At 12:20 p. m., the physicians announced: "Condition as compared to this morning is unchanged. Full consciousness remains. Toward noon the patient took light nourishment." It was shortly afterwards that Hitler and an entourage arrived by automobile from the airport at Marlenburg. The motorcade comprised nine automobiles. Each carried seven men. Oklahoma City, Okla., Aug. 1 (AP)—Facing death charges in the death of Marion Mills, former University of Oklahoma beauty queen, Neil Buyers, young pharmacy student, surrendered to his attorney today after eluding officers three weeks.

Tired and worn from his wandering in three states, the 21-year-old student appeared at the home of his attorney, W. P. Morrison, and disclaimed responsibility for the death of Miss Mills at Norman, Okla., July 10. "I committed no crime," he cried. "I just couldn't face the disgrace." Young Buyers fled from Norman following the death of the girl at the apartment of Mrs. Hazel Brown, a fraternity house cook. Mrs. Brown told authorities the girl had been taking quack medicine in an effort to avert motherhood. Mrs. Brown, after being held in jail a week, was released on \$2,500 bond as a material witness.

HUTSON DECLARES GRADUATED TAX ON CIGARETTES TALKED

Best Way For Farmer To Get His Share of Profits from Tobacco, Tobacco Chief Says

15 CIGARETTES FOR NICKLE SUGGESTED

Special Consideration Would Be Given Package of That Type; AAA Expert Speaks at Farm and Home Week Audience Gathered At State College

Raleigh, Aug. 1 (AP)—J. B. Hutson, chief of the tobacco section of the Agriculture Adjustment Administration, today told farmers of North Carolina at the Farm and Home Week here that the AAA is ready to suggest for consideration a graduated tax scale for cigarettes which would encourage the production of a package of 15 cigarettes to sell at five cents.

Explaining he was not assuming to state the administration's policy, Hutson said, "We have given careful study to the general idea of reduction in tobacco taxes over a period of several months, and if a substantial reduction in the tax rate can be made we suggest that consideration be given to: x x x x"

He then outlined a proposal for three levies: three dollars per thousand on cigarettes, with a net wholesale price of more than \$4.25 per 1,000; \$2 per thousand on cigarettes selling between \$3 and \$4.25 per 1,000; and \$1.40 per 1,000 on cigarettes with net wholesale price not more than \$3 per 1,000, provided they are sold in packages of 15 cigarettes each."

"In our judgment the above rate would more nearly accomplish the objective of tobacco growers for increased returns from their crop, than any other combination of rates that has been proposed," Hutson said. G. W. Watkins, assistant chief of the AAA cotton section, told the farmers that the future of cotton crop control depended on cooperation from all the growers. "This is a case of all hanging together or all going back to ragged individualism," he said. He predicted that the 1935 reduction program "will probably continue on lines similar to that for this year."

ENGLISH OPINION SET AGAINST WAR

Public More Aroused There Than In U. S. in Opposing Any New Fight

By LESLIE EICHEL. New York, Aug. 1.—There is not much danger that England would go to war because of any squabble among continental European countries. Public opinion in England is more aroused than in the United States against war. One has only to read English newspapers to see how strongly "Hands Off" has taken hold. England, like the United States, regrets having entered the argument which became the World War. England lost more than

Big Flaws In Recovery Plan Found

NRA Already in Rough Water And AAA Perceives Rough Water Ahead

Washington, Aug. 1 (CP)—Two serious flaws in the administration's recovery program are beginning to demonstrate themselves in a fashion too noticeable for even the most optimistic of administrationists to overlook. They can't admit, for publication, that they see them. Nevertheless, talking confidentially with NRA and AAA experts, one soon ascertains that they clearly recognize this couple of vital mistakes—and that it is open to grave question whether or not they can be corrected now before they have caused a deal of trouble. NRA already is in rough water.
