#### REPORT OF BILLION DOLLARS ERRONEOUS

Secretary Says No Definite  
Amounts Have Been Ex-  
pressed; 200 Millions  
Needed to Keep Going  
Projects That Have Al-  
ready Been Put into Work

Washington, Oct. 2 (AP)—Secretary Ickes, indicated to reporters today that he would seek another substantial public works appropriation from the next Congress to provide employment until private enterprises once more can take up all but the normal slack of unemployment.

"I would like to have a real appropriation", Ickes said. "I think the PWA program has more than justified itself, and that we ought to go ahead with it on a substantial scale until we are out of the depression, and that we should be prepared to slacken up whenever private industry can take up the burden of providing sufficient employment."

The secretary added, however, that a billion dollar appropriation were published reports that he would seek erroneous, and that no definite amounts had been issued as yet.

Virtually all of the \$3,700,000,000 which Public Works has had at its disposal is gone. It now is going on a revolving fund established through the sale of bonds held by PWA as security for loans. These are marketed through the Reconstruction Corporation.

#### MORE OF GASTONIA MILLS ARE OPENED

Gastonia, Oct. 2 (AP)—Six textile mills reopened in Gaston county today, leaving only 11 of the county's 104 plants closed as a result of the recently textile strike. Approximately 17,000 are now employed.

#### Conference Over Labor Truce Held

Outcome of Roosevelt Suggestion to Capital and Labor Not Yet Certain

Washington, Oct. 2 (AP)—White House officials said today President Roosevelt had already started conferences with individual leaders for a truce between capital and labor, but that there would be no general or group parleys with either side.

It was explained Mr. Roosevelt had talked with several leaders in industrial and labor circles, even before his address, and would continue to confer with them from time to time.

Just how the plan will work out will depend on the ideas developed at these individual conferences, it was said. Officials added that the President knows only at this time his objectives—"for capital and labor to give a fair trial to peaceful methods of adjusting their conflicts of opinion and interests."

It was also stated on behalf of the President that the plan was not designed as a short cut to collective bargaining or as a move to stay several strikes in key industries this winter.

#### Exclusive Pictures Show Byrd Party in Antarctic

These exclusive and remarkable pictures from the Byrd South Polar expedition were brought through with great difficulty from the frozen south. One of the cows taken on the expedition by Rear Admiral Richard E. Byrd is

shown being taken out for exercise on the ice and snow, wearing a heavy blanket to protect it from cold which reaches at times 60 below zero. The snowmobile, shown resting on the ice, is near the anchored supply ship, the

Jacob Ruppert, and is indispensable in transportation of food from the ship to Little America. The trapdoor in the snow is the only available entrance to the cabin at the outpost camp set up 12 miles south of Little America.

### Huppmann's Associate Sought By Jersey Police In Lindbergh Kidnaping

Lumber Yardmen Saw Hauptmann Pull \$10 Gold Bill  
and Partner Caught Him and Put Up Small  
Change; Suspect's Alibi Believed Exploded

Washington, Oct. 2 (AP)—The Washington Star said today that two secret witnesses had shattered the alibi offered by Bruno Richard Hauptmann to prove he was not the "John" of the Lindbergh kidnaping.

The Star said in a story by Rex Collier that one of the witnesses was understood to be the so-called "mystery woman" with whom District Attorney Samuel J. Foley, of the Bronx has held a number

of private conferences. The other is her husband.

Trenton, N. J., Oct. 2 (AP)—An associate of Bruno Richard Hauptmann, Lindbergh kidnap suspect, who apparently knew the German carpenter was passing "hot" ransom money was being sought today by the New Jersey State police.

Raleigh, Oct. 2—Now that the lease which the Norfolk Southern held on the State-owned Atlantic and North Carolina railroad from Goldsboro to Morehead City has been cancelled and full authority to negotiate for a new lease placed in the hands of Governor J. C. B. Ehringhaus, two things are evident, it was learned here today, as follows:

1. The State is not going to have any trouble leasing the Atlantic and North Carolina line at a much better rental than it had been receiving from the Norfolk Southern.

2. The State is going to see to it that the Norfolk Southern pays the \$150,000 due in back rental, as well

#### U. S. Wins First On Weirtons

Wilmington, Del., Oct. 2 (AP)—Government attorneys won the first skirmish today in the government's suit to join the Weirton Steel Company from interfering with its employees' election, when an officer of the so-called company union was compelled to hand over records for inspection.

Federal Judge John T. Neilds made the ruling on recess of the court. There was no objection to entering the minutes as evidence.

Attorney Paul Williams, of government counsel, asked several questions of meetings held under the em to show that the records were minutes of employees' representation council.

Refers All Interviewers to  
His Son; Veniremen Chal-  
lenged by Defense Attor-

Nothing to do with Selec-  
tion of the Group

United States Court House, Chicago  
Oct. 2 (AP)—Samuel Insull, Sr., head until 1932 of a four billion dollar public utilities system, went on trial in U. S. District court today for mail frauds which it was charged cost investors \$143,000,000.

