#### Danville Man Is Ready To Talk In Lindbergh Affair

Danville, Va., Oct. 3 (AP)—J. C. Roach, Pittsylvania county orchardist, said today he is willing to be a busy service possible in aiding Federal agents to investigate his story that he saw two men he believed to be Bruno Richard Hauptmann and Isadore Fisch in an automobile near here in May, 1932, and overheard them discussing the Lindbergh kidnaping.

He said he had been notified that Department of Justice agents would come here from Washington to question him.

#### Vanderbilt Suit Waits For Friday

#### Unconfirmed Rumor Is Compromise in Sensational Court Action Impends

New York, Oct. 3 (AP)—Supreme Court Justice John S. Carew announced today that hearings on the suit of Mrs. Gloria Morgan Vanderbilt for custody of her ten-year-old daughter, Gloria, had been adjourned until Friday.

Carew's announcement simply said "the case will be over until Friday."

In some quarters the adjournment was interpreted as an effort to bring

### Yeggs Tie Up Police And Get \$100 In Lucama Bank

Lucama, Oct. 3 (AP)—Yeggs broke into the Bank of Lucama early today, turned a hole in the vault door and stole approximately \$100.

Chief of Police S. G. Gunter discovered the yeggs in the bank and entered the building with pistol drawn, but was surprised as he walked into the door, disarmed and trussed up. After tying up the police chief, the yeggs fled.

#### NRA TO MARK TIME WAITING CONGRESS

#### Whole Thing Will Go to Junk Heap Next June Unless Salvaged

#### MUST BE OVERHAULED

#### And Even That May Be Unable to Save Recovery Act; Its Intrinsic Weakness for Start Is Pointed Out

By CHARLES P. STEWART (Central Press Staff Writer) Washington, Oct. 3.—With General Hugh S. Johnson out of it, NRA is expected in Washington to mark time until Congress meets in January and then to have its fate decided—as definitely as possible.

It will not be officially admitted, but it is marking time during the interval.

There is a pretense of activity; of reorganization.

It is the capital's consensus, however that little can, in reality, be accomplished, except to keep the wheels turning pending a complete overhauling of the entire machinery of the whole recovery administration.

Good authorities consider it no certainty that even that can save it.

NRA will go bodily to the scrap

#### Most Powerful Explosive Known Seized In Theft

Bridgeport, Conn., Oct. 3 (AP)—Twenty pounds of poison, the most powerful explosive known, still was missing from the Remington Arms Co. factory today as police resorted to publicity to warn the thieves it could destroy half a city.

As an inducement for the thieves to return the explosives, a company official promised immunity from prosecution if they would return the powder to safeguard the persons in the vicinity where it may be.

#### Gulley Is Given One Hour Term

Columbia, S. C., Oct. 3 (AP)—Herbert Gulley, Federal revenue agent, today had the satisfaction of a judge's assurance that he had "simply made a mistake," but had "done no harm," although convicted by a Federal jury of trespass and damage to personal property in a liquor raid on the home of a Pasquotank county woman.

Judge I. M. Meekins gave Gulley that assurance in sentencing him to serve one hour in the custody of the court's probation officer to satisfy the verdict of the jury.

Gulley contended at his trial that he had a right to search the woman's premises without a warrant because a license for the sale of beer had been issued for the place.

#### Yeggs Tie Up Police And Get \$100 In Lucama Bank

Gunter worked himself free in about half an hour and sounded an alarm.

The yeggs had cut only through the outer door of the vault when discovered by Gunter. They gained access to about \$100 in silver, which was taken. Other funds were behind an inner vault door, which was not opened.

Lucama is in Wilson county, about 10 miles from the city of Wilson. Gunter said there were two robbers.

#### Mother Of Fugitive Is Being Held

#### Mrs. Mais Suspected of Smuggling Hold-Up Pistol to Condemned Son

Richmond, Va., Oct. 3 (AP)—Mrs. Elizabeth Mais, 58, the mother of Robert Mais, convicted killer who shot his way out of Richmond city jail last Saturday, was herself lodged in the same building today. She was arrested yesterday on a warrant charging her with aiding and abetting the escape of her son and Walter Legenza, convicted of murder for participation in a hold-up.

Mrs. Mais, the police contend, smuggled two pistols to her son and Legenza in a cake labelled "baked chicken." The guns were used to shoot down three officers during their break for freedom.

The woman was searched on her arrival at the jail last night, and \$158 in bills and a razor blade were found stitched into her dress. She had been under detention as a "voluntary" prisoner since Saturday.

#### Roosevelt Studies On His Truce

Washington, Oct. 4 (AP)—Laying the groundwork of policies aimed at producing widespread benefits for the industrial order continued today to occupy major administration attention.

