

DETROIT TIGERS PENNANT WINNERS

Remain Idle While Yankees Lose to Boston Red Sox by a 5-0 Score

New York, Sept. 25—Mickey Cochrane's "team of destiny," the Detroit Tigers, yesterday clinched their first American League pennant in a quarter of a century—without throwing a ball.

The Tigers, although idle yesterday, automatically succeeded Washington's Senator as custodians of the junior circuit flag when the second-place New York Yankees were mathematically counted out of the race as they closed their home season by dropping a 5 to 0 decision to the Boston Red Sox.

With only five games remaining on their schedule, the Yankees dropped to six games back of the Tigers. Mickey Cochrane's men can lose all of their remaining five contests and still finish with a game to spare, even though the Yankees win all of their games.

Action Soon Expected On Rail Lease

(Continued from Page One.)

N. C. Railroad by the State. The Norfolk and Southern, of course, is in default on its rental payments under the present lease, so that to all intents and purposes this lease is void, especially since the road is now in receivership. The main question which Governor Ehringhaus must decide is whether or not the State will lease the railroad

to some other line, attempt to opt it to the receivers for the Norfolk Southern. While the governor will not give any indication of what he has in mind or what he intends to do, there are indications that he already has some attractive offers for the lease from several other railroads that would be only too glad to get this line into Morehead City and get the resulting monopoly on the business that is expected to move through this port. So if the receivers for the Norfolk Southern are not willing to release his road on the State's terms, it is believed that the governor will not have any trouble in finding other lines that are willing and anxious to meet them.

It is a well known fact that the old management of the Norfolk and Southern bitterly opposed the Morehead City port project and that it also attempted to convey the impression that it did not need the A. and N. C. line anyway. But both the governor and others who have been studying the situation are convinced that the Norfolk and Southern does

need the A. and N. C. line from Goldsboro to Morehead City more than ever, if it ever expects to get on its feet financially again and that as a result the receiver will re-lease the road virtually on the State's terms in order to prevent any of the other roads from getting it.

At the present time the Norfolk Southern has to divide business in Norfolk with the Southern, the Atlantic Coast Line and the Seaboard, all larger roads, it was pointed out here today by those who know the facts. Most of these other roads also own or control shipping lines running into Norfolk while the Norfolk Southern does not own any feeder shipping lines. As a result its Norfolk business is not sufficient to keep it on a paying business.

But if the Norfolk and Southern is able to re-lease the A. and N. C. from Goldsboro to Morehead City, it will thus hold a monopoly on all the business through the Morehead City port and not have to divide it up with three other railroads, as it now does in Norfolk, while it can continue to hold all the other business it now has in that territory. In addition, will be in a position to treat on almost its own terms with these other lines. So the belief in informed circles here is that the Norfolk and Southern receivers cannot afford not to release the A. and N. C., since if they do not, their best remaining chance to get the road on a paying basis again will be lost. There are also indications that Receiver Hawkins realizes all these things and is inclined to want to re-lease the road.

Whether the conference today between Governor Ehringhaus and Receiver Hawkins resulted in any definite agreement was not learned this afternoon. But it is believed that the Governor is not going to wait much longer for the Norfolk and Southern to decide on what it is going to do. For he knows that the PWA is holding up final approval of the \$450,000 for the Morehead port project pending the action by the State on the A. and N. C. lease. So unless the Norfolk and Southern receivers act quickly, they may find themselves left out in the cold.

Panels In Closet Give Evidence At Prisoner's House

work, but who had followed his craft both in Germany and in this country. The prosecutor said that when the panel bearing Dr. Condon's address was shown to the prisoner, he acknowledged he had written it and the telephone number because he was interested in the case.

However, Foley did not say whether he displayed a "disinterest."

Meanwhile, Department of Justice experts were busy in Washington in their effort to weave their net closer around Hauptmann.

They disclosed they had found a similarity between the footprints found on the Lindbergh estate the night of March 1, 1932, and those of Hauptmann. An imprint of a man's foot was found the night of the kidnaping near the base of the ladder down which the kidnaper carried the 21-month-old son of Colonel Lindbergh after the kidnaping.

WE LOOKED AT THE OTHERS and that's why

I Bought a Terraplane I have paid three times as much for an automobile that was not nearly so comfortable to ride in and handle as my Terraplane. Performance is great; the economy is great.
—WM. F. HOWARD, Rochester, N. Y.

We Bought a Terraplane We both selected a Terraplane, because its lines most nearly approached an airfoil and therefore offered the least resistance to the air. We have secured between 19 and 20 miles per gallon on trips.
—MR. & MRS. PAUL B. EATON, Charlotte, N. C.

I Bought a Hudson I have owned at least 25 cars. I am thoroughly satisfied with my judgment in purchasing your car, as it has performance, economy, comfort and price.—HENRY M. McCONAUGHY, Seattle.

I Bought a Terraplane I used to be a car driver, but not after I sat behind the wheel of a Terraplane. I'd never have a car again without Road Levelers like you furnish. Smoothest riding I've ever enjoyed.—E. A. CONKLING, Cincinnati.

Does it pay to take your time about buying a car? Just ask Hudson and Terraplane owners. Of the thousands of men and women who have bought new Hudsons and Terraplanes this year, 5 out of every 8 looked at several other makes of cars before they decided.

They'll tell you how much you'll be ahead if you "don't buy any car too hurriedly."

We'll be glad to show you more owners' statements like these above, as well as sworn affidavits to certify the economy and low

upkeep cost enjoyed by owners of Hudson-built cars.

You'll be interested, also, in the facts about the recent nation-wide "Challenge Tests." Only one competing car dared accept a wide open challenge to prove economy and performance—and was beaten in every test.

The facts about Hudson and Terraplane are here at our showrooms for you to see—more real brass tacks information than you ever got about any car before. Come in and ride in these cars—drive them.