Insull, in a gray sack suit, was almost the last of 16 defendants to arrive in Judge James H. Wilkerson's court on the sixth floor of the court house.

"I have nothing whatever to say," the principal defendant declared. He waved interviewers toward his son, Samuel Insull, Jr., who entered the corridor with him.

A final defense motion came from Attorney Claude E. Thompson, representing Insull. Sr., when Judge Wilkerson asked if both sides were ready to try the case, after a two-year legal struggle, in which Insull was sought in three nations.

Thompson challenged the array of veniremen, claiming that the defense attorneys had not been allowed sufficient part in the lottery by which prospective jurors were chosen.

### Democrats To Defend Sales Tax

Little Else They Can  
Do in Campaign  
This Fall; Levy Is  
Preferred

Daily Dispatch Bureau,  
In the Sir Walter Hotel,  
By J. C. Baskerville.

Raleigh, Oct. 2—While there has been little said about the sales tax in official quarters here lately, this has been merely a lull before the storm and from now on until the November 6 election, much is expected to be said concerning this tax as the scores of Democratic speakers take to the hustings to defend the record of the party and urge the election of the Democratic candidates to the 1935 General Assembly. For while Chairman J. Wallace Winborne, of the State Democratic Executive Committee, who opened his campaign head-

### Says Japan Now Worst U. S. Enemy

"Our Planes Should  
Be Designed to At-  
tack Japan," Mit-  
chell Declares

Washington, Oct. 2 (AP)—Brigadier General William Mitchell, retired, told the President's Aviation Commission today that "our most dangerous enemy is Japan, and our planes should be designed to attack Japan."

Mitchell, who earlier had said 50 dirigibles could destroy Japan within two days if war broke out with the United States, said the United States should develop planes with a cruising range of from 6,000 to 8,000 miles.

He said Russia possessed planes with a radius of 3,500 miles which could be used either against Japan or western Europe.

The outspoken advocate of a unified air service called the national advisory committee for aeronautics a "political organization." He agreed that the committee had done useful work, but told the commission that one of the reasons he criticized it was because of its opposition to a unified service.

#### BRUCE ETHERIDGE HAS AN OPERATION

Raleigh, Oct. 2 (AP)—R. Bruce Etheridge, director of the North Carolina Department of Conservation and development, underwent a successful operation for appendicitis at Rex hospital this afternoon. He was stricken just before noon and was rushed to the hospital, where the operation was completed in less than an hour.

Manifesto

#### MINISTER OF WAR TO BE QUESTIONED

Latter Says Pamphlet Ex-  
presses Views of Japanese  
Army; Fling Is Taken at  
American Program in  
Pacific, Calling Stimson's  
Recent "Threat" Futile

Tokyo, Oct. 2 (AP)—An official army pamphlet which urged Japan to make ready for a possible war with Russia spread uneasiness among the nation's economic leaders today.

This was reflected on the stock exchange. Leading shares declined on an average of about two yen (about 60 cents).

Newspapers said members of the cabinet, as well as civilians, were taken back by the army's surprising manifesto, which proposed drastic changes in the nation's economic life and in non-military government departments.

It asserted that the United States has three airplanes to Japan's one, and that America wanted a navy larger than this country's in order to support vigorous policies toward the Orient.

Newspapers asserted General Fungero Hayashi, minister of war, would be questioned at the next cabinet meeting about responsibility for authorship of the pamphlet. Political writers predicted that the statement would be a grave issue at the impending special session of the diet.

A war office spokesman, asked if the pamphlet was approved by General Hayashi, who is now traveling in Western Japan, declined to reply, but said, "I can state that the pamphlet expresses the views of the Japanese army."

The pamphlet said the strength of the Japanese army prevented the Soviet from interfering with the power of the Japanese navy, and "made futile the threat of Henry L. Stimson, former United States secretary of State."

In this connection it referred to alleged utterances of the late Rear Admiral Edward W. Eberle to the effect that the American navy was capable of assuming any offensive necessary to enforce the "open door" policy in China.

#### LABOR BOARD HEAD WILL RESIGN POST

Washington, Oct. 2 (AP)—Lloyd K. Garrison, chairman of the Labor Relations Board, told reporters today that he was going to give up his duties to return to the University of Wisconsin as acting dean of the law school.

### Six Kidnap Indictments In Tyrrell

Death Penalty if  
Convicted Permitted  
Under U. S.  
"Lindbergh" Law

Columbia, N. C. Oct. 2 (AP)—Indictments charging six men and one woman with kidnaping Will Morrisette, of Camden county, and taking him across the Virginia State line, where he was beaten for assisting Federal revenue investigators in the seizure and destruction of a still in Currituck county on August 6, were announced here today by J. O. Carr, United States district attorney.

The indictments were returned under the "Lindbergh kidnaping law," and Judge I. M. Meekins, who is presiding over the Federal term of court which opened here yesterday, explained that the maximum sentence is death or life imprisonment.

It was expected that the case would be tried at the Federal court term now in session here, but court attaches indicated that a continuance would be granted.