Administrative problems facing the industrial recovery board kept the new governors of the blue eagle busy. Meeting for the first time yesterday to tackle the task of organizing the NRA machinery, the board apparently saw ahead a sizeable job.

"We took no action," Chairman Clay Williams reported. "These discussions will continue for several days."

Across the way at the White House President Roosevelt himself gave attention to the industrial situation—his proposal for a truce in industrial war. While industry and its labor speculated over what Mr. Roosevelt's specific moves toward that objective would be, they had the assurance today of an informal statement that the plans did not contemplate disturbing the collective bargaining section of the recovery act, or interference with the labor guarantee clause.

#### TIGERS ERROR TO GIVE CARDS RUNS

#### Five Miscues Come in First Three Innings to Pave Way for Cards' Lead; Three Hurlers Used by Cochrane; Medwick and Greenburg Hit Homers

(By Radio) Navin Field, Detroit, Mich., Oct. 3.—The St. Louis Cardinals, behind the masterful pitching of Jerome "Dizzy" Dean, won the first game of the 1934 World series here today over the Detroit Tigers, winners of the American League pennant.

General Alvin Crowder started on the mound for the Tigers, but errors by his team mates, five in the first three innings, put him hopelessly behind as Dean continued to keep the heavy bats of the American leaguers well in check.

St. Louis got their first runs in the second inning, pushing over a brace as Detroit errors put three men on and Jack Rothrock shot a single to left. In the third they added another when Greenburg errored to allow Rip Collins to cross the plate by a narrow margin.

Detroit took a hand in the scoring in this frame after White had walked and gone to second. Gehring shot a single to center as White trotted

Shawano, Wis., Oct. 3 (AP)—Three men terrorized the village of Gresham ten miles west of here, for two hours early today before escaping with \$4,000 obtained by dynamiting the safe of the First National Bank.

#### State Dries Will Launch Drive Soon

#### Will Urge Law Enforcement and Retention of Bonded Turlington Law

Raleigh, Oct. 3.—The United Dry Forces, defenders of the State's bond dry prohibition law, and which last november won a signal victory when the State voted "No" on the repeal of the eighteenth amendment, is now planning a publicity campaign for better enforcement of the State's dry laws, as well as a general educational campaign with regard to the evils of liquor and the liquor traffic, it was learned today from Cale K. Burkess, executive secretary of the United Dry Forces who managed their successful campaign last fall.

When asked if the United Dry

#### LUMPKIN SUPPORT CAUSES SURPRISE

#### How School Forces and Bowie Both Got Together Is Seeming Mystery

Daily Dispatch Bureau, in the Sir Walter Hotel, By J. C. Baskerville.

Raleigh, Oct. 3.—The fact that Tam C. Bowie and the North Carolina Education Association have apparently climbed into the same political bed and are supporting Willie Lee Lumpkin for speaker of the House in the 1935 General Assembly is causing considerable interest in political circles here and giving new significance to the old saying that politics makes strange bedfellows.

Many are finding it difficult to understand how the school superintendents, principals and teachers can support the same candidate being supported by the Ashe county representative, who favored a maximum appropriation for schools of only \$10,000,000 during the 1935 General Assembly, which would have pro-

#### Army Propagandists Make Most of Fiery General's Testimony in Washington

#### GIVES THEM GROUND TO UPRGE BIG ARMY

#### Army Spokesman in Tokyo Says What Mitchell Said Would be True if Japan Fails to Increase Her Defenses; But Mitchell Is Heavily Discounted

Tokyo, Oct. 3 (AP)—Japanese army propagandists were furnished a text today to preach their own gospel of the necessity of an expanded air force by the testimony in Washington yesterday of Brigadier General William Mitchell, retired.

The army is demanding increased appropriations for defense in the 1935-36 budget, and yesterday published a startling pamphlet in an effort to win popular support.

An army spokesman said:

"If Japan fails to take the proper defensive measures with respect to aviation the dirigible fleets of which General Mitchell dreams would not require even two days to destroy Japan."

"However, we decline to take General Mitchell seriously."

"Mitchell yesterday told the President's aviation commission 'our most dangerous enemy is Japan and our planes should be designed to attack Japan.' He said 50 dirigibles could destroy Japan in two days."

### 500 Georgia Guardsmen Break Up Picket Lines

Rome, Ga., Oct. 3 (AP)—Adjutant General Lindley Camp's strike expeditionary force of 500 State troops early today broke picket lines of striking stove foundry men for the first time since July 21, and officials of four plants planned to open immediately.

The general led his military "flying squadron" at the head of the National Guardsmen in trucks as the three-mile long caravan moved into the city and took a stand at the stove plant.
