat. At the Montparnasse station, where two subway lines intersect, he turned it over to the station master. The train pulled out, and just as the station master was examining the package the bombs inside exploded. He was killed. Two subway riders were injured.

The episode was the first subway blast in a long series of bombings attributed to the unidentified person for whom police have sought for months past and who signed notes attached to their bombs: "The three judges of hell."

## State Drys Resentful Of Article

No Disposition How-  
ever, To Call to Mat  
Writer in Collier's  
Weekly

Daily Dispatch Bureau,  
In the Sir Walter Hotel,  
BY J. C. BASKERVILLE.  
Raleigh, July 27.—United dries who are so resentful of the recent Collier's Weekly story on liquor conditions in North Carolina are not disposed to send for Owen P. White, who wrote the "Carolina Moon" article and make him tell what he knows under "ad testificandum" processes.

One often reads articles almost as

and Saturday; not much change  
in temperature.

## Compromise Agreements In Strike Disputes Rejected

Stockyard Workers Refuse Terms; Martial Law Con-  
tinues in Minneapolis Truck Drivers' Strike; San  
Francisco Trouble Is Practically At An End

(By The Associated Press)  
Martial law—the first ever declared in Minnesota—prevailed over the strike in Minneapolis truck drivers today as Federal mediators drew up a new statement on settlement terms.

With business at a standstill, striking livestock handlers at the Chicago union stock yards turned down a "compromise proposal" of the employers. New negotiations were expected today in an attempt to effect a settlement.

On the Pacific coast, settlement was announced in the street car strike, last vestige of the San Francisco general strike, and the mediation board considered a plan to return 12,000 striking longshoremen to the docks by Monday.

The National Steel Labor Board announced a "satisfactory accord" has been reached in its first case, the dispute between the Republic Steel Corporation and the Amalgamated Association of Iron, Steel and Tin Workers.

## Ringling's Show Hit By Fever

Detroit, Mich., July 27. (AP)—The city health department disclosed today that 77 performers, trainers and other employees of the Ringling Brothers and Barnum and Bailey combined circus are in a hospital here, at least ten of them suffering from typhoid fever, and the others suspected of having the disease.

The circus closed a three-day engagement here Tuesday night and moved to other Michigan cities today. It came into Michigan from Toledo last week.

Dr. Fred M. Meade, of the city's board of health, said that spectators were not exposing themselves to the disease by attending the circus.

## THIS MAN'S FAITH IN FUTURE SECURE

Replies to Roosevelt Ques-  
tionnaire in Comparison  
of His Condition

By CHARLES P. STEWART  
Washington, July 27.—(CP)—Among the many kindly readers I am indebted to for answers to my recent questionnaire, borrowed from President Roosevelt's last radio talk before his departure for Hawaii, the prize opti-  
mism is a hotel man in the far south-  
west, who, acknowledging in order the first four Presidential queries (1—Are you better off than a year ago? 2—Are your debts less burdensome? 3—Is your bank account more secure? 4—Are your working conditions better?)

mine His Move

Daily Dispatch Bureau,  
In the Sir Walter Hotel,  
BY J. C. BASKERVILLE.  
When the North Carolina farmers and farm women meet here next week in their annual convention, sentiment is expected to take such shape as to determine for W. Kerr Scott, past master of the North Carolina Grange, whether he will make the fight in 1936 to defeat Commissioner W. A. Graham of the department of agriculture for renomination.

Mr. Scott admits that he would like to run. But one thing stands in the way, he says, and that is money. He would not enjoy hocking his home to get the necessary money. He realizes that to beat Commissioner Graham one must beat a whole family, the Grahams everywhere. It is one of the jokes of the situation that Mr.

(Continued on Page Three.)

## Tobacco Growers' Talk Agreements

Washington, July 27. (AP)—A private discussion was begun here today among flue-cured tobacco growers and buyers with the Farm Administration officials concerning a proposed marketing agreement for this year.

Recently buyers met with AAA officials, and after an all-day talk were represented as believing no agreement was necessary this year. They were quoted by administration officials as saying it appeared that the farmer would have "no stake in such an agreement" as the prospects were he would be assured or parity prices without it.

Today's conference was called to get the farmers' viewpoint, with growers from the Carolinas, Georgia and Virginia invited.

AAA executives, however, have made no secret of the fact that they doubt an agreement will be necessary. It has been understood they are not going to be insistent upon one, barring unforeseen contingencies.

## VIENNA PREPARING DEFENSES AGAINST ATTACKS BY NAZIS

Important Government  
Buildings in Capital  
Heavily Guarded By  
Heimwehr Soldiers

## ASK MORE TROOPS IN THE PROVINCES

Thousands Are Reported To  
Have Been Killed and  
Wounded in Disturbances  
Since Outbreak Occurred  
Wednesday; Fascist Offi-  
cials Face Crisis Calmly

Leizen, Austria, July 27. (AP)—Government troops at noon today gained control of phyrn Pass in a battle against Nazis, which had lasted since 2 p. m. Wednesday. Eighteen men were killed.

The battle began when armed Nazis tried to block the pass, ambushing an army battalion and several auxiliary forces, entering Ennstal, Styria, from Upper Austria.

(Copyright by The Associated Press)  
Vienna, July 27. (AP)—The Austrian government this afternoon began feverish preparations for the defense of the capital city.

Whole sections of the country were reported in a state of approximately anarchy.

In Vienna itself, heavy cordons of Fascist heimwehr troops were drawn around the district which embraced most important government buildings. Machine gun companies mounted their weapons on the roof of the "Hochhaus", Vienna's skyscraper, giving the guns a position of command over the federal chancellery, on the Balthausplatz.

All government buildings were hurriedly supplied with candles as an evidence of fear that the electric supply may be cut off.

At heimwehr headquarters in the closely guarded Rennasse, petitions for reinforcements were constantly arriving from Karinthia.

The last SOS message made an urgent demand that all men available be sent immediately to Karinthia, where the Nazis apparently were making big gains.

Officers in the heimwehr headquarters estimated that 180 heimwehr men had been killed in Austria by last mid-

## COMMUNISTS EYED AT MINNEAPOLIS

Employers Refuse To Deal  
With Strikers Inspired  
by the Reds

Minneapolis, Minn., July 27. (AP)—Employers rejected a suggestion that they reconsider the refusal of peace terms advanced by the Federal mediators in the truck drivers' strike today as Federal officials turned inquisitorial eyes on two suspected communists linked by police with the strike.

Reiterating their previous answer they would not "deal with communists", the employers advised the Reb. Francis Haas and E. H. Dinnagan, mediators, they would not enter into arbitration with the wage scale fixed in advance.
